2. He is a citizen of the United States or has pending a declaration of intention so to become;

Provided that no professional engineer shall practice architecture or use the designation "architect" or any term derived therefrom, and no architect shall practice professional engineering or use the term "engineer" or any term derived therefrom. Otherwise, any person who shall be engaged in the planning or design for the erection, enlargement or alteration of buildings for others or furnishing architectural supervision of the construction thereof shall be deemed to be practicing architecture and be required to secure a certificate and all annual renewals thereof required by the laws of this state as a condition precedent to his so doing.

(b) The term "building" in this chapter shall be understood to be a structure, consisting of foundations, walls and roof, with or without the other parts. 468.105 Registration.

(1)(a) Within one hundred eighty days after the effective date of this part, all persons contracting in the state shall register with the board in the proper classification unless they are certified. To be registered the applicant shall file evidence of holding a current state or county occupational license or a current license issued by any municipality, city, or county of the state for the type of work for which registration is desired on a form prescribed by the board, accompanied by the registration fee fixed by this part. No examination shall be required by the board for registration.

(b) The secretary of state shall notify each county tax collector of the adoption of this part before September 1, 1967, and supply each with a summary of the requirements for registration and certification. Each tax collector shall notify each applicant for an occupational license as a contractor of the adoption of this part.

(2) Persons not engaged in contracting on the effective date of this part, but later desiring to enter the business shall register with or obtain a certificate from the board under one of the following provisions:

(a) If the area in which the applicant desires to enter the business of contracting has a local board which requires a local competency examination, the applicant shall comply with the local examining and licensing requirements in the area and then file with the board evidence of successful compliance with the local examination and licensing requirements on a form prescribed by the board, accompanied by the registration fee fixed by this part. No examination shall be required by the board for registration under this subsection.

(b) If the area in which the applicant desires to enter the business of contracting does not have a local board which requires a local competency examination and the applicant desires to engage in business as a general contractor or building contractor, or as a residential building contractor other than as specified in subsection (3) the applicant shall obtain a certificate from the board, unless the applicant can furnish proof satisfactory to the board that he has been engaged in the business of contracting in the state for at least two out of the three years next preceding the effective date of this part, in which event the applicant shall be entitled to register with the board in accordance with the provision of subsection (1) (a) above.

(c) If the area in which the applicant desires to enter the business of contracting does not have a local board which requires a local

competency examination, and if the applicant desires to engage in business solely as a residential building contractor on improvements to real property to which the applicant holds legal or equitable title, the applicant shall register with the board in this restricted classification by filing evidence of holding a current state or county occupational license or a current license issued by any municipality, city, or county of the state for the type of work for which registration is desired on a form prescribed by the board, accompanied by the registration fee fixed by this part. No examination shall be required by the board for registration, when issued, shall bear the designation "Residential Building Contractor—Restricted."

(3) Registration permits the registrant to engage in contracting only in the area and for the type of work covered by the registration, unless the state and local licenses are issued for other areas and types of work or unless certification is obtained.

(4) The board may receive an application on prescribed forms with supporting data; and upon finding of fact supporting the need or justification, the board may grant a limited and restricted registration to a contractor not domiciled in the state for one project. Renewal application or registration cannot be granted. During such registration the board shall have complete authority to require compliance with this and other statutes of the state.

History.—§5, ch. 67-110.

***Note.**—Subsections (1) and (2) will be amended by a subsequent reviser's bill to conform them with the provisions of §30(5), ch. 69-106.

(2)(a) Examinations shall be held at times and places within the state as the board determines, but there shall be at least two examinations a year. Each applicant shall take an objective written examination about his fitness for a certificate in the category for which application is made. There shall be a type of examination for each of the three categories of certificates which shall apply to the type of work covered by the certificate applied for. The examination shall cover knowledge of basic principles of contracting and construction applicable to the category for which a certificate is requested. It shall be an open-book examination consisting of multiple-choice, fill-in, true-false, or short-answer questions and may include or consist of diagrams, plans, or sketches in connection with which the applicant is required to demonstrate his knowledge of construction by answering questions keyed to such diagrams, plans, or sketches.

(b) A passing grade on the examination is seventy-five per cent.

(3) Following receipt of the fee and application and successful completion of the examination, the board shall investigate the financial responsibility and credit, and business reputation of the applicant and of any business organization on behalf of which he proposes to engage in contracting, as well as the education and experience of the applicant. Within thirty days from the date of the examination, the board shall inform the applicant in writing whether he has qualified or not and, if the applicant has qualified, that it is ready to issue a certificate in the category for which application was made, subject to compliance with the requirements of subsection (4) of this section.

(4) As a prerequisite to issuance of a certificate, the board shall require the applicant to submit satisfactory evidence that he has obtained public liability insurance in amounts to be determined by the board. Thereupon, the certificate shall be issued forthwith, but this subsection does not apply to inactive certificates.

(5) If an applicant for an original certificate, after having been notified to do so, does not appear for examination within one year from the date of filing his application, the fee paid by him shall be credited to the board as an earned fee. New application for a certificate shall be accompanied by another application fee fixed by this part. Forfeiture of a fee may be waived by the board for good cause.

(6) When a certificate holder desires to engage in contracting in any area of the state, as a prerequisite therefor, he shall only be required to exhibit to the local building official, tax collector, or other person in charge of the issuance of licenses and building permits in the area, evidence of holding a current certificate accompanied by the fee for the occupational license and building permit required of other persons.

(7) The certificate shall not be transferable.

Such application shall also show that the person applying for the examination is legally quali-

The registration or certification, when issued upon application of a business organization, shall be in the name of such business organization and the name of the qualifying individual or individuals shall be noted thereon.

(3)(a) At least one member or supervising employee of the business organization shall be qualified under this law in order for the business organization to hold a current certificate in the category of the business conducted for which the member or supervising employee is qualified. If any individual so qualified on behalf of such business organization ceases to be affiliated with such business organization, he shall inform the board as provided in §468.110(2). In addition, if such individual is the only qualified individual affiliated with the business organization, the business organization shall notify the board of the individual's termination and shall have a period of sixty days from the termination of the individual's affiliation with the business organization in which to qualify another person under the provisions of this part, failing which the certification of the business organization shall be subject to revocation by the board.

(b) The individual shall also inform the board in writing when he proposes to engage in contracting in his own name or in affiliation with another business organization; and he or such new business organization shall supply the same information to the board as required for applicants under this part.

(c) After an investigation of the financial responsibility, credit, and business reputation of the individual, or the new business organization, upon a favorable determination, the board shall forthwith issue without charge or examination a new certificate in the individual's name, or in the name of the new business organization, as provided above.

(4) When a certified business organization makes application for an occupational license in any municipality, city, or county of this state, the application shall be made with the tax collector in the name of the business organization; and the license, when issued, shall be issued to the business organization upon payment of the appropriate licensing fee and exhibition to the tax collector of a valid certificate issued by this board.

(2) A certificate or registration which is inoperative because of failure to renew shall be restored on payment of the proper renewal fee, if the application for restoration is made within ninety days after June 30. If the application for restoration is not made within the ninety day period, the fee for restoration shall be equal to the original application fee; and in addition, the board may require reexamination of the applicant.

(3) A person who is registered or holds a valid certificate from the board may go on inactive status during which time he shall not engage in contracting but may retain his certificate or registration on an inactive basis on payment of an annual renewal fee during the inactive period, not to exceed ten dollars per year.

(1) It is unlawful for any person to engage in the business or act in the capacity of a contractor without having been duly registered or certified.

(2) Any person who violates any provision of this part or commits any of the acts constituting cause for disciplinary action as herein set forth is guilty of a misdemeanor, and upon conviction thereof shall be punished as provided by law.

History.—§11, ch. 67-110.

468.112 Revocation or suspension of certificate or registration.—

(1) On its own motion or the verified written complaint of any person, the board may investigate the action of any contractor certified or registered under this part and hold hearings pursuant to chapter 120; provided, however, when any complaint involves a contractor certified or registered under this part for acts or omissions occurring in any area of the state which has a local board, the board shall forward the complaint to the municipality, city, or county where the alleged violation occurred for its action. Where no local board exists, the board shall take jurisdiction. The board may take appropriate disciplinary action if the contractor is found to be guilty of or has committed any one or more of the acts or omissions constituting cause for disciplinary action set out herein or adopted as rules or regulations by the board.

(2) The following acts constitute cause for disciplinary action:

(a) Willful or deliberate disregard and violation of the applicable building codes or laws of the state or any municipalities, cities or counties thereof.

(b) Aiding or abetting any uncertified or unregistered person to evade any provision of this part.

(c) Knowingly combining or conspiring with an uncertified or unregistered person by allowing one's certificate or registration to be used by any uncertified or unregistered person with intent to evade the provisions of this part. When a certificate holder or registrant allows his certificate or registration to be used by one or more companies without having any active participation in the operations, management, or control of said companies, this act constitutes prima facie evidence of an intent to evade the provisions of this part.

(d) Acting in the capacity of a contractor under any certificate or registration issued hereunder except in the name of the certificate holder or registrant as set forth on the issued certificate or registration, or in accordance with the personnel of the certificate holder or registrant as set forth in the application for the certificate or registration, or as later changed as provided in this part.

(e) Diversion of funds or property received for prosecution or completion of a specified construction project or operation where

as a result of the diversion the contractor is or will be unable to fulfill the terms of his obligation or contract.

(f) Disciplinary action by any municipality, city, or county, which action shall be reviewed by the state board before the state board takes any disciplinary action of its own.

(g) Failure in any material respect to comply with the provisions of this part.

(3) The board is authorized to take the following disciplinary action:

(a) Suspend the certificate holder or registrant from all operations as a contractor during the period fixed by the board but the board may permit the certificate holder or registrant to complete any contracts then uncompleted.

(b) Revoke a certificate or registration.

(c) Impose an administrative fine or penalty not to exceed \$500.00, which shall be recoverable by the board only in an action at law.

(4) After suspension of the certificate or registration on any grounds set forth in this section, the board may remove the suspension on proof of compliance by the contractor with all conditions prescribed by the board for removal of suspension; or, in the absence of such conditions, as in the sound discretion of the board.

(5) After revocation of a certificate or registration, the certificate or registration shall not be renewed or reissued for at least one year after revocation and then only on a showing of rehabilitation of the contractor.

(6) The lapse or suspension of a certificate or registration by operation of law or by order of the board or a court, or its voluntary surrender by a certificate holder or registrant does not deprive the board of jurisdiction to investigate or act in disciplinary proceedings against the certificate holder or registrant.

(7) The filing of a petition in bankruptcy, either voluntarily or involuntarily, or the making of a composition of creditors or the appointment of a receiver for the business of the registrant or certificate holder may be considered by the board as just cause for suspension of a certificate or registration.

(8) The board may restrain any violation of this part by action in a court of competent jurisdiction.

History.—§12, ch. 67-110.

468.113 Application of part II.—

(1) Nothing in this part limits the power of a municipality, city or county to regulate the quality and character of work performed by contractors through a system of permits, fees, and inspections which are designed to secure compliance with and aid in the implementation of state and local building laws or to enforce other local laws for the protection of the public health and safety.

(2) Nothing in this part limits the power of a municipality, city or county to collect occupational licenses and inspection fees for engaging in contracting, or examination fees from persons who are registered with the

board pursuant to local examination requirements.

(3) Nothing in this part limits the power of the municipalities, cities or counties to adopt any system of permits requiring submission to and approval by the municipality, city or county of plans and specifications for work to be performed by contractors before commencement of the work.

(4) Nothing in this part shall be construed to waive any requirements of any existing local ordinance or resolution of a board of county commissioners regulating the type of work required to be performed by specialty contractor.

(5) Any official authorized to issue building or other related permits shall ascertain that the applicant contractor is duly registered in the area where the construction is to take place or certified before issuing the permit. The evidence shall consist only of the exhibition to him of current evidence of certification or registration.

(6) Municipalities, cities or counties may continue to provide examinations for their territorial area, provided that:

(a) To engage in contracting in the territorial area, an applicant must also be registered with the board.

(b) All local contractors licensing boards or agencies shall transmit annually during May to the board the names of all local licensees, the status of the license, and a report of any disciplinary action taken against the licensee.

* (c) A certificate has not been issued by the board.

(7) The board shall inform all local boards annually during October the names of those certified or registered and the status of the certificates or registrations.

(8) The right to create local boards in the future by any municipality, city or county is preserved.

(9) Notwithstanding any provisions to the contrary in §235.31 about prequalification of bidders, any person holding a certificate shall be deemed qualified to participate in any project contemplated by this section.

(10) This part applies to any contractor performing work for the state, county or any municipality. They are required to determine compliance with this part before giving a commencement order on any of its contracts for construction, improvement, remodeling or repair.

(11) If an incomplete contract exists at the time of death of a contractor, the contract may be completed by any person even though not certified or registered. Such person shall notify the board within thirty days after the death of the contractor of his name and address. For purposes of this subsection, an incomplete contract is one which has been awarded to, or entered into by, the contractor before his death or on which he was the low bidder and the contract is subsequently

awarded to him regardless of whether any actual work has commenced under the contract before his death.

(12) No provision in this part shall be construed to permit a contractor to perform electrical, mechanical, or plumbing work for which an examination for a certificate of competency or a license is required, unless such contractor holds such certificates of competency or such licenses as may be required by the appropriate local authority. Where the appropriate local authority does not require a certificate of competency or a license for the respective trade in question, the provisions of this subsection shall not apply.

History.—§13, ch. 67-110.

*Note.—Subsection (6)(c) will be amended by a subsequent reviser's bill to conform to §30(5), ch. 69-106.

In all actions brought under this part, proof of the sale or offering for sale of more than one such structure by the owner-builder within one year after completion of same is presumptive evidence that such structure was undertaken for purposes of sale.

(9) Any construction, alteration, improve-

ment, or repair carried on within the limits of any site the title to which is in the United States, nor to any construction, alteration, improvement, or repair on any project where federal law supersedes this part.

In determining whether there has been a violation of this rule, consideration will be given to actions or practices indicating that the offer was not made in good faith for the purpose of selling the advertised product, but was made for the purpose of contacting prospective purchasers and selling them a product or products other than the product offered. Among actions or procedures which will be considered in making that determination are the following:

(10) Representing, directly or by implication, that a hearing aid utilizing bone conduction has certain specified features such as the absence of anything in the ear, or leading to the ear, or the like, without disclosing clearly and conspicuously that the instrument operates on the bone conduction principle and that in many cases of hearing loss this type of instrument may not be suitable.

(11) Making any predictions or prognostications as to the future course of a hearing impairment, either in general terms or with reference to an individual person.

Before issuing a license to practice funeral directing or embalming in this state, the board shall examine the applicant as to his qualifications to practice funeral directing or embalming as provided in this chapter.

470.08 Qualifications of applicants.—

(1) No applicant shall be qualified to be examined by the board for license as an embalmer unless he has the following qualifications:

(a) He shall be a bona fide resident of the state.

(b) He shall be over the age of twenty-one years.

(c) He shall have completed a full prescribed course in a standard high school or a course of education equivalent thereto as evidenced by a high school diploma for adults or any document of similar import issued by the department of education.

(d) He shall have a good moral character and shall not have been convicted or have pleaded or been found guilty in this or any other state of a crime involving moral turpitude.

(e) He shall have had three years of practical training and instruction as an apprentice embalmer in an apprentice training agency approved by the board, as hereinafter provided for, under a regular licensed and practicing embalmer, and shall have embalmed at least fifty dead human bodies, and shall have attended a regular nine months course of instruction in a reputable college of embalming approved by the board, in which the following subjects are covered: anatomy, physiology, chemistry, the principles and methods of embalming, restorative art, bacteriology, public health and sanitation. He shall further be

recommended as to character by two funeral directors duly licensed under the terms of this chapter who are licensed embalmers and who are familiar with his reputation and character. Provided, however, that the requirements of apprenticeship set forth in this subsection shall not apply to any person who has served one year of practical training and instruction as an apprentice embalmer in an approved apprenticeship training agency under a regular licensed and practicing embalmer and which person has graduated from and received a degree in the profession of funeral directing and embalming from a college or university which is a member of the American association of colleges and universities, or junior college accredited by the department of education offering such a degree. The term of apprenticeship herein required to be served as a qualification for licensing may not be served during the time that the person is enrolled at a school or college for the purpose of completing the formal education requirements herein provided.

(f) Any person who shall have otherwise qualified as required by this subsection, except for his three years of apprentice training, and who thereafter entered and served in the military forces of the United States, and shall have been honorably discharged or relieved, and as a part of his duties during such service he shall have had, in the opinion of the state board of funeral directors and embalmers, hereinafter referred to as the board, practical training and instruction of a nature at least equivalent to that he would necessarily have had as an apprentice embalmer under a duly licensed and practicing embalmer, shall be credited on said three year required apprentice service with such time as he may have served, but the total of such credit shall not exceed two and one half years. The credit provisions herein contained shall be applicable only in cases where the person seeking such credit had already commenced his apprenticeship training at an approved training agency in this state prior to becoming a member of the military forces of the United States.

(g) Provided, further, that the said board, and it only, shall decide upon the proof submitted to it by such applicant whether he has received the degree of training herein contemplated and if so, for what time he should be credited, and shall issue its certificate to him accordingly.

(h) It is the intention of this subsection to provide a plan by which credit not to exceed two and one-half years may be given to any Florida apprenticed embalmer for any training he may have had of a nature which in the opinion of the board is equivalent to Florida apprentice embalming training while engaged in the military services of the United States so as to avoid the hardship of making the ex-serviceman who was so engaged go over substantially the same training twice.

(2) No applicant shall be qualified to be examined by the board for a license as a fu-

neral director unless he shall have the following qualifications:

(a) He shall have met all of the qualifications hereinbefore provided in subsection (1), as qualifications for embalmers.

(b) He shall have been a practicing licensed embalmer of Florida for at least one year.

(c) He shall have had one year of practical training and instruction as an apprentice funeral director in an approved training agency under a funeral director duly licensed under the terms of this chapter and shall have been vouched for and recommended by at least two funeral directors duly licensed under the terms of this chapter who are familiar with his reputation and character.

(d) He shall have a good moral character.

(e) He shall have been a practicing licensed embalmer of Florida for at least one year.

(f) He shall have been associated with some funeral director duly licensed under the terms of this chapter in the business of funeral directing for at least twelve months, and shall have been vouched for and recommended by at least two funeral directors duly licensed under the terms of this chapter who are familiar with his reputation and character.

470.09 Application, fee and examination of applicant; license issued to successful applicant.—

*(1) Any person having the qualifications prescribed in §470.08, shall be deemed eligible by the board for examination, and may make written application to the board upon a form to be prescribed and furnished by the board, stating under oath the qualifications possessed by him, which application shall be accompanied by the examination fee of twenty-five dollars. If such application shall be found in due form, and it shall appear that the applicant is possessed of the requisite qualifications, the secretary of the board shall so notify such applicant; provided, however, the application fee for re-examination, in the event the applicant is initially unsuccessful, shall also be twenty-five dollars; provided further that in the event the applicant for examination or re-examination is successful such examination fees hereinbefore provided shall entitle such successful examinees to the issuance of a funeral director's or embalmer's license, as the case may be, for the remainder of the licensing year without further cost.

(2) Then the applicant may present himself before said board at a duly organized meeting thereof for examination by said board as to his knowledge of funeral directing or embalming, whichever it may be, and all subjects necessary and pertaining thereto, said subjects to be prescribed and determined by the board. The examination for embalmers' licenses shall consist of the propounding to such applicant in writing of not less than one hundred fifty questions on the subject of anatomy

and embalming and of not less than twenty-five oral questions pertaining to the several subjects and other subjects connected therewith. The oral examination, when possible, shall be conducted in the presence of a cadaver, upon which actual demonstrations may be asked for. The examination for funeral directors' licenses shall consist of the propounding of questions by the board, either oral or written, as to such qualifications for a license, as provided in this chapter, or prescribed by the board. All examination papers, questions and answers and credits allowed upon same by the board shall be kept on file by the secretary of the board.

(3) The board shall grant to any applicant eligible under the terms of this chapter for examination and who has correctly answered not less than seventy-five per cent of the oral and seventy-five per cent of the written questions propounded in the examination provided for herein, a license to practice the profession of funeral directing or embalming, whichever it may be in the state.

(4) No funeral director's license or embalmer's license may be issued to anyone other than natural persons.

History.—§8, ch. 17950, 1937; CGL 1940 Supp. 3599(9); §7, ch. 65-412.

***Note.**—In order to comply with §30(5), ch. 69-106, subsection (1) will be amended by a subsequent reviser's bill.

470.10 Licenses; renewal; suspension; practicing without; fictitious names, etc.—

*** (1) (a)** All licenses issued by the board shall expire on June 30 of each year. Every person actively engaged in the profession of funeral directing or embalming in the state shall renew his or her license on or before June 30 of each year, and any qualified person who fails to renew his license within sixty days from the date the same becomes due, shall be suspended from the right to practice the profession for which he was previously licensed until the license is renewed and during the period of suspension and until the license is renewed as hereinafter provided, the suspended licensee shall be considered as a person not licensed to practice funeral directing or embalming as the case may be. Provided further that no license shall be renewed after September 1 of any year unless the applicant shall submit to the board a penalty fee of five dollars per year or any part thereof, in addition to the annual renewal license fee for each year such license or licenses were not renewed. The annual renewal fee is as follows: Embalmer, fifteen dollars; funeral director, twenty dollars.

(b) If a licensed funeral director or embalmer fails to renew his license for a period of three years after the expiration of said license he shall be deemed to have retired from the profession and may be licensed only under the conditions and requirements for persons who have not previously been licensed in this state.

(c) All persons desiring to receive practical training and instruction as an apprentice at

an approved apprentice training agency shall register with the board annually at the time set forth in this act and pay a registration fee of five dollars.

(2) All licenses issued under this chapter shall be properly signed by the president and secretary of the board and shall bear the official seal of the board.

(3) All persons receiving licenses under the provisions of this chapter shall register same in the office of the clerk of the circuit court and at the office of the local registrar of vital statistics in the jurisdiction in which he proposes to carry on such practice and shall display such license in a conspicuous place in the office of the licensee.

(4) No license shall be assignable or valid for any person other than the original licensee.

(5) From and after the effective date of chapter 22617, Laws of Florida, 1945, no corporation shall engage in the profession of funeral directing or embalming and no person licensed under this chapter as an embalmer or funeral director shall engage in the profession of funeral directing or embalming under a corporate name or under a corporate framework, and no person shall engage in the profession of funeral directing or embalming under a fictitious name which name includes the name of any unlicensed person or the name of a licensed person not regularly employed on a full-time basis by such person in the operation of a funeral establishment; provided, however, that where any funeral director or embalmer shall be operating and conducting a business under his own name at the time of the passage of chapter 22617, Laws of Florida, 1945, and the funeral director, his heirs or personal representatives, thereafter sells the business, then and in that event the purchaser thereof shall have the right to continue the use of the name for a period of five years from the date of the purchase of said business, either continuing the business in the former name, or using the former name in connection with his own, if he is a funeral director, or using his name if he is a funeral director as successor to the former name. Provided, however, the purchaser complies with the fictitious name law of the state; and provided further that the provisions of this chapter shall not affect or impair the rights held by corporations or an embalmer or funeral director engaged in the profession of funeral directing or embalming under a corporate name, or persons engaged in the profession of funeral directing or embalming under a fictitious name, who held licenses at the date chapter 22617, Laws of Florida, 1945, became effective; and further, provided that any person engaging in the profession of funeral directing or embalming under a corporate or fictitious name and securing a license from and after the date chapter 22617, Laws of Florida, 1945, became effective, shall cause to be placed and shall keep in a conspicuous place at each public entrance to his funeral home, chapel, mortuary or funeral

establishment, in intelligible lettering, not less than one and one half inches in height and one inch in width, the name of the person or persons licensed to engage in the profession of funeral directing or embalming at said funeral home, chapel, mortuary or funeral establishment.

(6) Any person, corporation, or partnership owning or operating a funeral home coming within the provisions of this chapter, including the foregoing subsection, may do so only through the services of a licensed funeral director and embalmer. No person not licensed as a funeral director or embalmer shall be permitted to perform the functions of a funeral director or embalmer as herein defined, or hold himself out to the public as such by reason of his ownership in a funeral home or by reason of his ownership of stock owned in or office held in a corporation authorized by the preceding subsection to own or operate a funeral home. No funeral home owned by any person, whether incorporated or not, may utilize the name or picture of any unlicensed person in connection with any advertisement or telephone listing or firm letterheads or other printed materials. Such use of the name or picture of an unlicensed person shall be deemed to constitute the holding out of such person as a funeral director in violation of this chapter. After the effective date of this act no firm or corporation authorized to own and operate a funeral home may change or amend its name or charter so as to include in its firm or corporate name the name of any person who is not individually licensed as a funeral director in this state; provided, however, that the provisions of this sentence shall not be applicable to the name of any firm or corporation owning or operating a funeral home on the effective date of this act so long as such firm or corporation remains under the same ownership.

(7) From and after the effective date of this law, any person engaging in the practice of funeral directing and all funeral establishments shall set forth, in intelligible lettering, on all letterheads, billheads, literature or advertising material published by him, the name of the licensed funeral director in charge of such funeral home, mortuary, chapel, or funeral establishment. For the purpose of this entire chapter each funeral establishment located at a specific address shall be deemed to be a separate entity and require separate licensing and compliance with the requirements of this chapter.

(8) Every person who maintains a funeral home, mortuary or funeral establishment where the professions of funeral directing and embalming are practiced, shall maintain a preparation or operating room where embalming is practiced in the establishment, which preparation or operating room must be properly screened, must have a sanitary floor, must have a glass, porcelain or metal-lined operating table; must contain necessary instruments and supplies for the preparation or embalming of

dead human bodies, and must have good ventilation, running water and proper sanitary plumbing, all of which plumbing must be connected with a sewer, septic tank or cesspool, which operating room must be maintained in a clean and sanitary condition at all times. The board shall adopt such rules, regulations and classifications as may be reasonable and proper to define what shall be deemed the proper drainage and ventilation and what instruments are necessary and suitable in a funeral establishment, which rules must conform with the rules of the division of health of the department of health and rehabilitative services. Every funeral establishment operated and conducted by any person licensed under this chapter shall at all times be subject to the inspection of the board, or any of its designated representatives or agents or local or division of health inspectors. No funeral home, mortuary or funeral establishment shall be located in a cemetery.

History.—§8, ch. 17950, 1937; CGL 1940 Supp. 3599(9); §5, ch. 22617, 1945; §1, ch. 59-107; §8, ch. 65-412; §§19, 35, ch. 69-106.

*Note.—Subsection (1) will be amended by a subsequent reviser's bill to conform to §30(5), ch. 69-106.

470.11 Apprentices; reports, etc.—

(1) Within the thirty days after any person shall have begun preliminary instruction and training as an apprentice embalmer at an approved apprentice training agency, as provided in this chapter, he shall file a certificate of employment, signed by his employer, with the secretary of the board. Ninety days after commencement of such employment he shall file a statement with the secretary of the board, verified under oath, showing the date from which his preliminary instruction and training began and the name and location of the licensed and practicing embalmer under whom he is receiving such instruction and training. If, during the course of his instruction, he shall receive instruction and training from more than one licensed and practicing embalmer, he shall give the date of ending with the first and the date of beginning with the second instructor and each subsequent instructor, in like manner as provided herein for the first instructor.

(2) No person may maintain his status as an apprentice embalmer for a term of time in excess of six years. Provided, however, that persons serving as apprentices on the effective date of this act shall be permitted to continue as such for a full six years after the effective date of this act. During such six year term as an apprentice embalmer such apprentice embalmer shall not perform any functions of a funeral director or funeral directing as defined in this chapter.

(3) If during such six year term as an apprentice embalmer such person has not passed the examination provided by this chapter for qualification of licensing as an embalmer such person's status as an apprentice embalmer shall automatically terminate without action of the board and further such person shall

not be permitted to sit for subsequent examinations unless and until such person has again attended and completed a regular course of instruction in a reputable college of embalming approved by the board of the type described in §470.08(1)(e). No person may maintain his status as an apprentice funeral director for a term in excess of three years. Provided, however, that persons serving as apprentices on the effective date of this act shall be permitted to continue as such for a full three years after the effective date of this act. Upon the lapse of such three year term if such person has not passed the examination provided in this chapter for licensing as a funeral director the status as an apprentice funeral director shall automatically terminate without action of the board.

(1) Any funeral home may volunteer its services and facilities for the purpose of taking part in an apprentice training program hereby established for the purpose of assisting in the training and education of persons desiring to become licensed embalmers or funeral directors under the apprentice training program provided in this chapter. No funeral home may be required to take part in this program, such participation being merely a voluntary matter subject to approval by the board in its exclusive discretion. No funeral home so volunteering to participate may charge or exact any fee from any person obtaining apprentice training at such funeral home, nor shall the fact that such funeral home is participating in the apprentice training program give rise to any proprietary interests or rights to such participating funeral home to continue in such training program.

(2) Each funeral home approved by the board as a training agency shall be regarded as a separate entity located at a specific address and shall be under the supervision of a specified funeral director and embalmer regularly employed at such funeral home at such specific address for the purposes of the apprentice training program herein established.

History.—§10, ch. 65-412.

470.112 Number of apprentices at training agency.—

(1) No funeral home may be approved by the board as a training agency unless the number of cases handled by such funeral home is sufficient to provide the apprentice embalmer or apprentice funeral director the necessary work experience at such funeral home. A minimum of forty cases per year must be handled by a funeral home before it may be approved as a training agency.

(2) Only one apprentice embalmer and one apprentice funeral director may receive training in an apprentice training agency performing seventy-five funeral cases or less per year. A second apprentice embalmer and apprentice

funeral director may receive training at such training agency provided such training agency handles or performs seventy-six or more funerals per year. A third apprentice embalmer and apprentice funeral director may receive training at such training agency if one hundred fifty-six cases are handled by such funeral home. A fourth apprentice embalmer and apprentice funeral director may receive training at such training agency if one hundred seventy-six funerals or more are performed by such funeral home. A fifth apprentice embalmer and apprentice funeral director may receive training at such training agency if two hundred twenty-six cases or more are handled by such training agency. The maximum number of apprentice embalmers and funeral directors that may be trained or receive training at any one time by any one training agency is five; provided, however, that only two apprentice embalmers may be trained or receive training in a training agency which employs on a regular and full-time basis at such specific location only one licensed embalmer. Provided further that only two apprentice funeral directors may be trained or receive training in a training agency which employs only one funeral director on a regular and full-time basis at such a specific location.

(3) In the event any apprentice training agency is approved to train three or more apprentice embalmers and apprentice funeral directors, such training agency must employ on a regular and full-time basis at such specific location at least one licensed embalmer at such specific location for each two apprentice embalmers being trained or receiving training at such specific training agency. Similarly, each training agency qualified to train three or more apprentice funeral directors shall employ on a regular and full-time basis at such specific location at least one licensed funeral director for each two apprentice funeral directors.

History.—§10, ch. 65-412.

470.113 Transfer of apprentices.—

(1) In cases where a person owns or operates more than one funeral home, each or some of which have been approved by the board as a training agency, such approved training agencies may from time to time transfer an apprentice embalmer or apprentice funeral director from one approved training agency to another approved agency for the purpose of training and being trained and receiving training at such other approved training agency; provided further that no apprentice may be transferred to such mutually owned approved training agency for the purpose of being trained and receiving training as an apprentice for a period less than one month. Provided further that if an apprentice is so transferred as hereinbefore provided, such apprentice may not receive credit toward the requisite apprenticeship provided by this chapter unless the training agency to which he is temporarily transferred meets the requirements set out for such

training agency relating to the number of cases being handled by it, the number of licensed embalmers, or number of licensed funeral directors required to be employed therein, and the limitation upon the total number of apprentices that may be trained at such training agency.

(2) All persons being trained and receiving training at an approved training agency must notify the board by written notice as to the training agency where he is receiving such training, stating in such notice the specific location of such training agency and name or names of the licensed embalmer or funeral director as the case may be under whom such apprentice embalmer or funeral director is receiving apprentice training.

(3) All approved training agencies are required to serve written notice upon the board of the employment, transfer or termination of employment of any apprentice embalmer or funeral director as the case may be, which notice shall state the specific location at which the apprentice shall receive training and the name or names of the licensed embalmer or funeral director under whom the particular apprentice is receiving, is to receive, or has received embalmer's or funeral director's training, as the case may be. In the event of termination of an apprentice embalmer or apprentice funeral director, the licensed funeral director in charge of the supervision of apprentice training at such training agency shall, within fifteen days after such termination, certify on a form to be provided by the board the length of time during which an apprentice embalmer or apprentice funeral director was trained and received training at such training agency and the name of the licensed embalmer or licensed funeral director under whom such apprentice embalmer received the training. Such notice and certification shall include a list of the cases in connection with which the apprentice embalmer or apprentice funeral director, as the case may be, received training.

History.—§10, ch. 65-412.

470.114 Training agency rules.—The board is authorized to adopt such rules and regulations as it deems necessary to carry out the provisions of this chapter relating to the training agencies and apprentice embalmers and apprentice funeral directors to the end that there shall be a uniform and effective program of training as apprentices those persons desirous of qualifying to engage in the profession of embalming or funeral directing. Such rules and regulations may provide a uniform system under which the board can determine whether apprentices are receiving appropriate training for the purposes of this chapter with emphasis upon the nature, duration and quality of such training.

History.—§10, ch. 65-412.

(f) The licensee has willfully refused, declined or neglected to cause to be released a dead human body to any licensed funeral director, licensed funeral home, or duly authorized representative of either, upon request for such release when such request is accompanied by a telegram or a statement in writing by the next of kin of the deceased or such other person as may be authorized by law to make arrangements for the funeral of the deceased person.

(g) The licensee has made the payment of money a condition for the release of a dead human body to any funeral director or funeral home authorized in writing or telegram by an authorized person to take custody and possession of the deceased body.

(j) The licensee has willfully signed a certificate that he embalmed a dead human body,

when in fact the body was embalmed or prepared by someone else; provided, however, that the embalming of dead human bodies by a licensed apprentice regularly employed and under the direct supervision of the licensee shall be considered, for the purpose of this provision, as embalming a dead human body by said licensee.

(i) The licensee has employed, retained or otherwise engaged persons, including but not

limited to owners, officers, stockholders, and employees of the funeral home with which the licensee is connected, or cemetery lot or supplies salesmen, to solicit business. For the purpose of this paragraph "to solicit" shall include but not be limited to the making of blanket offers of free or discounted funerals or ambulance services, where such ambulance service is owned, operated or controlled by a funeral director or funeral home, via certificates, cards, letters, or the like addressed to doctors, clergy, peace officials, firemen, hospital personnel, ambulance operators, automobile wrecker operators, cemetery lot or supplies salesmen, nursing home operators or employees, or any such class of persons reasonably calculated to be in position to refer business to the licensee or funeral establishment with which he is connected by reason of such offer of free funerals or funerals at a discounted price or free or discounted ambulance services. Provided, however, that the prohibition hereinabove contained, shall not be deemed to prohibit any licensee or funeral establishment with which he is connected from making an unpublicized offer to an official state, county, municipal or governmental approved welfare agency to provide or perform free funeral services for any deceased person whose family has been determined to be indigent by such welfare agency.

(j) The licensee has knowingly engaged in any advertising which is misleading or inaccurate in any material particular. (o) The licensee is participating in any enterprise or plan wherein or whereby the public is defrauded.

(p) The licensee has violated any provisions of this chapter.

(3) **APPRENTICE EMBALMERS AND APPRENTICE FUNERAL DIRECTORS.**—Whenever it shall appear to the board that any registered apprentice embalmer or registered apprentice funeral director so engaged in this state has been guilty of any act provided as grounds for the revocation of an embalmer's license by subsection (1) and provisions therein, or has been guilty of any of the acts provided as grounds for revocation of a funeral director's license in subsection (2) and provisions therein, the registration of such apprentice embalmer or apprentice funeral director shall be revoked by the board.

(4) **FUNERAL HOME, MORTUARY, CHAPEL OR FUNERAL ESTABLISHMENT LICENSES.**—

(a) Whenever it shall appear that any person connected with a funeral home, mortuary, funeral chapel or funeral establishment, including owners, partners, employees, or agents thereof, and in cases where such funeral home, mortuary, funeral chapel or funeral establishment is permitted by law to operate within a corporate framework, officers, directors, stockholders, agents or employees of such corporations while acting as agent for or in behalf of or in furtherance of the interest of a licensed funeral home mortuary, chapel or funeral establishment has been guilty of any of the acts provided as grounds for revocation of an embalmer's license in subsection (1) and provisions therein, or has been guilty of any of the acts provided as grounds of a funeral director's license in subsection (2) and provisions therein, the license of such funeral home, mortuary, chapel or funeral establishment shall be revoked by the board.

470.13 Procedure for revocation of license; suspension.—

(1) No license shall be revoked by the board unless due notice is given to the licensee holding such license and the said licensee is accorded a public hearing as provided in this section.

(2) When a written complaint, under oath, is filed with the board, or the secretary of the board has been directed by a majority of the members of the board to make a complaint against a licensed funeral director or embalmer, funeral home licensee or registered apprentice embalmer, or apprentice funeral director, charging the licensee or registrant with the commission of any of the acts set forth in §470.12, the board shall conduct an investigation through its agents or attorneys and if, from such investigation, it shall appear to the board that there is reasonable ground for belief that the accused licensee may have been guilty of the violations charged, a day shall be set by the board for a public hearing to determine whether or not the license of the accused shall be revoked or suspended.

(3) The secretary of the board shall transmit to the accused a true copy of said written complaint by registered mail, together with a notice setting forth the charge or charges that will be heard before the board and the date and place at which such hearing will be held, which date shall be not less than thirty days after mailing of notice. The notice shall be mailed to the last address reflected in the licensing and registration records of the board, and it shall be the duty of the licensee or registrant to furnish the board with notice of change of address in default of which notification notice to the accused shall be mailed to the last address of record. In case the licensee is a funeral home establishment which is owned by one or more persons, a true copy of the written complaint and notice of hearing shall be mailed to each owner at the last address reflected in the records of the board. In the event a funeral home establishment is owned by a corporation, a true copy of the written complaint and notice of hearing shall be mailed to the president of said corporation at the address of the president as reflected by the board's records. The accused licensee may appear before the board at such time and place in person, or by counsel, and dispute or disprove the charge.

(4) For the purpose of such hearing, the board shall have the power, under the hand of the president, the vice-president and the seal of the board, to require the production of books, papers or other documents and may issue subpoenas to compel the defendants or witnesses to testify and produce such books, papers or other documents in their possession as may be in the opinion of the board, relevant to any hearing

before it; said subpoenas to be served by the sheriff of the county where the witness resides or may be found. Such witnesses shall be entitled to the same per diem and mileage as witnesses appearing in the circuit courts of the state, which shall be paid by said board. Any member of the board may administer oaths or affirmation to witnesses appearing before the board.

(5) If any person shall refuse to obey any subpoenas so issued or shall refuse to testify or produce any books, papers or other documents required by the board, the board may present its petition to the circuit court of the county where any such person is served with the subpoena or where he resides, setting forth the facts, and shall deposit with said court the per diem and mileage to secure the attendance of such witness; whereupon said court shall issue its rule nisi to such person requiring him to obey forthwith the subpoena issued by the board or show cause why he fails to obey the same, and unless the said person shows sufficient cause for failing to obey the said subpoena, the court shall forthwith direct such person to obey the same, and upon his refusal to comply, he shall be adjudged in contempt of court and shall be punished as the court may direct.

(6) If at such hearing the board shall be satisfied from all the evidence submitted that the accused has been guilty of the offense charged, it shall thereupon, without further notice, revoke or suspend the license of the person so accused. Upon the revocation or suspension of any license, the fact shall be noted upon the records of the board and the license shall be marked as canceled or suspended upon the date of the decision of the board, and the losing party shall pay all costs of such hearing.

(7) In the event the license of any funeral director or embalmer or funeral home establishment shall be revoked by the board, the licensee may apply to the board for reinstatement of his or its license after the lapse of a period of one year. In the event of such application, the board shall consider the matter and in its discretion determine whether the offense or conduct giving rise to the revocation in the first instance was of sufficient gravity to justify the denial of such application for reinstatement. If the applicant for reinstatement desires to have reviewed such denial by the board, the applicant may seek review of such order of denial by the district court of appeal of Florida wherein the licensee resides in accordance with the procedures provided by the Florida appellate rules, and upon such review the said district court of appeal may reverse the board's order of denial if the board abused its discretionary power in the premises.

(1) Upon the revocation or suspension of any funeral director's or embalmer's license, or any funeral home establishment license or any registration as an apprentice as provided by this chapter, the final order of the board revoking or suspending the license shall be reviewable only by writ of certiorari issued by the district court of appeal within whose jurisdiction the licensee or registrant whose license or registration has been revoked or suspended resides. Such review shall be had in accordance with the manner provided by the Florida appellate rules.

(2) Upon such review, no order of the board shall be set aside or reversed on the ground of improper admission or rejection of evidence or for error as to any matter of pleading or procedure, unless in the opinion of the appellate court after an examination of the entire case it shall appear that the error complained of has resulted in a miscarriage of justice. This section shall be liberally construed.

The application shall show the name of the funeral home, mortuary, chapel or funeral establishment, the names and addresses of the owner,

owners, or officers and stockholders of any corporation thereof, and the names of all licensed embalmers and funeral directors employed in such funeral establishment, or otherwise connected therewith, together with the date of issue and number of the license of each registered embalmer and funeral director. If the registration fee has been paid and the funeral establishment meets the requirements of §470.10, the said board shall issue a funeral home operating license to each funeral establishment, otherwise it shall be unlawful for any funeral establishment to operate in this state; and further, that such person must present in person certificates from the above mentioned officials showing registration as aforesaid, before an occupational license may be applied for or procured from any city, state or county official having jurisdiction of the issuance of occupational licenses.

(2) No application for a license of a funeral establishment shall be considered which does not show on the application that a licensed funeral director and licensed embalmer are regularly employed by the establishment on a full-time basis at the specific location and address of the establishment.

(3) No licensed funeral director or licensed embalmer, based upon whose license or licenses a funeral establishment license has been issued, may serve as the regularly employed licensed funeral director or embalmer at another funeral establishment at the same time for the purposes of qualifying such other establishment under this section.

(4) It is hereby declared to be the legislative intent that every funeral establishment in this state shall be operated under the full charge, control and supervision of an individually designated licensed funeral director and licensed embalmer. The name of the licensed person to be in charge of each funeral establishment shall be stated on the application for all licenses or renewal of such license.

(5) In the event a licensed funeral establishment terminates the employment of its regularly licensed funeral director or embalmer, or in the event the employment is otherwise terminated, the funeral establishment shall forthwith cease operating the funeral home until such time as the funeral establishment has employed another licensed funeral director and embalmer on a regular and full-time basis to supervise and perform the rendition of funeral services by the funeral establishment.

(6) The issuance of a license to operate a funeral establishment to a person who is not individually licensed as a funeral director or embalmer does not entitle the person to practice embalming or funeral directing as defined in this chapter, it being the intent that such practice may be performed only through individually licensed funeral directors and embalmers; and in addition to all other grounds for suspension of a funeral establishment license as enumerated in §470.12, a funeral establish-

ment license shall be revoked by the board upon hearing thereon if any person, whether owner, officer, stockholder, or otherwise, who is connected with the funeral home shall perform any of the functions of a funeral director or embalmer as defined herein or shall hold himself out as a funeral director.

History.—§§1, 4, ch. 59-106; (1) §1, ch. 63-422; §15, ch. 65-412.
***Note.**—See note following §470.07.

***470.31 Registration fee.**—A registration fee of thirty-five dollars shall be charged by and paid to the state board of funeral directors and embalmers by the owner, or owners, or proprietor of each funeral home, mortuary, chapel or funeral establishment. Upon such annual registration of the funeral home, the fee so charged shall be used by the state board of funeral directors and embalmers to defray expenses necessarily incurred by the board in the administration and enforcement of the provisions of this law. In the event the licensee moves his funeral establishment to another location during the licensing year the funeral establishment license may be transferred to the new location upon the payment of a ten dollar transfer fee to the board to help defer expenses incurred in inspecting the new location for compliance with the provisions of this chapter.

History.—§2, ch. 59-106; §16, ch. 65-412.
***Note.**—See note following §470.07.

470.32 Enforcement of registration requirement; suspension or revocation of license.—The state board of funeral directors and embalmers, in order to enforce the provisions of this law and to adequately protect the public health and to properly regulate the operation

and management of funeral homes in this state may employ one or more persons who shall be under the jurisdiction and immediate supervision and control of the state board of funeral directors and embalmers, at a yearly salary to be fixed by the board, who shall see that the provisions of this law and all other laws of the state regulating the practice of funeral directing and embalming and the operation of funeral homes in the state are strictly and properly complied with. Said employee or employees shall promptly and diligently report to the state board of funeral directors and embalmers any violations of this and any other law regulating and governing the practice of funeral directing and embalming or the operation and management of funeral homes in the state. After notice and hearing, any license of a funeral home, mortuary, chapel or funeral establishment may be suspended or revoked by said board if the evidence shows that the operators have violated either this law or the provisions of this chapter.

History.—§3, ch. 59-106.

470.33 Penalty for failure to register.—Any person, firm or corporation who has control of a funeral home, mortuary, chapel or funeral establishment, as defined in this law, and fails to register same according to the provisions of this act, upon conviction, may be fined not less than \$100 nor more than \$500 for each violation and each day that said funeral home, mortuary, chapel or funeral establishment is operated shall be deemed to be a separate and distinct violation of this law.

471.08 Florida state board of engineer examiners; creation, establishment, etc.—

(1) For the purpose of carrying out the provisions of this chapter and such other duties as may be imposed upon it by law, there is hereby created the Florida state board of engineer examiners, hereinafter called the board.

(2) The board shall consist of seven members who shall be appointed by the governor. The terms of appointment shall be for four years and each member shall serve until his successor has been appointed. No member of the board shall be reappointed for more than two consecutive terms.

(3) Of the seven members comprising the board, six members shall be registered under the provisions of this chapter and there shall be at least one member qualified to practice electrical or electronic engineering, one member qualified to practice mechanical engineering, two members qualified to practice civil engineering, at least one of whom shall also be a registered land surveyor under chapter 472. Two members may be of any engineering specialty. The seventh member shall not be a registered engineer, but shall be a registered land surveyor qualified to practice under chapter 472, actively engaged in the practice of land surveying as his principal occupation, for at least twelve years in the state. At all times there must be at least three members of the board in private practice, one member in government employ and one member in industry. Each member, except the land surveyor only, shall have had at least twelve years active experience in engineering work (responsible charge of engineering teaching in a recognized technical institution of higher learning shall be construed as "active experience"), shall be of recognized good standing in his profession, shall be a member of a recognized engineering society, shall be at least thirty-five years of age and shall have been a resident and citizen of and practicing engineering in the state for at least five years immediately preceding his appointment.

(4) The terms of the existing board shall not be disturbed by this act. The two additional members authorized by this act shall be appointed for terms of four years, effective July 1, 1965. The governor may remove any member of the board for misconduct, incapacity, neglect of duty, or upon conviction of a crime involving moral turpitude, and vacancies on the board shall be filled by the governor for an unexpired term.

History.—§3, ch. 7404, 1917; RGS 2275; CGL 3621; §8, ch. 20621, 1941; §2, ch. 65-423.
cf.—§472.01 et seq., Board duties concerning land surveyors.

471.09 Expenses of board members.—Each member of the board shall receive the sum of twenty dollars per day, or any part of a day, when attending to the work of the board or any of its committees and for the time spent in necessary travel; and, in addition thereto, shall receive per diem and mileage as provided in §112.061.

History.—§3, ch. 7404, 1917; RGS 2275; CGL 362; §9, ch. 20621, 1941; §20, ch. 28215, 1953; §4, ch. 63-310.

471.10 Oath and commission of members; official seal.—Each member of the board upon taking the oath of office, shall receive a certificate or commission of office which shall be evidence of his appointment and qualification in all courts and before all boards. The board shall adopt an official seal, of which the courts of Florida shall take judicial cognizance.

History.—§4, ch. 7404, 1917; RGS 2276; CGL 3622; §10, ch. 20621, 1941.

471.11 Powers of board.—

(1)(a) The board shall have power, and it is hereby directed, to make, adopt, amend, suspend, and repeal such bylaws, rules and regulations as may be necessary to carry out fully the objects and purposes of this chapter. The board shall have power to receive, consider, and accept or reject applications for registration; to examine said applicants as to their qualifications, fitness and ability to practice engineering in Florida; to register and certify such applicants as are found to be qualified; and to hear and determine complaints, objections and charges against any applicant or registered engineer in violation of law, and, for cause, to revoke any certificate of registration issued by said board.

(b) In carrying into effect the provisions of this chapter the board, under the hand of the president or vice-president and seal of the board, may require the production of books, papers or other documents and may issue subpoenas to compel the attendance of witnesses to testify and to produce such books, papers, or other documents in their possession as may be, in the opinion of the board, relevant to any hearing before it, said subpoenas to be served by the sheriff of the county where the witness resides or may be found. Any member of the board may administer oaths or affirmations to witnesses appearing before the board. If any person shall refuse to obey any subpoena so issued, or shall refuse to testify or produce any books, papers or other documents required by the board, the board may present its petition to the circuit court of the county wherein such person was served with subpoena setting forth the facts, whereupon such court shall issue its rule nisi to such person requiring him to obey forthwith the subpoena issued by the board or show cause why he fails to obey the same, and unless the said person shows sufficient cause for failing to obey the said subpoena, the court forthwith shall direct such person to obey the same and upon his refusal to comply he shall be adjudged in contempt of court and punished as the said court may direct.

(2) If the board, after a full hearing, determines that any registered engineer is practicing engineering illegally in Florida, it may, by petition to the circuit court of the county wherein such person resides or wherein he practices engineering illegally, petition said court for an injunction restraining such person from the practice of professional engineering, and the court, upon sufficient showing, shall have power to issue and carry into effect such an injunction. The procedure for an injunction as aforesaid shall be governed by the rules and statutes applicable to the issuance of injunctions. If a registered engineer whose certificate of registration has been revoked or suspended by order of the board refuses to surrender his certificate of registration and official engineer's seal as required by the provisions of this chapter, the board may petition the circuit court in the county wherein the registrant resides or wherein he practices engineering to compel said registrant under a rule nisi to show cause why he should not be required to surrender his certificate and seal forthwith to the secretary of the board.

(3) When it appears to the board that any person is practicing engineering in this state without a certificate of registration or a certificate of authorization, the board may, upon application to the proper court, be granted a temporary injunction directed to such person, enjoining the practice of engineering by him until such time as he shall furnish satisfactory proof that he has been duly licensed to practice engineering in this state and that such license is still in force and effect. A copy of the records certified by the secretary-treasurer, or a certificate of such officer showing that such person is not the then owner and holder of a valid license to practice engineering, shall be sufficient showing by the board that such person is practicing engineering in contravention of this chapter, and upon such showing by the board temporary injunction shall be issued by the court. If within the time set by the court such person has not satisfactorily proved that he is the then holder of a valid license, license certificate or renewal certificate to practice engineering, permanent injunction shall be issued. Such permanent injunction may be dissolved upon presentation to the court issuing same of a certificate from the secretary-treasurer of the board stating that the person enjoined is now the holder of a valid license, license certificate or renewal certificate.

(4)(a) The board shall adopt rules of professional conduct appropriate to establish and maintain a high standard of integrity, skills and practice in the profession of engineering. Renewals may be effected at any time during the months of December or January by the payment by the registrant of a fee to be determined by the board, but not to exceed twenty dollars. The failure of the registrant to renew his certificate during the aforesaid months shall cause his certificate to expire, and it shall be unlawful for such registrant to practice, offer to practice, or to hold himself out as qualified to practice

professional engineering in Florida following the expiration of said certificate. A certificate of registration not renewed within two years after its expiration shall become null and void. The board, for good reason shown, which in the discretion of the board may include re-examination of the applicant, may reissue a certificate of registration to any person whose certificate has become null and void as aforesaid. The failure by the corporation, partnership or firm to renew its certificate of authorization during the aforesaid months shall cause said certificate to expire and it shall be unlawful for said corporation, partnership or firm to practice, offer to practice or hold itself out as qualified to practice professional engineering in Florida following the expiration of the certificate. A certificate of authorization not renewed within two years after it has expired shall become null and void. The board, for good reasons shown may reissue a certificate of authorization to any corporation, partnership or firm whose certificate has become null and void as aforesaid. A fee of forty dollars shall be charged the applicant for such reissue.

(1) The board shall have the power to revoke or suspend a certificate of registration or a certificate of authorization of any person registered under this chapter, or to place such person or firm on probation for a stipulated period of time, provided five or more members of said board vote in favor of such revocation and suspension or probation, should such person or firm be found guilty of:

(a) The practice of any fraud or deceit in

obtaining a certificate of registration or certificate of authorization.

(b) Any gross negligence, incompetence, or misconduct, in the practice of engineering as a professional engineer.

(2) The board shall have the power to revoke a certificate of authorization, suspend a certificate of authorization for a period of time not to exceed two years, or place the holder of a certificate of authorization on probation for a period of time not exceeding two years, when the agents, employees, officers, directors, partners, or owners of said firm, corporation, or partnership, registered or non-registered, have committed any act, or have been guilty of any conduct, which would authorize a revocation or suspension of the certificate of registration under the provisions of this section, provided such acts or conduct by such persons was related to the practice or the offer to practice engineering by that firm, corporation, or partnership in this state and the board finds that such acts or conduct were performed or occurred within the scope of the employment of any such person and with the authorization, ratification, or approval of the firm, corporation, or partnership.

(3) Before any certificate is revoked or suspended or the person or firm is placed on probation by the board, the certificate holder shall be furnished notice, an opportunity to be heard, and such other procedural guarantees as are provided in §471.27. Such charges shall be in writing and shall be sworn to by the person making them. They shall be preferred by delivering them, together with six copies thereof, to the secretary of the board, who, shall forthwith furnish each member of the board with a copy of said charges. All charges, unless dismissed by the board as being unfounded or trivial, shall be heard and disposed of by the board within four months after the date upon which they were preferred, except as to cases hereinafter noted. The time and place of said hearing shall be fixed by the board, and a copy of the charges, together with notice of the

time and place of the hearing, shall be served upon the person against whom preferred, either personally or by registered mail with return receipt demanded, addressed to the said person at his last known address as the same appears on the records of the board, at least twenty days before the time fixed for the hearing. When personal service cannot be made as aforesaid, or when registered notice is returned undelivered, the secretary of the board shall cause a short, simple notice to the registrant to be published for four consecutive weeks in a newspaper published in the county wherein the registrant's last known address appears as shown on the records of the board, or if no newspapers be published in said county, then said notice may be published in a newspaper published in an adjoining county. If said address appears in some state, territory, or country other than the state of Florida, then said notice may be published in the county wherein the board may have its headquarters. Said notices shall contain the name of the registrant, his last known address, the number of his registration certificate under which he has been registered to practice in Florida, the time of the preferring of the charges, the date set for the hearing of said charges, the nature of the charges, and the place where said hearing will be held. Due proof of service or of publication shall be filed with the secretary of the board and shall be recorded by him in the minutes of the board. The board, for good cause shown, may continue any hearing from time to time and in proper cases to a time beyond the aforesaid four months' period. At any hearing the accused shall have the right to appear personally and by counsel, to cross-examine witnesses appearing against him, and to testify and produce evidence and witnesses in his defense. If, after such hearings, five or more members of the board present at such hearing find the accused guilty of the charge or charges against him, they shall evidence their finding by so voting, and the board shall thereupon revoke the certificate of registration of the person so found guilty, and, thereafter, unless a certificate is again issued to him, said person shall not practice professional engineering in the state. Or, in proper cases, and in lieu of revocation, the board may either suspend the certificate of said person so found guilty for a period of time not to exceed two years, during which time said person shall not practice professional engineering in the state unless his certificate is reinstated as hereinafter provided or place said person on probation for a period of time not to exceed two years. The board for good cause shown, and by a vote of five or more of its members, may reissue a certificate to any person whose certificate has been revoked as aforesaid, for which reissue the board shall charge such person the sum of five dollars unless otherwise ordered by the board; and in cases where a certificate has been suspended

as aforesaid, the board by a favorable vote of five or more of its members, may reinstate said certificate at any time. Upon the reissue or reinstatement of the certificate of any person, such person shall be entitled to resume the practice of professional engineering in accordance with this chapter.

The registrant shall also affix his name to all documents so stamped and sealed.

(2) When the certificate of registration of a registrant has been revoked or suspended by the board, it shall be mandatory that said registrant surrender his official engineer's seal to the secretary of the board within a period of thirty days after said revocation or suspension has become effective. In the event the registrant's certificate has been suspended for a period of time, said seal will be returned to him upon expiration of his suspension period.

(3) In counties and municipalities which now or hereafter have a system of issuing building permits, such permits shall not be issued in any case where the application for said building permit discloses that the provisions of this chapter have been violated. claims the privileges of this chapter. When the board finds that a person claiming to be a professional engineer registered under this chapter is not in fact the person to whom the certificate of registration was issued, it shall reduce its findings to writing and file them in its office. Such findings shall be prima facie evidence that the person mentioned therein is falsely impersonating a professional engineer of a like or different name.

472.01 Definitions.—As used in this chapter:

(1) The term "board" means the Florida state board of engineer examiners of the division of professions of the department of professional and occupational regulation as provided for in chapter 471.

(2) A person practices "land surveying" within the meaning of this chapter, who reestablishes the original lines and corners to townships, ranges, sections and the subdivision thereof, as established by the surveyors deputized by the surveyor general to survey the public lands of Florida; who subdivides the land in accordance with rules and regulations prescribed by the general land office and the laws of Florida; who surveys and otherwise determines on the ground the boundaries of tracts and parcels of land, traverses the boundaries of lakes, watercourses, seacoast and similar natural features; who resurveys or retraces on the ground lines and subdivisions surveyed at a previous date by himself or other land surveyors; and who otherwise performs recognized acts of land surveying in connection with the establishing and reestablishing of boundaries of tracts of land.

(3) "Land surveyor" means any person who practices land surveying.

History.—§1, ch. 15657, 1931; CGL 1936 Supp. 4151(96); §7, ch. 22858, 1945; §1, ch. 67-449; §§30, 35, ch. 69-106, cf.—§713.54, Liens in favor of land surveyors.

472.02 Land surveyors required to register.
—No person shall practice land surveying without having first been duly and regularly registered by the board as a land surveyor as required by this chapter, nor shall any person practice land surveying whose authority to practice is revoked by the board.

History.—§2, ch. 15657, 1931; CGL 1936 Supp. 4151(97).

***472.03 Powers of board.—**

(1) The board shall have power and it is hereby directed to make, adopt, amend, suspend and repeal such bylaws, rules and regulations as may be necessary to fully carry out the objects and purposes of this chapter. The board shall have power to receive, consider and accept or reject applications for registration; to examine said applicants as to their qualifications, fitness and ability to practice land surveying in Florida; to register and certify such applicants as are found to be qualified; and to hear and determine complaints,

objections and charges against any applicant or registered land surveyor in violation of law and, for cause, to revoke any certificate of registration issued by said board. In carrying into effect the provisions of this chapter the board, under the hand of the president or vice-president and seal of the board, may require the production of books, papers or other documents and may issue subpoenas to compel the attendance of witnesses to testify and to produce such books, papers or other documents in their possession as may be, in the opinion of the board, relevant to any hearing before it, said subpoenas to be served by the sheriff of the county where the witness resides or may be found. Any member of the board may administer oaths or affirmations to witnesses appearing before the board. If any person shall refuse to obey any subpoena so issued, or shall refuse to testify or produce any books, papers or other documents required by the board, the board may present its petition to the circuit court of the county wherein such person was served with subpoena setting forth the facts, whereupon such court shall issue its rule nisi to such person requiring him to obey forthwith the subpoena issued by the board or show cause why he fails to obey the same. Unless the said person shows sufficient cause for failing to obey the subpoena, the court forthwith shall direct such person to obey the same and upon his refusal to comply he shall be adjudged in contempt of court and punished as the court may direct. If the board, after a full hearing, determines that any registered land surveyor is practicing land surveying illegally in this state, it may, by petition to the circuit court of the county wherein such person resides or wherein he practices land surveying illegally, petition the court for an injunction restraining such person from the practice of land surveying, and the court, upon sufficient showing, shall have power to issue and carry into effect such an injunction. The procedure for an injunction as aforesaid shall be governed by the rules and statutes applicable to the issuance of injunctions.

(2) When it appears to the board that any person is practicing land surveying in this state without a certificate of registration or a certificate of authorization, the board may, upon application to the proper court, be granted a temporary injunction directed to such person,

enjoining the practice of land surveying by him until such time as he shall furnish satisfactory proof that he has been duly licensed to practice land surveying in this state and that such license is still in force and effect. A copy of the records certified by the secretary-treasurer, or a certificate of such officer showing that such person is not the then owner and holder of a valid license to practice land surveying, shall be sufficient showing by the board that such person is practicing land surveying in contravention of this chapter, and upon such showing by the board temporary injunction shall be issued by the court. If within the time set by the court such person has not satisfactorily proved that he is the then holder of a valid license, license certificate or renewal certificate to practice land surveying, permanent injunction shall be issued. Such permanent injunction may be dissolved upon presentation to the court issuing same of a certificate from the secretary-treasurer of the board stating that the person enjoined is now the holder of a valid license, license certificate or renewal certificate.

(3) The board shall adopt rules of professional conduct appropriate to establish and maintain a high standard of integrity, skills and practice in the profession of land surveying. Said rules of conduct shall be binding upon every person holding a certificate of registration and all agents, employees, officers or partners of a person holding a certificate of authorization. The board shall make the rules known in writing to every registrant and applicant for registration under this act and said rules shall be published in accordance with the provisions of chapter 120.

History.—§3, ch. 15657, 1931; CGL 1936 Supp. 4151(98); §2, ch. 67-449.

The examination shall be written.

Professional engineers duly qualified as land surveyors who pay their renewal fee as registered engineers shall be required to pay a renewal fee as land surveyors.

(2) The board may, before issuing an annual renewal certificate, inquire into the character, professional practice and qualifications of any applicant, and if, in its judgment, he may have been guilty of any of the improprieties enumerated in this chapter as cause for revocation of a certificate of registration, he may be called before the board for supplemental examination for character and technical competency. If, in the opinion of the board, after notice and hearing, he is found guilty of any of the said improprieties or incompetence, renewal certificates shall be denied him and he shall be deprived of any of the privileges accorded him by a legally issued certificate, subject always to the right of review by certiorari by the appropriate circuit court in the manner and within the time prescribed by the Florida appellate rules.

(2) When the board finds that a person claiming to be a land surveyor registered under this chapter is not in fact the person to whom the certificate of registration was issued, it shall reduce its findings to writing and file them in its office. Such findings shall be prima facie evidence that the person mentioned therein is falsely impersonating a land surveyor of a like or different name.

(3) The board may revoke or suspend a certificate of registration of a land surveyor for fraud or deceit in the securing of his certificate; for conviction of any crime involving moral turpitude; for malpractice, malfeasance, gross carelessness or gross incompetence in the practice of land surveying; for affixing or permitting to be affixed his seal or his name to any maps, plats or surveys which were not prepared by such registrant or under his responsible supervision, direction or control; and for the violation of any law of this state relating to the practice of land surveying or any lawful rule or regulation made by the board pursuant to law.

(4) Any corporation or partnership which has been duly certified under the provisions of this chapter and has engaged in the practice of land surveying in this state shall have its certificate of authorization either suspended or revoked by the board if, after a proper hearing the board shall revoke or suspend the certificate of registration of an agent, employee, officer or partner of such corporation or partnership who acts in its behalf as land surveyor in this state provided four or more members of the board vote in the favor of such suspension or revocation of such certificate of authorization.

In the event there shall be a change in any of those persons during the year such changes shall be designated on the same form and filed with the board by the corporation or partnership within thirty days after the effective date of such change.

(4) If all the requirements of this section are met, the board shall issue to such corporation or partnership a certificate of authoriza-

tion; provided, however, the board may refuse to issue a certificate if any facts exist which would entitle the board to suspend or revoke an existing certificate, or if the board, after giving the persons involved a full and fair hearing, shall determine that any of the officers or directors of said corporation or partners of said partnership are not persons of good character. Any person aggrieved by an adverse determination of the board may appeal to the circuit court in the manner provided in §471.28.

(a) The original certificate was secured as the result of a written examination which in the judgment of the board was the equivalent of the examination given by the board at the time the applicant passed such written examination; provided, however, that if such written examination did not include the subject of ethics the application shall not be denied for that reason. In any event, the board shall require all applicants to take and pass the same current open book examination in ethics given to applicants for the written examination in the state before issuance of a reciprocal certificate;

(b) The applicant meets all the requirements in effect, at the time of the application, for applicants to take the Florida examination;

No such Florida practitioner may act as agent for more than one out-of-state practitioner or association of out-of-state practitioners practicing under substantially the same name, and no out-of-state practitioner may have as his agent more than one such Florida practitioner. Every such Florida practitioner who acts as agent for an out-of-state practitioner must hold a certificate in good standing to practice as a certified public accountant issued by the board and be a resident of and domiciled in the state. All public accounting services performed in the state must be performed by such Florida practitioner, except that an out-of-state practitioner may perform public accounting services in the state under the provisions of §473.131. No such Florida practitioner may employ a partner or stockholder of an out-of-state practitioner for which the Florida practitioner acts as agent in this state unless such person has applied for a reciprocal certificate to practice public accounting in the state under §473.201 or has filed an application to take the examination under §473.09. No such Florida practitioner may retain in his employ a partner or stockholder of an out-of-state practitioner for which such Florida practitioner acts as agent if such person's application for a reciprocal certificate to practice public accounting in the state has been with-

drawn or finally denied by the board, or if such person has not passed the examination within eighteen months after the filing of such application.

(2) By accepting the privilege granted by this section, both the out-of-state practitioner and the Florida practitioner shall be fully responsible for the public accounting services performed in this state by the other and for complying with the requirements of this law and the rules of the board. The out-of-state practitioner and the Florida practitioner shall signify their acceptance of this responsibility on forms to be provided by and filed with the board, and the submission of such forms to the board shall signify the out-of-state practitioner's consent to the appointment of the Florida practitioner as his agent for the service of process in this state.

(3) All out-of-state practitioners who have been represented by a representative, agent, or manager under the provisions of former §473.16 shall be subject to the provisions of this section. However, if this section is held to be invalid so as to impair the rights heretofore enjoyed by such practitioners under former §473.16, such practitioners may continue to be represented by a representative, agent or manager as provided in former §473.16.

(4) Nothing in this law shall be deemed or construed to prohibit an out-of-state practitioner from employing a Florida practitioner to perform public accounting services in the state.

(f) That the holder of a certificate has committed any act which renders him unfit to associate with the fair and honorable members of the public accounting profession; or

(g) That such person was guilty of a violation of the provisions of this chapter or of

475.01 Definition of terms used in chapter.—

(1) This chapter may be referred to in any legal proceeding as the "Real Estate License Law."

(2) Every person who shall, in this state, for another, and for a compensation or valuable consideration directly or indirectly paid or promised, expressly or impliedly, or with an intent to collect or receive a compensation or valuable consideration therefor, appraise, auction, sell, exchange, buy or rent, or offer, attempt or agree to appraise, auction or negotiate the sale, exchange, purchase or rental of any real property, or any interest in or concerning the same, including mineral rights or leases; or who shall advertise or hold out to the public by any oral or printed solicitation or representation that such person is engaged in the business of appraising, auctioning, buying, selling, exchanging, leasing or renting real estate, or interests therein, including mineral rights or leases, of others; and every person who shall take any part in the procuring of sellers, purchasers, lessors or lessees of

the real property, or interests therein, including mineral rights or leases, of another; or who shall direct or assist in the procuring of prospects, or the negotiation or closing of any transaction which does, or is calculated to, result in a sale, exchange, or leasing thereof, and who shall receive, expect, or be promised any compensation or valuable consideration, directly or indirectly therefor; and all persons who are members of partnerships or officers or directors of corporations engaged in performing any of the aforesaid acts or services; each and every such person shall be deemed and held to be a "real estate broker" or a "real estate salesman," as hereinafter classified, unless said person when performing the act or acts herein specified shall be acting as an attorney-in-fact for the purpose of the execution of contracts or conveyances only, or as an attorney-at-law within the scope of his duties as such, or when acting as the administrator, executor, receiver, trustee, or master under or by virtue of an appointment by will or by order of a court of competent juris-

diction, or as trustee under a deed of trust, or under a trust agreement, the ultimate purpose and intent whereof shall be charitable, philanthropic, or providing for those having a natural right to the bounty of the donor or trustor; nor shall the term broker or salesman be applied to a person who shall deal with property in which he is a part owner, unless said person shall receive a larger share of the proceeds or profits from the transaction than his proportional investment therein would otherwise justify, such excess share being directly or indirectly the result of the service of buying, selling, exchanging or leasing said property; nor shall said terms be applied to one officer of every corporation engaged in the sale of its own properties who shall be its president unless otherwise provided in its charter or by-laws, if said corporation shall not otherwise be classed as a real estate broker or a salesman.

(3) Every person who comes within the meaning of the preceding subsection, and shall not be within the exceptions named, and whose business policies and acts are free from the direction, control or management of another person, and all members of a partnership, and all officers and directors of a corporation, which partnership or corporation is defined by said subsection to be a real estate broker, shall be deemed and held to be operating as real estate brokers; and every other person who shall come within the terms "real estate broker" or "real estate salesman," as defined in the preceding subsection, shall be deemed and held to be operating as real estate salesmen.

(4) "Registration" shall consist of the placing and keeping of the name and business address, and if of a salesman, the name and business address of the employer also, upon the list of brokers and salesmen in the offices of the Florida real estate commission, with the appropriate designation as "broker" or "salesman." Said "registration list" shall be kept in books, or in files, as may be deemed expedient by the commission. Registration shall be in force for a period of six months after the expiration of the last certificate issued, or after the termination of any period of suspension, and no longer; but registration alone shall not entitle the registrant to operate as a broker or salesman.

(5) A "registrant" is a person whose name and business address, and in case of a salesman, the name and business address of the employer also, has been placed, and lawfully remains, on said registration list, and said term shall not include any person who has not applied for a renewal certificate within the aforesaid period of six months.

(6) The "license period" shall be the fiscal year ending at midnight, September 30 of each year, provided, however, that if the commission shall adopt rules or regulations providing for the issuance of certificates for some period other than the fiscal year aforesaid, then the "license period" shall be the fiscal period end-

ing at midnight on the last day of the period for which the certificate is issued.

(7) A "registered broker" shall be any person who is a registrant under this chapter and who has been classified as a real estate broker. All other registrants shall be "registered salesmen."

(8) The word "Commission," when used in this chapter shall refer to the Florida real estate commission of the division of occupations of the department of professional and occupational regulation, except when obviously used in some other sense.

(9) Where the phrase "members, officers and directors of a partnership or corporation," or similar phrase, is used in this chapter, the word "members" shall be deemed to refer to partnerships only, and not to stockholders in a corporation.

(10) The words "certificate" or "registration certificate" shall be deemed to mean a written instrument, prepared according to the regulations and bearing the seal of the commission, which shall be issued to every broker or salesman as soon as registration is granted, and renewed annually thereafter as long as renewals thereof shall be granted, and which shall be prima facie evidence that the holder is a registrant, and that the registration fee for the license year expiring next after the date of issuance which shall be indorsed thereon, has been paid. Such certificate, except nonactive certificate, shall authorize the holder to act as a broker or salesman until the date of expiration, or until the registration is revoked or suspended.

(11) The term "real estate" or "real property" used in subsection (2), shall include leaseholds, assignments of leaseholds and subleaseholds thereof, as well as any and every interest or estate in land.

(12) The words "appeal," "appealable," "review," "appellate review," "court" and "appellate court," wherever used in this chapter, shall be construed to mean any appropriate proceeding to review the orders and rulings of the Florida real estate commission, or any court wherein said proceedings may be pending, when such construction shall be necessary to make this statute consistent with the provisions of Art. V of the constitution of Florida and the Florida appellate rules adopted pursuant thereto.

(13) The terms "real estate," "real estate property," "real estate broker," and "real estate salesman," as used in this chapter shall not apply to any cemetery lot, or the right of burial in any cemetery, nor shall such terms apply to any person selling, exchanging, leasing or dealing in such aforementioned property.

The term of office shall be three years; that of one member shall expire each year, and upon the death, resignation or removal of a member, his successor shall be appointed for the unexpired portion of his term. History.—§17, ch. 12223, 1927; CGL 4078.

475.17 Qualifications of applicants for registration.—

(1) An applicant for registration who is a natural person shall be required to make it appear that he is twenty-one years of age, a citizen of the United States, honest, truthful, trustworthy, of good character, and that he bears a good reputation for fair dealing. An applicant for an active broker's registration or a salesman's registration, shall be required to make it appear that he is competent and qualified to make real estate transactions and conduct negotiations therefor, with safety to investors and to those with whom he may undertake a relationship of trust and confidence. An applicant for a salesman's registration shall show that he is a bona fide resident of the state, and an applicant for an active broker's registration shall show that he has been such a resident for one year immediately prior to the filing of the application. If it shall be made to appear that the applicant has been denied registration or a license or has been disbarred, or his registration or license has been revoked or suspended, by this or any other state or nation, or possession or district of the United States, or any court or lawful agency thereof, to practice or conduct any regulated profession, business or vocation, because of any conduct or practices which would have warranted a like result under

this chapter, or that the applicant has been guilty of conduct or practices in this state or elsewhere, which would have been grounds for revoking or suspending registration under this chapter had the applicant then been registered, the applicant shall be deemed not to be qualified, unless, because of lapse of time and subsequent good conduct and reputation, or other reason deemed sufficient it shall appear to the commission that the interest of the public and investors will not likely be endangered by the granting of registration. The foregoing qualifications apply to members of partnerships and officers and directors of corporations. A corporate applicant shall have been organized under, or be legally qualified to do business in the state.

(2) No person shall be registered as a real estate salesman unless, in addition to the other requirements of law, he shall make it appear that he is, and has been for at least six months next prior to the filing of his application, a bona fide resident of Florida; provided, however, this subsection shall not apply to an applicant for registration as a real estate salesman who shall make it appear that he has lawfully operated exclusively as a real estate broker or salesman in another state, requiring registration of real estate brokers or salesmen, for at least two years next prior to filing his application in Florida.

(3) No person shall be registered as a real estate broker unless, in addition to the other requirements of law, he shall make it appear that he has served an apprenticeship as a registered real estate salesman, with and under the instructions and guidance of a registered real estate broker of the state, for at least twelve consecutive months within five years next prior to the filing of his application for registration as a real estate broker; provided however that the requirements of apprenticeship under one broker as herein required shall be waived in the event of the death of the broker or the surrender or revocation of the license of the broker prior to the completion of the twelve months apprenticeship. In the event there is a waiver as herein provided, the time of the apprenticeship under the first registered broker shall be credited to the time served under the second broker in computing the period of twelve months of apprenticeship as required herein. The intent of the legislature in enacting this law is to elevate the profession of a real estate broker for the protection of the public. The apprenticeship provided herein shall not be taken to mean that the salesman is required to attend to the duties of his employment as a real estate salesman to the exclusion of any other employment, nor shall the twelve consecutive months of apprenticeship provided include periods of illness, regular vacations, business trips necessitating absence, and emergencies. Every applicant for registration as a real estate broker at the end of his apprenticeship, shall be required to furnish an affidavit to the Florida real estate commission, on a form provided for that purpose, that he has invested

a part of his time as a real estate salesman under a registered real estate broker, and the broker shall be required to furnish an affidavit to the commission, on a form provided for that purpose, that the salesman has satisfactorily completed his apprenticeship, is qualified, and has the ability and integrity to be a real estate broker.

(4) When the commission has established an educational course or series of educational courses to be regularly conducted, offered, or sponsored by it pursuant to §475.04(2), the commission may require the satisfactory completion of one or more of the educational courses or equivalent as a condition precedent for any person to become registered as a real estate broker or salesman, which requirement shall be in addition to other qualifications required by this chapter. When such requirement is made, provisions shall be made to make such course or courses available by correspondence or other suitable means to any person who shall make it affirmatively appear to the satisfaction of the commission that by reason of hardship he cannot attend the place or places where the course is regularly conducted. The commission is authorized to adopt rules and regulations in the exercise of its powers herein set forth.

475.171 Inapplicability of §§475.04(2) and 475.17(4) to certain persons.—The provisions of §§475.04(2) and 475.17(4) shall not apply to any person who has, or shall have, completed the apprenticeship as required by §475.17(3), on or before the effective date of any rule or regulation adopted by the commission requiring the completion of any educational course as a condition precedent to registration, if such person shall within not more than ninety days after the effective date of such rule or regulation make and diligently pursue his application to become a registered real estate broker, nor shall these subsections apply to any person who on May 30, 1959, is registered as a real estate broker and holds, or is entitled to receive upon request, an active broker registration certificate.

History.—§3, ch. 59-200.

475.18 Proceedings upon application for registration.—

(1) If the commission shall be of the opinion that an applicant for registration is qualified, the application shall be approved. If the applicant shall fail to pass the examination prescribed by the commission the commission may, in its discretion, permit a second examination, and, if the applicant shall again fail, the application shall be denied, without prejudice to the filing of another application. If, from the application filed, or the replies of persons, designated by the applicant, to inquiries by the commission concerning his qualifications, or from their failure to reply thereto fully, or from answers to inquiries, or the failure to fully

answer inquiries, pertinent to his qualifications, propounded to the applicant by the commission, it shall not affirmatively appear that the applicant possesses the necessary residence, character and general competence and qualifications required by this chapter, the commission shall permit reasonable amendments, if offered by the applicant, and if the applicant shall not finally make it affirmatively appear that he is so qualified, the commission may finally deny the application with prejudice. If the application and supporting documents on their face show that the applicant is qualified, but from complaints, or information received, or from investigation, it shall appear to the commission or chairman, at any time before the initial certificate is delivered, that there may be cause to deny registration, the commission or chairman may order an information to be filed, notice served, and hearings before an examiner and the commission held, as hereinafter provided. If an applicant shall be denied registration, except for failure to pass an examination, or by an order giving leave to file a new application, he shall not be permitted to file a new application unless and until the commission shall, in its discretion, and upon petition of the applicant, grant leave to file such new application. No application shall be granted if it shall appear that the applicant has acted, or attempted to act, or has held himself out as entitled to act, as a real estate broker or salesman, in violation of this chapter, during the period of one year next prior to the filing of said application. The commission shall have a broad discretion, in the granting or denial of an application, in view of the difficulty in securing definite and legal proof of bad reputation or of securing satisfactory proof of specific instances of fraudulent or unethical conduct, in the limited time after an application is filed and before a decision should normally be made, and particularly when the applicant has been beyond the limits of the state until a short time before filing an application. The denial of an application shall not be reversed except upon a clear showing of an abuse of discretion or of an arbitrary and capricious ruling.

(2) The foregoing subsection (1) shall be deemed to bar any person from registration who has done any of the acts or performed any of the services described in §475.01 as constituting the person a real estate broker, or salesman, during the said period of one year next prior to the filing of the application, or during the pendency of said application, and until a valid current registration certificate has been duly issued to him, whether the same was done for compensation or valuable considerations, or not.

475.19 Approved applicants to be examined by commission.—When the application for registration of any natural person, not being then registered, shall be approved, the appli-

cant shall be required to appear in person, at a time and place to be designated by the commission, and answer questions touching his qualifications according to the provisions of this chapter. The operation of this section may be postponed by the commission until such time as it may be practicable to put it in force.

History.—§20, ch. 12223, 1927; CGL 4081.

475.20 Renewal of certificates.—Every certificate shall expire at the end of the license period. Certificates for the next succeeding license period shall be issued upon written request, on a form provided by the commission, accompanied by the required fee, if such request is made while registration is in force. When made in proper form, accompanied by the proper fee, such request shall not be denied or unreasonably delayed.

History.—§21, ch. 12223, 1927; CGL 4082; §5, ch. 59-199, cf.—§475.01(6) Definition of "license period."

475.21 Registrant having applied for renewal entitled to continue operating.—Registrants who have made request for renewal, and paid the fee therefor, shall be entitled to continue to act as brokers or salesmen, unless under suspension.

History.—§22, ch. 12223, 1927; CGL 4083.

475.22 Broker to maintain sign at entrance of office.—Every registered broker shall maintain a sign on or about the entrance of his principal office and all branch offices, which sign shall be easily observed and read by any person about to enter such office, and shall be of such form and minimum dimensions as shall be prescribed by the commission.

History.—§23, ch. 12223, 1927; CGL 4084.

475.23 Certificate to expire on change of address.—A registration certificate shall cease to be in force whenever a broker changes his business address, or a salesman changes employer. In such cases, the old certificate shall be surrendered, or accounted for, and a new certificate shall be issued, upon request therefor on a form provided by the commission, and the fee for the issuance of the new certificate shall be five dollars.

History.—§24, ch. 12223, 1927; CGL 4085; §4, ch. 29983, 1955.

475.24 Branch office; fees.—Whenever any applicant or registrant desires to conduct business at some other location, either in the same or different city, town, or county than that registered, such other place of business shall be registered as a branch office, and a registration fee of ten dollars shall be paid for each such office. It shall be necessary to maintain and register a branch office, whenever, in the judgment of the commission, the business conducted at a place other than the principal office, is of such a nature that the public interest requires registration of a branch office. Any office shall be deemed to be a branch office if the name or advertising of a broker having a principal office located elsewhere, shall be

displayed in such manner as to reasonably lead the public to believe that such office is owned or operated by such broker.

History.—§25, ch. 12223, 1927; CGL 4086.

475.25 Grounds for revocation or suspension.—

(1) The registration of a registrant may be suspended for a period not exceeding two years, or until compliance with a lawful order imposed in the final order of suspension, or both, upon a finding of facts showing that the registrant has:

(a) Been guilty of fraud, misrepresentation, concealment, false promises, false pretenses, dishonest dealing, trick, scheme or device, culpable negligence, or breach of trust in any business transaction; or has violated a duty imposed upon him by law or by the terms of a listing contract, written, oral, express or implied, in a real estate transaction; or has aided, assisted, or conspired with any other person engaged in any such misconduct and in furtherance thereof; or has formed an intent, design or scheme to engage in any such misconduct, and has committed an overt act in furtherance of such intent, design or scheme; and it shall be immaterial to the guilt of the registrant that the victim, or intended victim, of the misconduct has sustained no damage or loss, or the damage or loss has been settled and paid, after discovery of the misconduct, or whether such victim, or intended victim, thereof, was a customer or a person in confidential relation with the registrant, or was an unidentified member of the general public; or,

(b) Been guilty of false advertising in, on or by, signs, bill boards, newspapers, magazines, periodicals, books, pamphlets, circulars, radio, telephone, telegraph, or other means of communication of publicity, of such character as to deceive or defraud investors, or prospective investors, in real property or interests therein, as more particularly described in subsection (2) of §475.01, whether such property is owned, or purported to be owned by the registrant or by another; or,

(c) Failed to account or deliver to any person any personal property such as money, fund, deposit, check, draft, abstract of title, mortgage, conveyance, lease, or other document, or thing of value, or any secret or illegal profit, or any divisible share or portion thereof, which has come into his hands, and which is not his property, or which he is not in law or equity entitled to retain, under the circumstances, and at the time which has been agreed upon, or is required by law, or, in the absence of a fixed time, upon demand of the person entitled to such accounting and delivery; provided, however, that, if the registrant shall, in good faith, entertain doubt as to his duty to account and deliver said property, or as to what person is entitled to the accounting and delivery, or if conflicting demands therefor shall have been made upon him, and he has not appropriated the prop-

erty to his own use, or intermingled it with his own property of like kind, he may notify the commission promptly, truthfully stating the facts, and ask its advice thereon, or after notice thereof to the commission, shall promptly submit the issue to arbitration by agreement of all parties, or interplead the parties, or otherwise seek an adjudication of the question, in a proper court, and shall abide, or offer to perform, the advice of the commission or the orders of the court, or arbitrators, no information against him shall be permitted to be maintained; or,

(d) Violated any of the provisions of this chapter, or any lawful order, rule or regulation made or issued under the provisions of this chapter; or,

(e) Been guilty of a crime against the laws of this state or any other state or of the United States, involving moral turpitude, or fraudulent or dishonest dealing; and the record of a conviction certified or authenticated in such form as to be admissible in evidence under the laws of the state, shall be admissible as prima facie evidence of such guilt; or,

(f) Shared a commission with, or paid a fee or other compensation to, a person not properly registered as a real estate broker or salesman under the laws of this state, for the referral of real estate business, clients, prospects, or customers, or for any one or more of the services set forth in §475.01(2). For the purpose of this section it shall be deemed immaterial that the person to whom such payment or compensation is made shall have made said referral, or performed said service, from within this state, or elsewhere; provided, however, a registered real estate broker of this state may pay a referral fee or share a real estate brokerage commission with a real estate broker duly licensed, or registered, under the laws of a foreign state so long as said foreign broker does not violate any law of this state.

(g) Become temporarily incapacitated from acting as a broker or salesman with safety to investors or those in a fiduciary relation with him because of drunkenness, use of drugs, or temporary mental derangement, except that the suspension in such cases shall be for the period of such incapacity; or

(h) Rendered an opinion that the title to any property sold is good or merchantable, except when correctly based upon a current opinion of a licensed attorney at law, or failed to advise a prospective purchaser to consult his attorney on the merchantability of the title or to obtain title insurance.

(i) Failed, if a broker, to immediately place, upon receipt, any money, fund, deposit, check or draft, entrusted to him by any person dealing with him as a broker, in escrow with a title company or banking institution located and doing business in Florida, or, deposit said funds in a trust or escrow bank account maintained by him with some bank located and doing business in Florida, wherein said funds shall be kept until disbursement thereof is properly au-

thorized, or, if a salesman, failed to immediately place with his registered employer any money, fund, deposit, check or draft, entrusted to him by any person dealing with him as agent of his registered employer. The commission shall establish rules and regulations to provide for records to be maintained by the broker and the manner in which such deposits shall be made.

(2) The registration of a registrant shall be revoked, if such registration, or a certificate issued thereon, is found to have been obtained by the registrant by means of fraud, misrepresentation or concealment, or if the registrant has become a nonresident of the state, or is confined in any state or federal prison, or insane asylum, or through mental disease or deterioration, the registrant can no longer safely be entrusted to deal with the public or in a confidential capacity; and a registration or a certificate may be revoked or cancelled, without prejudice to filing a proper application, or request for certificate, if the same shall have been granted or issued through the mistake or inadvertence of the commission.

(3) The registration of a registrant may be revoked if the registrant shall, for a second time, be found guilty of any misconduct that warrants his suspension under subsection (1) of this section, or if he shall be found guilty of a course of conduct or practices which show that he is so incompetent, negligent, dishonest or untruthful that the money, property, transactions and rights of investors or those with whom he may sustain a confidential relation, may not safely be entrusted to him.

475.26 Information and notice in denial, revocation or suspension proceedings.—When, by reason of a complaint filed, or upon investigation, it shall appear to the commission or the chairman, that there is reason to believe that registration probably should be denied to an applicant because of facts not sufficiently disclosed in the application record, or that the registration of a registrant probably should be revoked or suspended, the chairman shall permit an information to be filed with the commission, by an authorized representative of the commission, or some other person having knowledge, information or belief concerning the facts. The information, and all succeeding papers pertaining to the case, shall be filed and marked with the date of the filing, and shall be kept together in one file and given a distinctive number. The party filing the information shall be designated as the plaintiff and the accused applicant or registrant shall be the defendant. In revocation or suspension proceedings as many registrants may be joined in one proceeding as are alleged to have participated in the alleged misconduct charged in one or more of the counts thereof. Where two or more disconnected transactions are alleged in any infor-

mation, they shall be stated in separate counts, and where the plaintiff is uncertain as to some fact pertinent to a single transaction, the transaction may, in separate counts, be alleged in the alternative and it shall not be an objection that the allegations in said counts are inconsistent; and in a default case, or upon a motion for a final order, or motion to quash, the commission may deny, revoke or suspend registration if the allegations of any count will sustain such a final order, or may make such a final order in any other case, if the evidence supports any count of the information. The facts shall be alleged in concise, simple language, and shall be deemed to afford notice of the charge, if a person of ordinary understanding may reasonably be enabled to present his defense thereto, if any, and both the information and answer shall be aided and deemed amended by the proof, if the opposite party shall be afforded full opportunity to meet and defend against or rebut such proof. Upon the filing of an information, a notice thereof shall be sent by registered mail, in the manner and form prescribed by §475.40, addressed to the defendant at the address which the applicant has designated for official notices, in his application, if a denial proceeding, or, in revocation or suspension proceedings, at the last business address which a broker has registered with the commission, or, in case the defendant is a salesman, in care of the employer, at the last address registered with the commission. A copy of the information shall be enclosed with the notice. The notice shall fix the date, not less than twenty days after the mailing of the notice, on which the defendant is required to file an answer or motion to quash the information. The prayer of the information for revocation or suspension, or both, shall not control or limit the power of the commission to enter such an order as is warranted by the facts and this chapter.

History.—§§27, 28, ch. 12223, 1927; CGL 4088, 4089; am. §4, ch. 24090, 1947.

cf.—§475.44, Disqualification of commission members.

475.27 Appointment of examiner; taking of testimony.—Whenever an issue of material fact shall appear from the information and answer in a denial, revocation or suspension proceeding, the commission, or its chairman, shall make an order appointing an examiner to hear and report the evidence that may be offered upon said issue. The examiner shall receive the evidence offered together with any objections thereto and shall transcribe or cause to be transcribed the same and shall report the testimony to the commission. The parties shall have reasonable opportunity to present all evidence pertinent to any material issue in the case. The examiner shall administer oaths to the witnesses, afford all parties the right to cross-examine adverse witnesses, give notices of the time and place of hearing, and do any other act authorized by this chapter, or lawfully directed by the commission. The examiner may, unless the commission or chairman shall otherwise direct, make a

presentment to the circuit court of the county in which the hearing is or was held, of any misconduct of a witness, described in §475.32, for proceedings therein authorized, or the commission or chairman, may make such presentment. Unless an examiner or reporter is a regular salaried employee of the commission, he may be paid a per diem for holding hearings and such compensation for transcribing and reporting testimony, as may be deemed reasonable by the commission. An examiner may adjourn hearings, but all hearings shall be held in the county where the defendant resides or where the matters and things charged in the information are alleged to have occurred.

History.—§29, ch. 12223, 1927; CGL 4090; am. §5, ch. 24090, 1947.

475.28 Rules of evidence.—

(1) In all proceedings before the commission or before the courts, civil or criminal, where the payment, receipt or expectation of a commission, compensation or valuable consideration shall be a necessary element to the investigation, inquiry or offense, proof of the performance of the act, service or condition for which such commission, compensation or valuable consideration is required to be shown, shall be prima facie evidence that such act, service or condition was performed or existed for, or in expectation of, the payment or receipt of a commission, compensation or valuable consideration; and where it shall be material to determine whether or not a party to any action, civil or criminal, is properly registered, the burden of proof shall be on such party.

(2) Photostatic copies of all papers and documents may be introduced in lieu of the originals, in the trial of informations, or type-written copies may be substituted after production of the original to the examiner. The books of account and records of any person shall be admissible upon a showing that they were made in the regular course of business, without introducing the person who made the entries, the weight of such evidence to be decided by the court or commission.

History.—§30, ch. 12223, 1927; CGL 4091.

475.29 Jurisdiction of the commission.—The commission shall have original jurisdiction to receive, hear and determine all informations permitted to be filed, and shall have power to grant, deny, revoke or suspend registration, or to dismiss an information, as it may find warranted by the facts and the provisions of this chapter. Registration may be revoked or suspended upon one or more of the grounds enumerated in §475.25, or elsewhere in this chapter. An application may be denied under the circumstances enumerated in §475.17 or §475.18, and the commission may enter a final order on an application for registration upon the record made by the applicant as provided in §475.18, or upon an information and proceedings thereon, as otherwise provided in this chapter. The

defendant may appear before the court and the commission by attorney or in person.

History.—§31, ch. 12223, 1927; CGL 4092; am. §1, ch. 22861, 1945; am. §6, ch. 24090, 1947.

475.30 Answers, motions and defaults.—

(1) The defendant named in an information shall file with the commission a verified answer thereto, and, if he be so advised, a motion to quash the information, on or before the date fixed in the notice required by §475.26. The filing of an answer to the information shall waive any defect in, or objection to, the notice, or want of notice. The answer shall admit or deny each fact alleged, except mere matters of inducement, or formal allegations, in the information, or avoid the effect thereof by a recital of the facts as defendant conceives them to be, and each issuable fact not denied in one of the manners aforesaid, shall be deemed to be admitted. No admission or allegation of the defendant made in an answer, motion or on the trial, shall be evidence against him in any civil or criminal proceeding, except upon a trial of a charge of perjury against him. All allegations of an answer not admitted in the information shall be deemed denied by the plaintiff.

(2) All questions of jurisdiction, or sufficiency of the information, and other matters of law may be raised by motion to quash, which motion shall be deemed, for the purpose only of said motion, to admit the truth of the facts alleged in the information. The defendant shall be entitled to an immediate hearing upon such motion to quash, and either party to the proceedings, or the commission on its own motion, may call said motion to quash up for hearing on ten days notice to the parties, and all proceedings in the case shall abate until such motion to quash is heard and disposed of by the commission. In the event said motion to quash be denied by the commission, it shall enter its order to such effect, which order shall be reviewable on certiorari as provided in §475.35, but no supersedeas or stay of proceedings shall be granted pending such review except upon application as provided in §475.35. In the event the information shall be adjudged insufficient by the commission or on appeal, the plaintiff shall have the right to amend such information at any time within twenty days after the order holding said information to be insufficient shall have become final. In the event of necessity of procedure not specifically provided for herein, the procedure applicable in chancery practice and appeals shall govern so far as they may be applicable.

(3) If no answer or motion to quash shall be filed on or before the date fixed in the notice prescribed in §475.26, or within the time as it may be enlarged, the chairman shall enter an order declaring the defendant to be in default, the allegations of the information shall be taken as true, and a final order may be entered, ex parte, at any subsequent meeting of the commission. The default may be opened for good cause shown before a final order is entered,

and, if it shall appear to the commission, before October 1 next succeeding the entry of a final order, that the failure to file an answer, or sooner apply for an opening of the default, was not, in any wise, due to the fault, neglect, or disobedience of the provisions of this act requiring immediate filing of notice of change of address or employer, of the registrant, the commission may, in its discretion, set aside the final order and permit the filing of an answer.

(4) Whenever, in this chapter, the words denial, revocation, or suspension, or any two of them, or related words shall appear, they shall be construed to be distributive to the appropriate proceedings.

(5) Whenever, under this chapter, service of any paper on the defendant is required, such service may be made personally, or by mail, on him or his attorney, and proof of such service may be made by affidavit of the person making the service. A defendant shall not be required to serve any paper which is required by this chapter to be filed with the commission, unless specifically so stated.

History.—§32, ch. 12223, 1927; CGL 4093; am. §7, ch. 24090, 1947; §11, ch. 25035, 1949; sub. §(2) am. §10, ch. 26484, 1951; (1), (2), (4) by §2, ch. 59-197.

475.31 Final orders.—

(1) Upon default, or the filing of a motion to quash the information, or motion for a final order, or upon the filing of a final report of the examiner, the cause may be heard by the commission at a regular, special or adjourned meeting. The defendant may file a brief not more than fifteen days after service of a notice that the report of the examiner has been filed. He may request an oral argument within said time, and if the request is granted, shall be given notice of the time and place of hearing at least five days before the date thereof. Upon submission of the cause, in any case, and upon being fully advised in the premises, the commission shall make a final order, which shall be signed, or assented to in writing, by a majority of its members, which order, together with any dissent that a member shall desire to file, shall be entered in an appropriate order book. The final order may dismiss the information, which order shall not be appealable; or said order may deny registration, if in a denial proceeding, or revoke or suspend registration if the defendant is a registrant, as the facts and law may warrant, and no final order shall thereafter be annulled, reversed or called in question, except upon appeal, or because void for want of jurisdiction to enter it. The commission may remand the cause to an examiner for the taking of further testimony, before entering a final order, if justice appears so to require.

(2) All final orders of the commission revoking or suspending registration of a registrant shall become effective when the time for filing petition for writ of certiorari has expired and all other orders or rulings of the commission shall become effective when entered, unless such final orders or other orders

and rulings be superseded as provided in §475.35. Any order or ruling which is superseded shall become effective when the time for appeal from the judgment, order, or decision of the appellate court has expired, unless such order or ruling of the commission be finally reversed or set aside. The commission may postpone the effective date of any order where no supersedeas is filed. The commission shall enforce all orders as of the effective date thereof and may maintain such action in the courts as shall be necessary to the effective enforcement thereof.

(3) An order revoking or suspending the registration of a broker shall automatically suspend the certificates of all salesmen registered with said broker, and if a partnership or corporation, of all members, officers and directors also, while the registration and certificate of said broker shall be inoperative, or until new employment or connection is secured, and a new certificate is issued to the member, officer, director or salesman; but the right to transfer or have a certificate issued or reissued shall not extend beyond a period of six months after the termination of the license year in which said order became effective.

(4) The final order of the commission in revocation or suspension proceedings, shall, except where the information is dismissed, or is based upon a default, or upon a motion to quash, or for a final order, contain a finding of facts, sufficient to support the order. The findings of fact of the commission shall have the same force and effect as the findings of a general master in chancery.

(5) Any registrant whose registration has been suspended may petition the commission for the reissuance of a certificate for the balance of the license year, or for a renewal certificate for the succeeding year, at the expiration of the period of suspension, or during an indefinite suspension, and at any time before the expiration of six months after the termination of the license year in which said term of suspension expired, and in support thereof shall show by his affidavit, on a form to be prescribed by the commission, that he has fully complied with all of the terms and conditions of said suspension, and has not, during the full period thereof, acted, or offered to act, or held himself out as being entitled to act, as either a real estate broker or salesman in the state. Thereupon the commission shall reissue or renew said certificate, unless it shall have reason to doubt that said affidavit is in all material respects true, in which case it shall cause to be filed and served on such petitioner a rule requiring him to show cause, within a time fixed therein, why his petition should not be denied, and shall cause a hearing thereon to be held substantially as in the case of a trial of an information; and if it shall find the petitioner has failed to show by a preponderance of the evidence that the facts stated in said affidavit are true, said petition shall be denied.

(6) The commission shall have authority to terminate a period of suspension, if satisfied that justice requires it, and for like reason may permit a former registrant, whose registration has been revoked, to file a new application, which shall thereafter be treated as any other application, upon petition filed by the registrant, if satisfied that the petitioner will thereafter conduct himself in accordance with the law and ethics governing registrants; but the action of the commission in such cases is discretionary and shall be final.

(7) The commission may publish and distribute in such manner and form as it may prescribe any or all of its final orders or decisions made under this chapter, after they shall be final by lapse of time, or upon affirmance on appeal, or opinions of appellate courts, for the guidance of registrants and the public, and may publish, or withhold from publication, the names and addresses of any or all parties concerned.

(8) If, in any proceeding before the commission or a court under this chapter, a question of procedure shall arise which is not covered by this chapter or valid rule made hereunder, it shall be decided in the same manner as though the same or a similar question had arisen in a chancery case.

475.32 Subpoenas; issuance; service; failure to answer; witness fees.—

(1) Subpoenas for witnesses, whose evidence is deemed material to any investigation or hearing authorized by this chapter, may be issued by the commission or its chairman and under the seal of the commission, or by any circuit clerk, county judge, or clerk of the county court or county judge's court, or examiner appointed under this chapter, commanding such witnesses to be or appear before the commission, the examiner, or any authorized representative of the commission, at a time and place to be therein named, and to bring such books, records, and documents as may be specified, or to submit such books, records, and documents to inspection; and such subpoenas may be served by such examiner or authorized representative of the commission, or by any sheriff or deputy.

(2) Where any witness who has been served with a subpoena fails or refuses to be or appear at the time and place named, or fails or refuses to answer any lawful questions propounded or produce the books, records, or documents required, or who shall be guilty of disorderly or contumacious conduct at the hearing, the facts shall be made known to a circuit judge of the county, who shall forthwith issue an attachment for such witness, and cause him to be brought before said judge. Upon appearance, if the witness shall fail to purge himself of such failure, refusal or conduct, the judge shall proceed further as in cases of contempt of court; and said witness shall pay the costs of said attachment.

(3) Witnesses shall be entitled to the same

fees and mileage as they may be entitled by law for attending as witnesses in the circuit court, except where such examination is held at the place of business or residence of the witness, but no witness shall be required to attend a hearing outside of the county wherein he resides, or may for the time be domiciled, without his consent, unless it be shown to a county or circuit judge that such persons are attempting to avoid appearing as witnesses.

(4) Witnesses who testify under subpoena shall be entitled to the same protection and immunities as are witnesses in judicial proceedings.

History.—§37, ch. 12223, 1927; CGL 4098.

475.34 Fees of court officials; payment by commission.—The judges, clerks, sheriffs, and other officers shall be entitled to the same fees as may be provided by law for similar services in other cases. The fees of witnesses and officers shall be paid by the commission upon presentation of vouchers approved by the examiner or representative, but the commission shall not be liable for fees incurred by reason of services performed at the direction of a defendant unless otherwise previously ordered.

475.35 Appellate review of proceedings.—The final orders and rulings entered or issued in any proceeding before the Florida real estate commission shall be reviewable only by a writ of certiorari issued by the district court of appeals of the appropriate appellate district, or the supreme court, when permitted, as and in the manner provided by the Florida appellate rules or by chapter 120. The venue of the proceedings for such review shall be the appellate district which includes the county wherein hearings before the examiner are required to be heard under the provisions of §475.27; provided however, that if venue cannot be determined under §475.27, then the venue of such proceedings shall be the appellate district which includes the county wherein the executive offices of the commission are located. In all such cases the style of the cause in the court of appeals shall be _____, Petitioner, vs. The Florida Real Estate Commission and (the original plaintiff), Respondents.

475.361 Application and construction of act.—

(1) This act (amendments to §§475.01(12),

475.30, 475.31 and 475.35 by ch. 59-197) does not apply to any appellate proceeding pending in any court on May 30, 1959.

(2) The provisions of said act shall be construed to be exclusive and not cumulative, or alternative, and to the extent that there is conflict between the provisions of this act, and any other statute, then such other statutes are to the extent of such conflict hereby repealed.

History.—§§6, 8, ch. 59-197.

475.37 Effect of reversal of order of court or commission.—Should the order of the court or commission denying, revoking or suspending registration, be finally reversed and set aside, the defendant shall be restored to his rights and privileges as a broker or salesman, from and after filing the mandate, or a copy thereof, with the commission, and the matters and things alleged in the information shall not thereafter be reexamined in any other proceeding concerning the registration of the defendant; or if the inquiry concerned was in reference to an application for registration, the application shall stand approved, and such application shall be remanded for further proceedings according to law.

History.—§40, ch. 12223, 1927; CGL 4101.

475.38 Payment of costs.—The commission shall not be required to advance any fee or costs to any officer or witness, or to execute any bond in any proceeding in the courts, any general statute to the contrary notwithstanding, but in every case, where the commission shall be liable for any fees or costs, a voucher therefor shall be presented to the commission, and if approved, shall be audited and paid as are other expenses of the commission. The commission may, where it is satisfied that a defendant is unable to pay or advance any fees or costs and that the service from which such fees or costs have accrued, or will accrue, is probably necessary in the interests of justice, upon application by the defendant, order that such fees or costs be incurred at the expense of the commission, and be paid as are other fees and costs, but the defendant shall remain liable to the commission for all sums so paid.

History.—§41, ch. 12223, 1927; CGL 4102.

475.39 Right of commission to bring injunction or mandamus.—

(1) Whenever it shall appear to the commission that any person is operating as a broker or salesman without having been duly registered, or is violating any of the provisions of this chapter or lawful rules, regulations or orders of the commission, the commission may file an application for injunction in its own name, or proceedings by mandamus, in the name of the state, on its own relation, and by its counsel, alleging the facts, and praying for an injunction or writ of mandamus against such person, partnership or corporation, or its members, officers or directors, restraining them from further operating

or acting as real estate brokers or salesmen until such time as the proper certificates shall have been granted, or restraining them from disobeying, or commanding them to obey such law, order, rule or regulation.

(2) Upon proper application, and showing that the defendant is not registered or that renewal certificates have not been applied for, or that registration has been denied, revoked or suspended, or that the law, order, rule or regulations have been or are about to be violated or disobeyed, which showing may be by affidavit, the judge of the court wherein the bill shall be filed, shall issue a restraining order or alternative writ of mandamus and, upon the final hearing, shall grant and issue an injunction, mandatory injunction, or peremptory writ of mandamus, as prayed, upon finding the truth and sufficiency of the allegations of the bill or petition. The court may enforce said injunction or writ by punishment for contempt, and by such other writs and process, mesne or final, as are permitted to circuit courts, and shall make such other orders as its discretion and the rules shall require. Such injunction or writ may be limited in time, perpetual or conditional, as may be necessary and proper to the enforcement of this chapter. Decisions of the circuit courts rendered pursuant to this section shall be appealable to the appropriate district court of appeals in the manner and within the time provided by Florida appellate rules.

cf.—§350.64, Appeals in cases brought by public service commissioners.

475.40 Notices.—Whenever any notice shall be required by this chapter, it shall be sufficient to deliver such notice personally to the person to be notified, or to a member or officer of a partnership or corporation, or to cause the same to be sent by registered mail, fully stamped and addressed to such person at the last business address registered with the commission, or, if to a salesman, addressed in care of the registered employer; or to the attorney of record. Such notice shall contain sufficient information to put such person on inquiry, and reasonably lead to a discovery of all facts necessary to the protection of his rights. The period of notice shall be fixed at a reasonable time by the commission, not less than may, for the particular notice, be fixed in this chapter. The affidavit of the person delivering or mailing the notice shall be proof of the fact, but if done by the sheriff or an examiner may be proved by return.

History.—§43, ch. 12223, 1927; CGL 4104.

cf.—§1.01 defines registered mail to include certified mail with return receipt requested.

475.41 Contracts of unregistered person for commissions invalid.—No contract for a commission or compensation for any act or service enumerated in subsection (2) of §475.01 shall be valid unless the broker or salesman shall have complied with this chapter in regard to

registration and renewal of the certificate at the time the act or service was performed.

History.—§44, ch. 12223, 1927; CGL 4105.

475.42 Violations and penalties.—

(1) VIOLATIONS.—

(a) No person shall operate as a real estate broker or salesman without being the holder of a valid current registration certificate.

(b) No person registered as a real estate salesman shall operate as a real estate broker, or operate as a salesman for any person not registered as his employer.

(c) No broker shall employ, or continue in employment, any person as a real estate salesman who is not the holder of a valid current registration certificate as salesman; but a registration certificate as salesman may be issued to a person registered as an active broker, upon request and surrender of the certificate as broker, without a fee in addition to that paid for the issuance of the broker's active certificate.

(d) No salesman shall collect any money in connection with any real estate brokerage transaction, whether as a commission, deposit, payment, rental, or otherwise, except in the name of the employer, and with the express consent of the employer; and no real estate salesman, whether the holder of a valid current registration certificate or not, shall commence or maintain any action for a commission or compensation, in connection with a real estate brokerage transaction, against any person except a person registered as his employer at the time the cause of action is alleged to have arisen.

(e) No person shall violate any lawful order, rule or regulation of the commission, which is binding upon him.

(f) No person shall be guilty of any conduct or practice set forth in §475.25 (1) (a), (b), (c), or (f).

(g) No person shall make any false affidavit or affirmation intended for use as evidence by or before the commission, or a member thereof, or by any of its authorized representatives, in connection with any investigation authorized by this chapter, nor shall any person give false testimony under oath, or affirmation, to or before the commission, or any member thereof, or any examiner appointed hereunder, in any proceeding authorized by this chapter.

(h) No person shall fail or refuse to appear at the time and place designated in a subpoena issued under this chapter, unless because of facts that are sufficient to excuse appearance in response to a subpoena from the circuit court, nor shall a person who is present before the commission, a member thereof, one of its authorized representatives, or an examiner, acting under authority of this chapter, refuse to be sworn or to affirm, or fail or refuse to answer fully any question propounded by the commission, a member thereof, or such representatives or examiner, or any person by the authority of such officer or appointee, nor shall any person, so being present, conduct himself in a disorder-

ly, disrespectful or contumacious manner.

(i) No person shall obstruct or hinder in any manner the enforcement, or performance of any lawful duty by any person acting under the authority, of this chapter, or interfere with, or intimidate, or offer any bribe to, any member of the commission, or any of its employees or examiners, or any person who is, or is expected to be, a witness in any investigation or proceeding under this chapter.

(j) No real estate broker or salesman shall place, or cause to be placed, upon the public records of any county, any contract, assignment, deed, will, mortgage, lien, affidavit, or other writing which purports to affect the title of, or encumber, any real property, if the same is known to him to be false, void, or not authorized to be placed of record, or not executed in the form entitling it to be recorded, or the execution or recording whereof has not been duly authorized by the owner of the property, maliciously or for the purpose of collecting a commission, or to coerce the payment of money to the broker or salesman or other person, or for any unlawful purpose.

(k) No person shall operate as a real estate broker under a trade name without causing the same to be noted in the records of the commission and placed on his certificate, or so operate as a member of a partnership or as a corporation or as an officer or manager thereof, unless said partnership or corporation is the holder of a valid current registration certificate.

(2) PENALTIES.—Any person who shall violate any of the provisions of this section shall, upon conviction, be punished by a fine of not less than \$50.00 nor more than \$500.00, or by imprisonment for not more than 6 months, or if a corporation, by a fine of not less than \$100.00 nor more than \$1,000.00, except where a different punishment is prescribed by this chapter. Nothing in this chapter shall prohibit the prosecution of any person for an act or conduct prohibited by this section, under any other criminal statute of this state, provided, however, in such cases, the state may prosecute under this section or under such other statute, or may charge both offenses in one prosecution, but the sentence imposed shall not be a greater fine or longer sentence than that prescribed for the offense which carries the more severe penalties. A civil case, criminal case, or a denial, revocation, or suspension proceeding may arise out of the same alleged state of facts, and the pendency or result of one such case or proceeding shall not stay or control the result of either of the others.

(3) DEFINITIONS.—

(a) Wherever the words "operate" or "operating" as a broker or a salesman shall appear in this chapter, or in any order, rule or regulation of the commission, or in any pleading, indictment or information, under this chapter, or in any court action or proceeding, or in any order or judgment of a court, it shall be deemed to mean the commission of one or more acts de-

scribed in §475.01(2) and §475.01(3) as constituting or defining a real estate broker or salesman, not including however, any of the exceptions stated therein. A single such act shall be sufficient to bring a person within the meaning of this chapter, and each act shall, if prohibited herein, constitute a separate offense.

(b) The term "valid current registration certificate" shall be held to mean an active registration certificate that is based upon a registration that has not expired, or that has not been revoked, or that is not presently suspended, which was issued prior to the date of the act, conduct or operating, which is the subject of an offense, inquiry, or proceeding, and expiring subsequent thereto, which certificate shall show the then address of the business office, if of a real estate broker, or the then name and business address of the employer, if of a real estate salesman.

(c) The word "person" as used in this chapter shall apply to an individual or a corporation, the singular shall include the plural and the male pronoun shall include the female and neuter.

cf.—§775.06, Alternative punishment.

475.43 Presumptions.—In all criminal cases, and in contempt cases, or other cases filed pursuant to this chapter, if it shall appear that a party has sold, leased or let real estate, the title to which was not in him when it was offered for sale, lease or letting, or such party has maintained an office bearing signs that real estate is for sale, lease or rental thereat, or has advertised real estate for sale, lease or rental, generally, or describing property, the title to which was not in such party at the time, it shall be a presumption that such party was acting or attempting to act as a real-estate broker, and the burden of proof shall be upon him to show that he was not acting or attempting to act as a broker or salesman, as defined herein. All contracts, options or other devices not based upon a substantial consideration, or that are otherwise employed to permit an unregistered person to sell, lease or let real estate, the beneficial title to which has not, in good faith, passed to such party, for a substantial consideration, are hereby declared void and ineffective in all cases, suit or proceedings had or taken under this chapter; provided, however, that this section shall not apply to irrevocable gifts, or to unconditional contracts to purchase, or to options based upon a substantial consideration actually paid and not subject to any agreements to return or right of return reserved.

resolution is adopted the commission shall cause written notices thereof to be mailed to the last known address of all barbers holding certificates of registration, residing and then regularly engaged in barbering in such county, and all barber shops operating within such county, as shown by the files of the commission, notifying them of the adoption of such resolution and fixing a time and place for the hearing of evidence as to conditions existing in such county.

(5) Notwithstanding the provisions of this section, wherein the subjects comprising the course of instruction in schools of cosmetology are outlined, the board shall have authority to change or modify the course of instruction for such schools by adding new subjects or by substituting other subjects for these therein mentioned. The bond shall be in the form and shall be signed by a surety company approved by the board and shall be conditioned upon compliance with all laws relative to schools of cosmetology and

upon faithful performance of all contracts existing between the school and the students thereof during the life of the bond, whether such contracts be written, oral or implied. Every such bond shall continue in full force and effect for the lifetime of the school, except as provided in subsection (8). Any bona fide student of the school during the life of the bond may maintain an action against either the maker thereof or the surety thereon or both, and the bond shall be for the purpose of satisfying any judgment which the student may recover as damage for the breach of this contract.

(b) Provided, that upon it being made to appear to the board that any person, firm or corporation is unable to obtain a surety bond may, in its discretion, permit such person to file a good and sufficient surety bond executed by not less than two personal sureties as surety thereon, each of whom shall be worth the full amount of such bond over and above his debts, liabilities, and exemptions at law, and each shall make an affidavit to such effect which shall be attached to such bond. Every such bond shall be approved by the board, and the board may at any time require a new and additional bond upon determining that the sureties upon any bond have become insolvent or are not any longer qualified as such sureties and upon failure to file such new and additional bond the board shall revoke the certificate of registration.

The registration of any subdivision for which renewal of registration is more than ten days delinquent shall be automatically suspended until such time as the proper renewal fee, plus penalties, if any, has been submitted to the board.

(3) The board shall charge subdividers of out-of-state subdivisions disposed of or offered for disposition in this state an initial fee and an annual fee equal to the fees charged for subdivided lands located within the state. The application for registration required by §478.121 shall be accompanied by the initial fee, and when an inspection is to be made of subdivided lands situated outside of the state and being disposed of or offered for disposition in this state, the application for registration shall also be accompanied by an amount equivalent to the cost of travel from Florida to the location of the subdivided lands and return, as estimated by the board, and by a further amount estimated to be necessary to cover the

(4) The board may charge subdividers who seek an exemption under this chapter an initial fee of fifty dollars. The application for exemption shall be accompanied by the initial fee, and when an inspection or examination is to be made of subdivided lands for which an exemption is sought, the subdivider shall also pay all actual verified expenses incurred in such inspection or examination.

(e) There is no evidence which would reasonably lead the board to believe that the subdivider, or if a corporation, its officers, directors or principals are contemplating a fraudulent or misleading sales promotion;

(f) The public offering statement requirements of this chapter have been satisfied.

(b) Require or permit any person to file a statement in writing, under oath or otherwise

as the board determines, as to all the facts and circumstances concerning the matter to be investigated.

(2) For the purpose of any investigation or proceeding under this chapter, the board or any officer designated by rule may administer oaths or affirmations, and upon its own motion or upon request of any party to such investigation or proceeding shall subpoena witnesses, compel their attendance, take evidence, and require the production of any matter which is relevant to the investigation, including the existence, description, nature, custody, condition and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of relevant facts or any other matter reasonably calculated to lead to the discovery of material evidence.

(3) Upon failure to obey a subpoena or to answer questions propounded by the investigating officer and upon reasonable notice to all persons affected thereby, the board may apply to circuit court for an order compelling compliance.

(4) The board may permit a subdivider or salesman registered with the board whose conduct or actions may be under investigation to waive formal proceedings and enter into a consent proceeding whereby orders, rules, or letters of censure or warning, whether formal or informal, may be entered against said subdivider or salesman.

History.—§15, ch. 63-129; §14, ch. 67-229; §4, ch. 69-393.

(c) Disposed of, concealed or diverted any funds or assets of any person so as to defeat the rights of subdivision purchasers;

(d) Failed to faithfully perform any stipulation or agreement made with the board as an inducement to grant any registration, to reinstate any registration, or to approve any promotional plan or public offering statement;

(e) Made intentional misrepresentations or concealed material facts in an application for registration. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings.

(2) If the board finds after notice and hearing that the subdivider has been guilty of a violation for which revocation could be ordered, it may issue a cease and desist order instead.

History.—§16, ch. 63-129; §15, ch. 67-229.

478.171 Cease and desist orders.—

(1) If the board determines after notice and hearing that a person has:

(b) Directly or through an agent or employee knowingly engaged in any false, deceptive, or misleading advertising, promotional or sales methods to offer or dispose of an interest in subdivided lands;

(c) Made any substantial change in the plan of disposition and development of the subdivided lands subsequent to the order of registration without obtaining prior written approval from the board;

(d) Disposed of any subdivided lands which have not been registered with the board;

(e) Violated any lawful order or rule of the board; it may issue an order requiring the person to cease and desist from the unlawful practice and take such affirmative action as in the judgment of the board will carry out the purposes of this chapter.

(2) If the board makes a finding of fact in writing that the public interest will be irreparably harmed by delay in issuing an order, it may issue a temporary cease and desist order. Prior to issuing the temporary cease and desist order, the board, whenever possible, by telephone or otherwise shall give notice of the proposal to issue a temporary cease and desist order to the person. Every temporary cease and desist order shall include in its terms a provision that upon request a hearing will be held promptly to determine whether or not it becomes permanent.

History.—§17, ch. 63-126; §16, ch. 67-229.

478.191 Civil remedy.—

(1) Any subdivider who disposes of subdivided lands in violation of §478.23, or who in disposing of subdivided lands makes an untrue statement of a material fact, or who in a registration statement or public offering statement makes an untrue statement of a material fact or omits a material fact required to be stated therein, is liable as provided in this section to the purchaser unless in the case of an untruth or omission it is proved that the purchaser knew of the untruth or omission or that the subdivider offering or disposing of subdivided lands did not know and in the exercise of reasonable care could not have known of the untruth or omission, or that the purchaser did not rely on the untruth or omission.

(2) In addition to any other remedies, the purchaser, under the preceding subsection, may sue either in law or in equity to recover the consideration paid for the lot, parcel, unit or interest in subdivided lands together with interest at the rate of six per cent per year from the date of payment, property taxes paid, court costs and reasonable attorney's fees to the prevailing party, less the amount of any income received from the subdivided lands upon tender of appropriate instruments of reconveyance made at any time before the entry of judgment.

(3) Every person who materially participates in any disposition of subdivided lands in the manner specified in subsection (1), if such person directly or indirectly controls a subdivider, is a general partner, officer, director, salesman, agent or an employee of a subdivider, shall also be liable jointly and severally with and to the same extent as the subdivider, unless such person otherwise liable did not know, and in the exercise of reasonable care could not have known, of the existence of the facts by which such liability is alleged to exist. There is a right of contribution as in cases of contracts among persons so liable.

(4) Every person whose occupation gives authority to a statement which with his consent has been used in an application for registration or public offering statement, if he is not otherwise associated with the subdivision and development plan in a material way, is liable only for false statements and omissions in his statement if he did know or in the exercise of the reasonable care of a man in his occupation could have known of the existence of the facts by reason of which the liability is alleged to exist.

Salesmen having valid certificates of registration on January 1, 1969, shall be exempt from this provision, except that any registered salesman whose conduct becomes the subject of disciplinary measures, whether formal or informal, or who seeks to transfer his license, may also be required to

comply with the testing procedures adopted pursuant to this section.

All outdoor advertisement fees shall be payable January 1 of each year. Fees for licenses to engage in the business of outdoor advertising shall not be prorated. Nothing in this section shall be construed to require any person to obtain a license who constructs, erects, operates, uses or maintains an outdoor advertising structure or outdoor advertising sign or outdoor advertisement solely on his own property, as herein provided; nor shall any person be required to obtain the license provided for in this section to erect, use or maintain signs at whatever location which relate solely to merchandise, services or entertainment sold, produced, manufactured or furnished by said person at a place of business or residence of which said person is the owner or lessee.

Any person whose license is so revoked may, within the time provided by the Florida appellate rules apply to the circuit court for a declaratory judgment as to the validity of said order of revocation as provided by chapter 86.

History.—§4, ch. 20446, 1941; §17, ch. 63-512; §5, ch. 67-461; §1, ch. 69-267; §§23, 35, ch. 69-106.

479.06 Bond required from out of state licensee.—No such license as is provided for in §479.04 shall be granted to any person not

residing in this state or to any person having his principal place of business outside the state, or which is incorporated outside the state, until such person shall have furnished and filed with the department a bond payable to the state, with surety approved by the department and in form approved by the department of legal affairs, in the sum of two thousand five hundred dollars, conditioned that such licensee shall fulfill all requirements of law and observe and obey all the requirements of this chapter. 479.07 Individual device permits; fees; tags.—

(1) Except as in this chapter otherwise provided, no person shall construct, erect, operate, use, maintain, or cause or permit to be constructed, erected, operated, used or maintained any outdoor advertising structure, outdoor advertising sign or outdoor advertisement, outside any incorporated city or town, without first obtaining a permit therefor from the department, and paying the annual fee therefor, as herein provided. Permits for each calendar year shall be made available by the department for purchase not later than the preceding July 1. The department shall not issue such a permit to any person in the business of outdoor advertising who has not obtained the license provided for in §479.04.

(2) Applications for permits for advertising structures, advertising signs or advertisements shall be made on forms provided by the department and shall be signed by the applicant or his duly authorized representative. Said applications shall set forth the number of permits for which application is made, the sizes of all advertising structures, advertising signs or advertisements included in the application, and the amounts of the annual permit fees. Every application for permit shall be accompanied by payment of the fee for each advertising structure, advertising sign or advertisement included in the application, which fee shall be based on the size of the advertising structure, advertising sign or advertisement as follows: Four lineal feet or less one dollar; over four lineal feet two dollars per eight lineal feet or fraction thereof above four. The size in lineal feet shall be determined by measuring the width or the height, whichever is greater of the advertising structure, advertising sign or advertisement, including all boards, lattice work, borders, flags, decorative parts, devices or other attachments, except and exclusive of the essential structural supports. Application shall also be made in like manner for a permit to operate, use, maintain or display any existing advertising structure, advertising sign or advertisement. No fee may be prorated for a period less than the remainder of the permit year to accommodate short term pub-

licity features; however, all first year fees may be prorated by the payment of an amount equal to one fourth of the annual fee for each remaining whole quarter or part quarter of the permit year ending on January 1, provided that any aggregate payment of prorated fees amounting to less than five dollars and submitted with a single application shall be accompanied by a service fee of one dollar.

(3) Permits issued hereunder shall expire on January 1 of each year. On or before December 1 of each year the department shall prepare and send to each licensee and permittee a notice of all licenses and permits of said licensee or permittee which were issued prior to December 1 and which shall expire on January 1. Such notice shall be itemized to indicate the amount of the state license fee, the amounts of county license fees, the names of all counties to which the county license fees are applicable, and the number of permits and permit fees of each size.

(4) For every permit issued the department shall deliver to the applicant a serially numbered metal permit tag which shall indicate the year for which the permit is valid and the size of the advertising structure, advertising sign or advertisement. The permittee shall attach a currently valid permit tag to each advertising structure, advertising sign or advertisement which he owns and which is required to be permitted wherever located within the state outside the limits of any incorporated city or town. Such tag shall indicate the amount of permit fee for the advertising structure, advertising sign or advertisement to which it is attached. The tag shall be attached to the face of the advertising structure, advertising sign or advertisement on the end nearest the highway in a manner that shall cause it to be plainly visible. The construction, erection, use or maintenance of any advertising structure, advertising sign or advertisement which is required by this chapter to be permitted, without having affixed thereto a currently valid permit tag shall be prima facie evidence that the same has been constructed or erected and is being operated, used or maintained in violation of the provisions of this chapter, and shall be subject to removal by legal representatives of the department. No person shall paint, alter, mutilate, deface or change the color of a permit tag and no one other than the owner of such tag or his lawful representative shall remove such tag from the advertising structure, advertising sign or advertisement to which it has been affixed. Any person violating this provision shall be guilty of a misdemeanor.

(5) If more than one side of an advertising structure, advertising sign or advertisement is used for advertising, a fee for each such side shall be required. Advertisements sculptured in the round shall be treated as using three sides.

(6) No person shall erect or cause to be erected an advertising structure, advertising

sign or advertisement upon the property of another without first securing the written permission of the owner or lessee of said property.

History.—§6, ch. 20446, 1941; §7, ch. 22858, 1945; §1, ch. 61-151; §2, ch. 63-237; §5, ch. 67-461; §§23, 35, ch. 69-106.

479.08 Revocation of permit.—

(1) The department may after thirty days notice in writing to the permittee, revoke any permit issued by it under §479.07 upon repayment of a proportionate part of the fee in any case where it shall appear to the department that the application for the permit contains knowingly false or misleading information or that the permittee has violated any of the provisions of this chapter unless such permittee shall, before the expiration of said thirty days, correct such false or misleading information and comply with the provisions of this chapter. If the construction, erection, operation, use, maintenance and display of any advertisement, advertising sign or advertising structure for which a permit is issued by the department and the permit fee has been paid as above provided, shall be prevented by any zoning board, commission or other public agency which also has jurisdiction over the proposed advertisement, advertising sign or advertising structure or its site, the fee for such advertisement, advertising sign or structure shall be returned by the department and the permit revoked. But one half of the fee shall be deemed to have accrued upon the erection of advertising sign or advertising structure or the display of an advertisement followed by an inspection by the representatives of the department.

(2) Any person aggrieved by any action of the department in refusing to grant or in revoking a permit under §479.07 may, within the time provided by the Florida appellate rules after the date of such refusal or revocation apply to the circuit court for a declaratory judgment as to the validity of said order of revocation as provided by chapter 86.

483.011 **Short title.**—This chapter may be cited as "The Florida Clinical Laboratory Law."

History.—§1, ch. 67-248.

483.021 **Declaration of policy and statement of purpose.**—The purpose of this chapter is to protect the public health, safety and welfare of the people of this state from the hazards of improper performance by clinical laboratories. Clinical laboratories provide essential services to practitioners of the healing arts by furnishing vital information which is essential to a determination of the nature, cause, and extent of the condition involved. Unreliable and inaccurate reports may cause unnecessary anxiety, suffering, financial burdens and even contribute directly to death. The protection of public and individual health requires licensure of clinical laboratories and certain of their employees, the meeting of certain minimum standards, as well as certain other necessary safeguards as authorized by this chapter.

History.—§2, ch. 67-248.

483.031 **Application of chapter; exemptions.**—This chapter applies to all clinical laboratories and clinical laboratory personnel within this state, except:

(1) Clinical laboratories operated by the United States government.

(2) A clinical laboratory operated by duly licensed practitioners of the healing arts exclusively in connection with the diagnosis and treatment of their own patients; provided, however, if any referred work is received in the clinical laboratory or if any clinical laboratory work is done for patients referred by another practitioner, all provisions of this chapter shall apply. This exemption does not apply to a clinical laboratory operated by a practitioner of the healing arts who holds himself and the facilities of his laboratory out as available for the performance of diagnostic tests for other practitioners or their patients.

(3) Laboratories operated and maintained

exclusively for research and teaching purposes, involving no patient or public health service whatsoever.

History.—§3, ch. 67-248.

483.041 **Definitions.**—

(1) "Person" means any individual, firm, partnership, association, corporation, the State of Florida, any county, municipality, political subdivision or any other entity whether organized for profit or not.

(2) "Division" means the division of health of the department of health and rehabilitative services.

(3) "Clinical laboratory" means a laboratory where microbiological, serological, chemical, hematological, immunohematological, biophysical, cytological or histopathological examinations are performed on materials or specimens taken from the human body to provide information or materials for use in the diagnosis, prevention or treatment of a disease or assessment of a medical condition.

(4) "Clinical laboratory trainee" means any person having qualifying education who is employed in a clinical laboratory approved for training and is seeking experience required to meet minimum qualifications for licensing in the state. Trainees may perform procedures under direct and responsible supervision of duly licensed clinical laboratory personnel.

(5) "Clinical laboratory personnel" includes the clinical laboratory director, supervisor, technologist or technician, but does not include trainees or persons employed by a clinical laboratory to perform clerical or other administrative responsibilities.

(6) "Clinical laboratory evaluation program" means a program of evaluating the proficiency of clinical laboratories by the division.

(7) "Clinical laboratory advisory council" means the group of consultants appointed by the division to advise it and to make recommendations to it on matters relating to the regulation of clinical laboratories, the qualifi-

cation of personnel for licensing and proficiency testing programs under this chapter.

History.—§4, ch. 67-248; §§19, 35, ch. 69-106.

483.051 Powers and rules of division.—The division of health shall adopt rules, to effectuate the purposes and provisions of this chapter, which shall include, but not be limited to, the following subject matters:

(1) **REGISTRATION AND LICENSING; QUALIFICATIONS.**—The division shall register all clinical laboratories and license all clinical laboratory personnel meeting the requirements of this chapter, and shall prescribe the qualifications necessary for clinical laboratories to be registered and for clinical laboratory personnel to be licensed. Personnel qualifications may require appropriate education or experience or the passing of an examination in appropriate subjects or any combination of these; provided that practitioners of the healing arts licensed to practice in this state shall not be required to obtain any licenses under this chapter or to pay any fees hereunder except the fee required for clinical laboratory registration.

(2) **EXAMINATIONS.**—The division shall conduct examinations required by its rules to determine in part the qualification of clinical laboratory personnel for licensure.

(3) **FEES.**—The division shall establish a schedule of annual fees, which shall be reasonable in amount, for registration of clinical laboratories, for licensing of clinical laboratory personnel, for applicants required to take an examination and for registration of clinical laboratory trainees who are subject to this chapter. No registration fee shall be required for a clinical laboratory operated by any agency of the state, by any county or municipality, or by any hospital licensed under the laws of the state. No licensee shall be required to pay more than one fee. Fees collected shall be deposited in the state treasury.

(4) **ANNUAL REGISTRATION AND LICENSING.**—The division shall provide for annual registration of clinical laboratories and licensing of clinical laboratory personnel as of July 1 each year. Those who have failed to pay the proper fee or have otherwise failed to qualify by the following September 1 shall be delinquent and their registration or license subject to cancellation. The registration or license of anyone delinquent on the following December 31 shall be canceled by the division without notice or further proceedings. Upon cancellation under this section the former holder may be reinstated only upon application and qualification as provided for initial applicants and payment of all delinquent fees.

(5) **REGISTRATION OF TRAINEES.**—The division shall provide for the registration of clinical laboratory trainees who are employed by laboratories pursuant to §483.091, which registration shall not be valid for a period in excess of two years except upon special authorization of the division.

As part of the clinical laboratory evaluation program, it may require clinical laboratory personnel to analyze test samples submitted by it and report on the results of such analysis.

(7) **SHIPMENT OF SPECIMENS; OUT-OF-STATE LABORATORIES.**—The division may determine which tests may be performed on specimens shipped through the mail and may prescribe requirements for collection, transportation and preservation of such specimens. Specimens may be sent to any clinical laboratory outside of the state for examination, when the state in which the laboratory is licensed conducts physical inspection of the premises of the laboratory, which in the judgment of the division is equivalent to that conducted by the division or when it is otherwise determined by the division that such out-of-state laboratory would meet the requirements of this chapter. When the specimen has been referred for examination to an out-of-state laboratory the report shall bear or be accompanied by a clear statement that such findings were obtained in such other laboratory and shall specify its name and location.

(8) **CONSTRUCTION OF CLINICAL LABORATORIES.**—The division may establish standards for construction of new or modification of existing clinical laboratories including plumbing, heating, lighting, ventilation, electrical services and similar conditions which shall insure the conduct and operation of the laboratory in a manner which will protect the public health.

(9) **SANITARY CONDITIONS WITHIN THE CLINICAL LABORATORY AND ITS SURROUNDINGS.**—The division shall establish standards relating to sanitary conditions within the clinical laboratory and its surroundings including water supply, sewage, the handling of specimens, and general hygiene which shall insure the protection of the public health.

(10) **EQUIPMENT.**—The division shall establish minimum standards for clinical laboratory equipment essential to its proper conduct and operation.

(11) **APPROVAL OF CURRICULUM IN SCHOOLS AND COLLEGES.**—The division may approve the curriculum in schools and colleges offering education and training leading toward qualification for licensure under this chapter.

483.061 Inspection of all clinical laboratories.—The division is authorized to inspect the premises and operations of all clinical laboratories subject to registration under this chapter for the purpose of studying and evaluating the operation, supervision, and procedures of such facilities and to determine their effect upon the health and safety of the people of this state.

This chapter provides for the examination and regulation of dispensing opticians; provides a license tax and an occupational tax on persons, partnerships or corporations now or hereinafter engaged in such trade or occupation; prohibits the sale of eyeglasses, spectacles, artificial eyes, lenses, contact lenses and optical devices, except as herein provided, unless and until the dispensing optician has qualified with and obtained a license from the said state board of dispensing opticians; this chapter also provides for the licensing of dispensing opticians having a license to practice and trade on June 8, 1949; this chapter also prescribes the manner of enforcing the provisions of this chapter and fixes the penalties for the violation of the terms and provisions thereof; the said chapter defines the jurisdiction, limitation and powers of said state board of dispensing opticians. Natural persons, partnerships or corporations may engage in the trade or occupation of dispensing opticians, but each place of business maintained in the state shall have a duly licensed dispensing optician to supervise the preparing, fitting and adjusting of optical devices.

History.—§1, ch. 25255, 1949; §§30, 35, ch. 69-106.

484.02 Dispensing optician defined.—A dispensing optician is defined as one who prepares and dispenses lenses, spectacles, eyeglasses and optical devices to the intended user thereof on the written prescription of a physician or optometrist, duly licensed to practice his profession. A dispensing optician may duplicate lenses without prescription, provided, however, that such duplication shall be exact as to type, form and effective power and provided, further, that said dispensing optician shall not engage in the diagnosis of the diseases of the human eye or attempt to determine the refractive powers of the human eyes or, in any manner, attempt to prescribe for or treat diseases or ailments of human beings. The state board of dispensing opticians shall have exclusive jurisdiction in the enforcement of this chapter over all persons, partnerships or corporations engaged in business as a dispensing optician, whether licensed or unlicensed; provided, however, that nothing herein contained shall be construed as limiting or in anywise abrogating the power or authority of any board or commission created under any of the Laws of Florida, defining and regulating any profession, to enforce the provisions of such respective laws, or exercising any of the powers contained in such laws against violators thereof, even though engaged in the business of a dispensing optician.

History.—§2, ch. 25255, 1949.

Such license shall be conspicuously displayed in the office or place of business of the dispensing optician and it shall not be necessary to remove the same so long as such dispensing optician continues to practice his trade or occupation in the state and said license is not revoked or suspended by the state board of dispensing opticians.

487.031 Prohibited acts.—It is unlawful:

(1) To distribute, sell, or offer for sale within this state or deliver for transportation or transport in intrastate commerce or between points within this state through any point outside this state any of the following:

(a) Any pesticide which has not been registered pursuant to the provisions of §487.041 of this chapter, or any pesticide if any of the claims made for it or any of the directions for its use differ in substance from the representations made in connection with its registration, or if the composition of a pesticide differs from its composition as represented in

connection with its registration: Provided, that in the discretion of the department, a change in the labeling or formula of a pesticide may be made within a registration period without requiring reregistration of the product.

(b) Any pesticide unless it is in the registrant's or the manufacturer's unbroken immediate container, and there is affixed to such container, and to the outside container or wrapper of the retail package, if there be one, through which the required information on the immediate container cannot be clearly read, a label bearing:

1. The name and address of the manufacturer or the registrant;

2. The name, brand, or trademark under which said article is sold;

3. The net weight or measure of the contents, subject, however, to such reasonable variations as the department may permit; and

4. All other mandatory labeling requirements.

However, the delivery of pesticides in bulk, on permit of the department, is deemed to comply with the unbroken container and labeling provision of this paragraph when safely transported, transferred, deposited, and labeled in a manner provided by technical rule.

5. A warning that all waste pesticide shall be removed from containers and that empty containers shall be either burned or buried or decontaminated thoroughly before disposal in any other manner.

(d) Any pesticide highly toxic to man if its container is not closed and made of such material as will prevent leakage or dusting out when shipped, stored or handled.

(e) The pesticides commonly known as standard lead arsenate, basic lead arsenate, calcium arsenate, magnesium arsenate, zinc arsenate, zinc arsenite, sodium fluoride, sodium fluosilicate and barium fluosilicate unless they have been distinctly colored or discolored as provided by regulations issued in accordance with this law, or any other white powder pesticide which the department, after investigation of and after public hearing on the necessity for such action for the protection of the public health and the feasibility of such coloration or discoloration, shall, by regulation, require to be distinctly colored or discolored;

unless it has been so colored or discolored; provided, that the department may exempt any pesticide to the extent that it is intended for a particular use or uses from the coloring or discoloring required or authorized by this section if it determines that such coloring or discoloring for such use or uses is not necessary for the protection of the public health.

(f) Any pesticide which is adulterated or misbranded, or any device which is misbranded.

(2) To detach, alter, deface, or destroy, in whole or in part, any label or labeling provided for in this law or regulations promulgated hereunder, or to add any substance to, or take any substance from, any pesticide in a manner that may defeat the purpose of this chapter.

(6) To hold or offer for sale, sell, or distribute "restricted pesticides" without a license, unless the person to whom sale is made, or his agent to whom delivery is made, signs a written statement, on a form prescribed by the department, that the purchaser or user holds a valid permit to purchase or use such "restricted pesticides."

(7) To purchase, use, or possess "restricted pesticides" without a purchase or use permit.

(8) To purchase, use, or dispose of "restricted pesticides" or their containers in a manner other than those stated on the purchase or use permit or in the labeling.

History.—§1, ch. 65-457; §1, ch. 69-19; §§14, 35, ch. 69-106; §2, ch. 69-376.

Note.—Similar provisions in former §487.03.

487.041 Registration.—

(1) Every pesticide which is distributed, sold, or offered for sale within this state or delivered for transportation or transported in intrastate commerce or between points within this state through any point outside this state shall be registered in the office of the department, and such registration shall be renewed annually. The registrant shall file with the department a statement including:

(a) The name and street address of the registrant;

(b) The name of the pesticide;

(c) An ingredient statement and a com-

plete copy of the labeling accompanying the pesticide which shall conform to the registration and a statement of all claims to be made for it including directions for use and a guaranteed analysis showing the names and percentages by weight of each active ingredient, the total percentage of inert ingredients, and the names and percentages by weight of each "added ingredient" contained therein; provided, that if it is a household pesticide and is not highly toxic to man, the label statement may name each active ingredient in the descending order of its predominance, together with the name of each and the total percentage of the inert ingredients. When compounds of metallic elements are an active ingredient of the pesticide, the guarantee shall be made in terms of the metallic element. If free sulphur is present as dusting sulphur, it must be guaranteed as to fineness.

(2) For the purpose of defraying expenses of the department in connection with carrying out the provisions of this chapter, each person shall pay a registration fee of ten dollars for each and every brand registered annually, for the first ten brands, and two dollars and fifty cents for each and every brand in excess thereof. All registrations expire on December 31 of each year and new registrations must be filed before January 15 of the current year. Nothing in this section shall be construed as applying to jobbers or retail dealers selling pesticides when such pesticides are registered.

(3) The department, whenever it deems it necessary in the administration of this chapter, may require the submission of the complete formula, evidence of the efficiency and evidence of the safety of any pesticide. This evidence shall be examined by the technical council which shall make recommendations to the department as to whether or not it should be accepted for registration. After the technical council has made its recommendation, the department may register or refuse to register the pesticide. However, before registration is refused the department shall notify the applicant of its intention to refuse, giving its reasons therefor. The applicant shall have fifteen days thereafter in which to request a hearing on his application for registration, and upon his failure to do so within said time, refusal shall become final without further procedure. The department, for reasons of adulteration, misbranding or other good cause, may refuse or revoke the registration of any pesticide, upon notice to the applicant or registrant of its intention to so refuse or revoke, giving its reasons therefor. The applicant shall have fifteen days thereafter in which to request a hearing on the department's intention to refuse or revoke registration and upon his failure to do so within said time refusal or revocation shall become final without further procedure. In no event shall registration of a pesticide be construed as a defense for the commission of any

offense prohibited under §487.031.

(4) Persons registered to manufacture or sell pesticides, under the provisions of this chapter, may make and sell special lots of pesticides not already registered with the department, provided that request for registration of such special lot of pesticide is mailed to the department on the same day the lot is made.

(5) When a registrant discontinues the distribution of a pesticide, which has been registered in this state, he will be required to continue registration of this pesticide until no more remains on the retailer's shelves, or not to exceed two years after written notice to the department of date of discontinuance. If any person desires to further offer said discontinued product for sale he may register same in his own name and shall comply with all provisions of this chapter applying to registrant.

History.—§1, ch. 65-457; §§14, 35, ch. 69-106.
Note.—Similar provisions in former §487.04.

487.042 Restricted pesticides; rules, permits, licenses.—

(1) The department shall adopt technical regulations which govern the purchase and use of "restricted pesticides." Such regulations may prescribe the area, time, amount, and other conditions deemed necessary to avoid injury under which a "restricted pesticide" may be used.

(2) "Restricted pesticides" may be purchased or used only under an annual permit of the department or by a licensee under chapter 482. Such permit shall be issued by the department on a form supplied by it. Authorization for permit to purchase or use shall be based upon a certificate issued by the county agricultural extension agent, or other person designated by the department by rule, certifying that the purchaser or user is a bona fide agricultural, commercial, or industrial user of "restricted pesticides" necessary for the operation of his business. Every permit issued under this chapter is conditioned upon application accompanied by the certificate above referred to and upon compliance with the regulations deemed necessary.

(3) Each person holding or offering for sale, selling, or distributing "restricted pesticides" shall obtain a license from the department. Such license shall expire on June 30 of each year and shall be renewed on or before July 1 of each year.

(4) The department may refuse, revoke, or suspend the permit or license of anyone who has violated any law or rule upon which permit or license was issued or for violations during the previous permit or license year, upon notice to the permittee or licensee of its intention to so refuse, revoke, or suspend, citing reasons therefor. 487.051 Administration; rules and regulations; procedure.—

(1) This chapter and all rules and regulations adopted and promulgated hereunder shall be administered and enforced by the department.

(2) The department is authorized by technical rule, to implement, make specific and interpret the provisions of this chapter and specifically:

(a) To declare as a pest any form of plant or animal life or virus which is injurious to plants, man, domestic animals, articles or substances;

(b) To determine whether pesticides are highly toxic to man;

(c) To determine standards of coloring or discoloring for pesticides, and to subject pesticides to the requirements of §487.031 (1) (e);

(d) To determine the composition and use of pesticides as defined in this chapter, including, without limiting the foregoing general terms, the taking and handling of samples, the establishment of tolerances and deficiencies where not specifically provided for in this chapter, to prohibit the sale or use in pesticides of any material proven detrimental to agriculture or of questionable value; to provide for the incorporation into pesticides of such other substances as plant nutrients and proper labeling of such mixture; to prohibit the sale of pesticides in tablet, pellet or capsule form or combined with human food so as to be dangerous to human beings; and to prescribe the information which shall appear on the label other than specifically set forth in this chapter.

(3) In order to avoid confusion endangering the public health, resulting from diverse requirements, particularly as to the labeling and coloring of pesticides, and to avoid increased costs to the people of this state due to the necessity of complying with such diverse requirements in the manufacture and sale of such pesticides, it is desirable that there should be uniformity between the requirements of the several states and the federal government relating to such pesticides. To this end, the department is authorized to adopt by regulation such regulations applicable to and in conformity with primary standards established by this chapter, as have been or may be prescribed in the United States department of agriculture with respect to pesticides.

(4) All rules and regulations heretofore made and promulgated under existing pesticide laws which are consistent with the provisions of this chapter, as herein amended, shall remain in force and effect until superseded, modified or repealed as in this chapter provided.

(5) (a) All rules and regulations made, adopted or promulgated under authority of this chapter shall be divided into two classes to be known as "technical rules and regulations" and "administrative rules and regulations."

(b) The department shall have full and complete power and authority to make, adopt, promulgate, amend and repeal, without prior notice and hearing, all rules and regulations under the classification "administrative rules and regulations" which it shall deem necessary or helpful in the efficient administration and enforcement of this chapter.

(c) "Administrative rules and regulations" are defined as those rules and regulations which control and regulate the internal affairs of the department of agriculture and consumer services relating to the administration of this chapter.

(d) "Technical rules and regulations" are defined as those rules and regulations other than administrative rules and regulations.

(e) All rules and regulations under the classification technical rules and regulations shall be made, adopted, promulgated, amended or repealed by the department upon notice and hearing provided in paragraph (f) and subject to the approval of the pesticide technical council, in the following prescribed manner: Any member of the pesticide technical council or any person, firm or corporation, manufacturing, offering for sale, selling, consuming or otherwise using commercial pesticides in the state may suggest a rule to the department from which the department shall propose a rule and file same with the secretary of the technical council. Thereafter the secretary shall submit a copy of such proposal to each member of the technical council. The technical council shall approve or disapprove such proposed rule within a reasonable time, not less than ten days nor exceeding ninety days after it is filed with the secretary of the technical council.

(f) Any person, firm or corporation who files its name and address with the department shall be furnished notice of hearing of the technical council and copy of proposed rule at least ten days before said hearing.

(5) RECORDS OF MEETINGS.—In conducting its meetings, the technical council shall use accepted rules of procedure and the secretary shall keep a complete record of the proceedings of each meeting of the technical council, which proceedings shall show the names of the members present at each meeting and the actions taken at council meetings. (4) If a pesticide or device fails to comply with the provisions of this chapter with reference to the ingredient statement reflecting the composition of the product, as required on the registration and labeling, and the department contemplates possible criminal proceedings against the person responsible because of such violation, the department shall, after due notice accord such person an informal hearing or an opportunity to present his views, either orally or in writing, with regard to such contemplated proceedings, and if in the opinion of the department the facts so warrant, the department may refer the facts to the prosecuting attorney for the county in which the violation occurred, with a copy of the results of the analysis or the examination of such article; provided, however, that nothing in this chapter shall be construed as requiring the department to report for prosecution minor violations whenever it believes that the public interest will be subserved by a suitable notice of warning in writing.

(5) It shall be the duty of each prosecuting attorney to whom any such violation is reported, to cause appropriate proceedings to be instituted and prosecuted in a court of competent jurisdiction without delay.

(3) Notwithstanding any other provision of this chapter, registration and labeling is not

required in the case of a pesticide stored or shipped from one manufacturing plant within this state to another manufacturing plant within this state operated by the same person or from one manufacturer to another manufacturer, provided they are properly labeled whenever poison labels are required under §487.031(1)(c) of this chapter.

(4) Nothing in this chapter shall be construed to apply to any persons duly licensed or certified under chapter 482, in their performing any pest control, or other operation for which they are licensed or certified under said statutes.

History.—§3, ch. 59-309; §2, ch. 63-58; §1, ch. 65-431.

494.04 Licensing of mortgage brokers and mortgage solicitors.—

(1) No person shall act as a mortgage broker or mortgage solicitor without a license therefor as provided in this act.

(2) No mortgage broker’s or mortgage solicitor’s license shall be granted to any person who has not been a bona fide resident of the state for a period of at least six months immediately preceding the date of application for license, or who is not a citizen of the United States.

(3) Application for license as mortgage solicitor must be accompanied by the recommendation of the mortgage broker who is to be applicant’s employer and who is to be responsible for applicant’s actions.

(4) Each application for a license or for a renewal thereof shall be made in writing, on such forms and in such manner and accompanied by such evidence in support of such application as prescribed by the department. The department shall require such information with regard to the applicant as it may deem desirable, with due regard to the paramount interests of the public, as to the ex-

perience, background, honesty, truthfulness, integrity, and competency of the applicant as to financial transactions involving primary or subordinate mortgage financing, and where the applicant is a person other than an individual, as to the honesty, truthfulness, integrity, and competency of any officer or director of such corporation, association, or other group, or the members of such partnership.

(5) The license fee for a license year or part thereof ending the following August 31 shall be the sum of seventy-five dollars for the mortgage broker and forty dollars for a mortgage solicitor, which fees shall be deposited in the state treasury and are hereby appropriated to the department to be used in administering this act.

(6) If the licensee is a person other than an individual, the license issued to it entitles one officer or member thereof, on behalf of the corporation, partnership, association, or other group, to engage in the business of mortgage broker, and such officer or member to be designated in the application for license. For each officer or member other than the officer so designated, through whom it engages in the business of mortgage broker, the annual fee shall be forty dollars in addition to the fee paid for the first license.

(7) Upon the filing of such application, and the payment of said fee, the department shall, upon determination of proper qualifications issue a license to the applicant to act as a mortgage broker or mortgage solicitor under and in accordance with the provisions of this act for a period which shall expire the last day of August next following the date of its issuance. Such license shall not be transferable or assignable.

(8) When a mortgage broker's license is issued to a person other than an individual, if it desires any of its officers or members other than the officer or member designated by it to act on behalf of the corporation, partnership, association or other group, as a mortgage broker, it may procure an additional license to so employ each of such additional officers or members. Each additional officer or member so licensed shall be licensed only to act as a mortgage broker for and on behalf of the corporation, partnership, association or other group.

(9) The licenses of both mortgage broker and mortgage solicitor shall be prominently displayed in the office of the mortgage broker. The mortgage solicitor's license shall remain in the possession of the licensed mortgage broker employer until canceled or until the mortgage solicitor leaves the employ of the mortgage broker.

(10) Immediately upon the mortgage solicitor's withdrawal from the employ of the mortgage broker, the mortgage broker shall return the mortgage solicitor's license to the department for cancellation.

(11) Every licensed mortgage broker shall have and maintain a principal place of busi-

ness in the state for the transaction of business. The license shall specify the address of said principal place of business and shall be conspicuously displayed therein. In the event the mortgage broker shall maintain a branch office or offices, the department shall, upon application and the payment of a fee of seventy-five dollars, issue a branch office license specifying thereon the address of such office, which license shall be conspicuously displayed therein. Each mortgage brokerage office or branch thereof shall be operated under the full charge, control and supervision of a designated mortgage broker employed at such office or branch on a regular and full-time basis to supervise and perform the rendition of mortgage brokerage services. No mortgage broker may serve as the licensed person in charge of more than one office or branch thereof. In case the address of the principal place of business or of any branch office shall be changed, the department shall endorse the change of address on the license without charge.

(12) Every person, firm, association, or corporation licensed as a mortgage broker, shall deposit with the department prior to doing business as such, a bond in the amount of five thousand dollars, executed by the mortgage broker as principal and a surety company authorized and licensed to do business in the state, as surety. The bond shall be conditioned upon the faithful compliance of the broker so licensed with the provisions of this act and that he will conduct the business of a mortgage broker in a reliable and dependable manner. The bond shall run to the state for the benefit of any person injured by the wrongful act, default, fraud or misrepresentation of the broker or its solicitors. Before any person, firm, association or corporation shall have any right of action or any right whatsoever against the principal or the surety under the bond and before any such right of action or any such right whatsoever shall exist or arise, such person, firm, association or corporation, within a period of five years after the termination or cancellation of the bond must have given to the department, the surety and the principal written notice of claim under the bond. The giving of such notice of claim under the bond within said period of five years shall be a condition precedent to any right of action or right whatsoever against the principal or the surety and the failure to give such notice as aforesaid shall render the obligation null and void and of no effect as to such person, firm, association or corporation. Only one bond shall be required of any person, firm, association, or corporation irrespective of the number of mortgage brokers employed by or who are members of said firm, association, or corporation.

(b) Misrepresentation, circumvention, or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof, regarding a transaction to which he is a party, and of injury to another party thereto.

conduct which warrants his suspension under subsection (1).

(3) If a licensee is a person other than an individual, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or members of the licensed corporation, partnership, association or other group, has so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual.

(4) No license shall be suspended or revoked except after a hearing thereon. The department shall give the licensee at least ten days' written notice, in the form of an order to show cause, of the time and place of such hearing by registered or certified mail addressed to the principal place of business in this state of such licensee. The said notice shall contain the grounds of complaint against the licensee. Any order suspending or revoking such license shall recite the grounds upon which the same is based. The order shall be entered upon the records of the department and shall not be effective until thirty days after a copy of such order of suspension or revocation has been by registered or certified mail furnished to the licensee at such principal place of business.

(5) Any licensee aggrieved by an order issued by the department suspending or revoking his license may apply for a review thereof by filing a petition for certiorari in the circuit court of the county in which said person is licensed within the time and in the manner provided by the Florida appellate rules.

the department to determine compliance with the provisions of this act.

(5) The department may, at intermittent periods, make such investigations and examinations of any licensee or other person as it deems necessary to determine compliance with this act. For such purposes, it may examine the books, accounts, records and other documents or matters of any licensee or other person. It shall have the power to compel the production of all relevant books, records and other documents and materials relative to an examination or investigation. Such investigations and examinations shall not be made more often than once during a year unless the department has reason to believe the licensee is not complying with the provisions of this act. (1) "Charitable organization" means a group which is or holds itself out to be a benevolent, educational, voluntary health, philanthropic, humane, patriotic, religious or eleemosynary organization or any person which solicits or obtains contributions solicited from the public for charitable purposes after the effective date of this chapter. A chapter, branch, area, office or similar affiliate or any person soliciting contributions within the state for a charitable organization which has its principal place of business outside the state shall be a charitable organization for the purposes of this chapter. This definition shall not be deemed to include a duly constituted religious organization or any group affiliated with and forming an integral part of said organization, no part of the net income of which inures to the direct benefit of any individual and which has received a declaration of current tax exempt status from the government of the United States; provided that no such affiliated group shall be required to obtain such declaration if the parent or principal organization shall have obtained same.

(2) "Contributions" means the promise or grant of any money or property of any kind or value.

(3) "Federated fund raising organization" means a federation of independent charitable organizations which have voluntarily joined together, including but not limited to a united fund or community chest, for purposes of raising and distributing money for and among themselves and where membership does not confer operating authority and control of the individual agencies upon the federated group or organization.

(4) "Person" means any individual, organization, trust, foundation, group, association, partnership, corporation, society or any combination of them.

(5) (a) "Professional solicitor" means any person who, for a financial or other considera-

tion, solicits contributions for, or on behalf of a charitable organization whether such solicitation is performed personally or through their agents, servants or employees or through agents, servants or employees specially employed by or for a charitable organization, who are engaged in the solicitation of contributions under the direction of such person, or a person who plans, conducts, manages, carries on or advises a charitable organization in connection with the solicitation of contributions. A bona fide salaried officer or employee of a charitable organization maintaining a permanent establishment within the state shall not be deemed to be a professional solicitor.

(b) No attorney, investment counselor or banker, who advises any person to make a contribution to a charitable organization, shall be deemed, as the result of such advice, to be a professional solicitor.

History.—§2, ch. 65-218; §1, ch. 67-205.

496.03 Registration of charitable organizations.—

(1) Every charitable organization which intends to solicit contributions within this state, or have funds solicited on its behalf, shall, prior to any solicitation, file a registration statement with the department of state upon forms prescribed by it. The registration statement shall contain the following information:

(a) The name of the organization and the purpose for which it was organized;

(b) The principal address of the organization and the address of any offices in this state. If the organization does not maintain an office, the name and address of the person having custody of its financial records;

(f) A copy of a balance sheet and income and expense statement audited by an independent public accountant for the organization's immediately preceding fiscal year, or a copy of a financial statement audited by an independent public accountant covering complete information as to all the preceding year's fund raising activities of the charitable organization, showing kind and amount of funds raised, costs and expenses incidental thereto, and allocation or disbursement of funds raised, except that any charitable organization that does not actually raise or receive contributions from the public in excess of ten thousand dollars in gross receipts during the organization's fiscal year may submit this information on forms approved by the department of state in a statement signed by an authorized officer and verified under oath and attested to by the chief fiscal officer of the organization; such statement being in lieu of an audit by an independent public accountant;

(g) Whether the organization intends to solicit contributions from the public directly or have such done on its behalf by others;

(h) Whether the organization is authorized by any other governmental authority to solicit contributions and whether it is or has ever been enjoined by any court from soliciting contributions;

(i) The general purpose or purposes for which the contributions to be solicited shall be used;

(j) The name or names under which it intends to solicit contributions;

(k) The names of the individuals or officers of the organization who will have final responsibility for the custody of the contributions;

(2) An individual, partnership or corporation, which is a professional solicitor, may register for and pay a single fee on behalf of all of its employees, members, officers and agents. However, the names and addresses of all employees, officers and agents of all professional solicitors or any other persons employed to work under the direction of a professional solicitor must be listed in the application. The department of state shall be notified in writing within two working days of any change in the employees, members, officers or agents of such professional solicitor.

(3) The applicant shall, at the time of making application, file with and have approved by the department of state, a bond in which the applicant shall be the principal obligor in the sum of ten thousand dollars with one or more sureties, satisfactory to the department of state, whose liability in the aggregate as such sureties, will at least equal the said sum and maintain said bond in effect so long as a registration is in effect. The bond shall be payable to the State of Florida for the use of the department of state and any person who may have a cause of action against the obligor of said bonds for any losses resulting from malfeasance, nonfeasance or misfeasance in the conduct of solicitation activities. An individual, partnership or corporation, which is a professional solicitor, may file a consolidated bond on behalf of all its members, officers and employees.

(3) All certificates of registration for professional solicitors shall expire on December 31 of the year in which issued.

(4) All certificates of registration and letters of exemption for charitable organizations shall expire each year no later than the last day of the sixth month following the month in which the last fiscal year of the organization ends.

500.08 Minor violations not required to be reported.—Nothing in this chapter shall be construed as requiring the department or division to report, for the institution of proceedings under this chapter, minor violations of this chapter, when it believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning.

History.—§8, ch. 19656, 1939; CGL 1940 Supp. 4151(671); §§14, 19, 35, ch. 69-106.

500.09 The department may promulgate regulations.—When in the judgment of the department such action will promote honesty and fair dealing in the interest of consumers, the department with the advice and consent of

the state chemist shall promulgate regulations fixing and establishing for any food or class of food under its common or usual name so far as practicable a reasonable definition and standard of identity, or reasonable standard of quality or fill of container, or reasonable sanitary regulations governing the manufacture, processing or handling of such food products. In the prescribing of any standard of quality for any canned fruit or canned vegetable, consideration shall be given and due allowance made for the differing characteristics of the several varieties of such fruit or vegetable. In prescribing a definition and standard of identity for any food or class of food in which optional ingredients are permitted, the department with the advice and consent of the state chemist shall, for the purpose of promoting honesty and fair dealing in the interest of consumers, designate the optional ingredients which shall be named on the label. The definitions and standards so promulgated shall conform so far as practicable to the definitions and standards promulgated by the secretary of the United States department of agriculture under authority conferred by §401 of the federal act.

500.10 Food deemed adulterated.—A food is deemed to be adulterated:

(1) (a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such food shall not be considered adulterated under this clause if the quantity of such substance in such food does not ordinarily render it injurious to health; or

(b) If it bears or contains any added poisonous or added deleterious substance, other than one which is a pesticide chemical in or on a raw agricultural commodity; a food additive; or a color additive, which is unsafe within the meaning of §500.13(1); or

(c) If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of §408 (a) of the federal act as amended or §500.13(1); or

(d) If it is or it bears or contains, any food additive which is unsafe within the meaning of §409 of the federal act as amended, or §500.13(1); provided that where a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under §408 of the federal act, or §500.13(1), and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining in or on such processed food shall, notwithstanding the provisions of §500.13, and this paragraph, not be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of such residue in the processed food when ready to eat, is not greater than the tolerance

prescribed for the raw agricultural commodity; or

(e) If it consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance, or if it is otherwise unfit for food; or

(f) If it has been produced, prepared, packed, or held under insanitary conditions whereby it may become contaminated with filth, or whereby it may have been rendered diseased, unwholesome, or injurious to health; or

(g) If it is the product of a diseased animal or an animal which has died otherwise than by slaughter, or that has been fed upon the uncooked offal from a slaughter house, or

(h) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(2) (a) If any valuable constituent has been in whole or in part omitted or abstracted therefrom; or

(b) If any substance has been substituted wholly or in part therefor; or

(c) If damage or inferiority has been concealed in any manner; or

(d) If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength or make it appear better or of greater value than it is.

(3) If it is confectionery and it bears or contains any alcohol or non-nutritive article or substance except harmless coloring, harmless flavoring, harmless resinous glaze not in excess of four-tenths of one per cent, harmless natural gum, and pectin; provided, that this subsection shall not apply to any confectionery by reason of its containing less than one half of one per cent by volume of alcohol derived solely from the use of flavoring extracts, or to any chewing gum by reason of its containing harmless non-nutritive masticatory substances.

(4) If it is or bears or contains any color additive which is unsafe within the meaning of the federal act or §500.13.

500.11 Food deemed misbranded.—A food is deemed to be misbranded:

(1) If its labeling is false or misleading in any particular; provided, however, that corn meal shall not be considered misbranded because of its being labeled "Water Ground," where such corn meal so labeled shall have been ground on rocks having a diameter of not less than forty-two inches and which revolves during the grinding of same at a speed not greater than one hundred and eighty-six revolutions per minute.

(2) If it is offered for sale under the name of another food.

(3) If it is an imitation of another food, unless its label bears, in type of uniform size

and prominence, the words "imitation" and, immediately thereafter, the name of the food imitated.

(4) If its container is so made, formed, or filled as to be misleading.

(5) If in package form, unless it bears a label containing:

(a) The name and place of business of the manufacturer, packer, or distributor;

(b) An accurate statement of the quantity of the contents in terms of weight, measure or numerical count; provided, that under this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the department.

(6) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(7) If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulations as provided by §500.09; unless

(a) It conforms to such definition and standard; and

(b) Its label bears the name of the food specified in the definition and standard, and, in so far as may be required by such regulations, the common names of optional ingredients (other than spices, flavoring and coloring) present in such food.

(8) If it purports to be or is represented as:

(a) A food for which a standard of quality has been prescribed by regulations as provided by §500.09 and its quality falls below such standard unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard; or

(b) A food for which a standard or standards of fill of container have been prescribed by regulation as provided by §500.09 and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard.

(9) If it is not subject to the provisions of subsection (7) of this section, unless its label bears:

(a) The common or usual name of the food, if any there be; and

(b) In case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavorings, and colorings, other than those sold as such, may be designated as spices, flavorings, and colorings, without naming each; provided, that, to the extent that compliance with the re-

quirements of this paragraph is impractical or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the department with the advice and consent of the state chemist.

(10) If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the department determines to be, and by regulations prescribes as, necessary in order to fully inform purchasers as to its value for such uses.

(11) If it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; provided, that to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the department with the advice and consent of the state chemist.

(12) When soft drinks are offered for sale in sanitary returnable or nonreturnable containers, sealed or securely capped, impervious to contamination by leakage or contact with foreign substances, and when the trade name, net content and declaration of artificial flavor or color, when used, appear on the principal display panel, which may be the cap, crown, lid, or side of the container of said drinks, and when the manufacturer, at least once every year and oftener when required by the department, files with said department an affidavit stating the trade names of such drinks manufactured by him and the territorial limits in the state within which said drinks are offered for sale, the provisions of this chapter requiring additional labeling and branding of said drinks shall not apply. However, nothing in this subsection shall in any manner otherwise restrict, modify, or impair the jurisdiction and authority of the department over said drinks as food products and the conditions pertaining to the manufacture of same.

500.12 Permits to manufacturers, processors or packers.—

(1) When the department finds after investigation that the distribution in the state of any class of food may, by reason of contamination with micro-organisms during manufacture, processing, or packing thereof in any locality, be injurious to health, and that such injurious nature cannot be adequately determined after such articles have entered commerce, it then, and in such case only, shall promulgate regulations providing for the issuance, to manufacturers, processors, or packers of such class of food in such locality, of permits to which shall be attached such conditions governing the manufacture, processing, or packing of such class of food, for such temporary period

of time, as may be necessary to protect the public health; and after the effective date of such regulations, and during such temporary period, no person shall introduce or deliver for introduction into commerce any such food manufactured, processed, or packed by any such manufacturer, processor, or packer unless such manufacturer, processor, or packer holds a permit issued by the department as provided by such regulations.

(2) The department may suspend immediately upon notice any permit issued under authority of this section if it is found that any of the conditions of the permit have been violated. The holder of a permit so suspended may at any time apply for the reinstatement of such permit, and the department shall, immediately after prompt hearing and an inspection of the establishment, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit, as originally issued, or as amended.

(3) The state chemist or assistant state chemist or any officer or inspector duly designated by the department shall have access to any factory or establishment the operator of which holds a permit from the department, for the purpose of ascertaining whether or not the conditions of the permit are being complied with, and denial of access for such inspection shall be ground for suspension of the permit until such access is freely given by the operator.

(4) The department shall promulgate regulations exempting from any labeling requirement of this chapter:

(a) Small open containers of fresh fruits and fresh vegetables; and

(b) Food which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that such food is not adulterated or misbranded under the provisions of this chapter upon removal from such processing, labeling, or repacking establishment.

History.—§12, ch. 19656, 1939; CGL 1940 Supp. 4151(675); §14, 35, ch. 69-106.

500.13 Addition of poisonous or deleterious substance to food.—

(1) Any added poisonous or deleterious substance, any food additive, any pesticide chemical in or on a raw agricultural commodity, or any color additive, shall, with respect to any particular use or intended use, be deemed unsafe for the purpose of application of §500.10

(1) (b) with respect to any food, unless there is in effect a regulation pursuant to subsection

(2) limiting the quantity of such substance, and the use or intended use of such substance conform to the terms prescribed by such regulation. While such regulation relating to such substance is in effect, a food shall not, by reason of bearing or containing such substance in

accordance with the regulation, be considered adulterated within the meaning of §500.10(1)(a).

(2) The department, whenever public interest in the state so requires, is authorized to adopt, amend, or repeal regulations whether or not in accordance with regulations promulgated under the federal act, prescribing therein tolerances for any added poisonous or deleterious substances, for food additives, for pesticide chemicals in or on raw agricultural commodities or for color additives, including, but not limited to, zero tolerances, and exemptions from tolerances in the case of pesticide chemicals in or on raw agricultural commodities, and prescribing the conditions under which a food additive or color additive may be safely used and exemptions where such food additive or color additive is to be used solely for investigational or experimental purposes, upon his own motion or upon the petition of any interested party requesting that such a regulation be established, and it shall be incumbent upon such petitioner to establish by data submitted to the department that a necessity exists for such regulation, and that its effect will not be detrimental to the public health. If the data furnished by the petitioner is not sufficient to allow the department to determine whether such regulation should be promulgated, the department may require additional data to be submitted and a failure to comply with the request shall be sufficient grounds to deny the request. In adopting, amending or repealing regulations relating to such substances the department shall consider among other relevant factors, the following which the petitioner, if any, shall furnish:

(a) The name and all pertinent information concerning such substance including where available, its chemical identity and composition, a statement of the conditions of the proposed use, including directions, recommendations and suggestions and including specimens of proposed labeling, all relevant data bearing on the physical or other technical effect and the quantity required to produce such effect.

(b) The probable composition of, or other relevant exposure from the article and of any substance formed in or on a food, resulting from the use of such substance.

(c) The probable consumption of such substance in the diet of man and animals taking into account any chemically or pharmacologically related substance in such diet.

(d) Safety factors which, in the opinion of experts qualified by scientific training and experience to evaluate the safety of such substances for the use or uses for which they are proposed to be used, are generally recognized as appropriate for the use of animal experimentation data.

(e) The availability of any needed practicable methods of analysis for determining the identity and quantity of such substance in or on an article, any substance formed in or on such article because of the use of such substance,

and the pure substance and all intermediates and impurities, and

(f) Facts supporting a contention that the proposed use of such substance will serve a useful purpose.

500.14 Drug or device deemed adulterated.

—A drug or device is deemed to be adulterated:

(1) (a) If it consists in whole or in part of any filthy, putrid or decomposed substance; or

(b) If it has been produced, prepared, packed, or held under unsanitary conditions whereby it may have been contaminated with filth, or whereby it may have been rendered injurious to health, or

(c) If it is a drug and its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health; or

(d) If it is a drug and it bears or contains for purpose of coloring only, a color additive which is unsafe within the meaning of the federal act; or it is a color additive, the intended use of which in or on drugs is for the purpose of coloring only, and it is unsafe within the meaning of the federal act.

(2) If it purports to be or is represented as a drug the name of which is recognized in an official compendium, and its strength differs from, or its quality or purity falls below, the standard set forth in such compendium. Such determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in such compendium, or in the absence of or inadequacy of such tests or methods of assay, those prescribed under authority of the federal act. No drug defined in an official compendium shall be deemed to be adulterated under this subsection because it differs from the standard of strength, quality, or purity therefor set forth in such compendium, if its difference in strength, quality or purity from such standard is plainly stated on its label. Whenever a drug is recognized in both the United States pharmacopoeia and the homeopathic pharmacopoeia of the United States it shall be subject to the requirements of the United States pharmacopoeia unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the homeopathic pharmacopoeia of the United States and not to those of the United States pharmacopoeia.

(3) If it is not subject to the provisions of subsection (2) and its strength differs from, or its purity or quality falls below, that which it purports or is represented to possess.

(4) If it is a drug and any substance has been:

(a) Mixed or packed therewith so as to reduce its quality or strength; or

(b) Substituted wholly or in part therefor.

- (2) If in package form unless it bears a label containing

- (a) The name and place of business of the manufacturer, packer, or distributor; and

- (b) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count; provided, that under this paragraph reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the division.

- (3) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs or devices, in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

- (4) If it is for use by man and contains any quantity of the narcotic or hypnotic substances alpha-eucaine, barbituric acid, beta-eucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marihuana, morphine, opium, paraldehyde, peyote, or sulfonmethane, or any chemical derivative of such substances, which derivative has been by the division after investigation, found to be, and by regulations under this chapter, designated as habit-forming, unless its label bears the name and quantity or proportion of such substance or derivative and in juxtaposition therewith the statement Warning—May be habit-forming.

- (5) If it is a drug and is not designated solely by a name recognized in an official compendium unless its label bears

- (a) The common or usual name of the drug, if such there be; and

- (b) In case it is fabricated from two or more ingredients, the common or usual name of each active ingredient, including the kind and quantity or proportion of any alcohol, and also including whether active or not the name and quantity or proportion of any bromides, ether, chloroform, acetanilide, acetophenetidin, amidopyrine, antipyrine, atropine, hyoscine, hyoscyamine, arsenic, digitalis glucosides, mercury, ouabain, strophanthin, strychnine, thyroid, or any derivative or preparation of any such substances contained therein; provided, that to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the division.

- (6) Unless its labeling bears

- (a) Adequate directions for use; and

- (b) Such adequate warnings against use in those pathological conditions or by children where its use may be dangerous to health, or

against unsafe dosage or methods or duration of administration or application, in such manner and form, as are necessary for the protection of users; provided, that where any requirement of paragraph (a) of this subsection, as applied to any drug or device, is not necessary for the protection of the public health, the division shall promulgate regulations exempting such drug or device from such requirements.

- (7) If it purports to be a drug the name of which is recognized in an official compendium, unless it is packaged and labeled as prescribed therein; provided, that the method of packing may be modified with the consent of the division. Whenever a drug is recognized in both the United States pharmacopoeia and the homeopathic pharmacopoeia of the United States, it shall be subject to the requirements of the United States pharmacopoeia with respect to packaging and labeling unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the homeopathic pharmacopoeia of the United States, and not to those of the United States pharmacopoeia.

- (8) If it has been found by the division to be a drug liable to deterioration, unless it is packaged in such form and manner, and its label bears a statement of such precautions, as the division shall by regulations require as necessary for the protection of public health. No such regulation shall be established for any drug recognized in an official compendium until the division shall have informed the appropriate body charged with the revision of such compendium of the need for such packaging or labeling requirements and such body shall have failed within a reasonable time to prescribe such requirements.

- (10) If it is dangerous to health when used in the dosage, or with the frequency or duration prescribed, recommended, or suggested in the labeling thereof.

- (11) If it is, or purports to be, or is represented as a drug composed wholly or partly of insulin, unless

- (a) It is from a batch with respect to which a certificate has been issued pursuant to §506 of the federal act and

- (b) Such certificate is in effect with respect to such drug.

- (12) If it is, or purports to be, or is represented as a drug composed wholly or partly of any kind of penicillin, streptomycin, chlorotetracycline, chloramphenicol, or bacitracin, or any derivation thereof, unless

- (a) It is from a batch with respect to which a certificate has been issued pursuant to §507 of the federal act, and

- (b) Such certificate is in effect with respect to such drug; provided, that this subsection

shall not apply to any drug or class of drugs exempted by regulations promulgated under §507 (c) or (d) of the federal act.

(13)(a) If it is a drug intended for use by man which is a habit-forming drug, to which subsection (4) applies; or which because of its toxicity or other potentiality for harmful effect, or the method of its use, or the collateral measures necessary to its use, is not safe for use except under the supervision of a practitioner licensed by law to administer such drugs; or which is limited by an effective application under §505 of the federal act or §500.16 to use under the professional supervision of a practitioner licensed by law to administer such drug, unless it is dispensed only

1. Upon the written prescription of a practitioner licensed by law to administer such drug, or

2. Upon an oral prescription of such practitioner which is reduced promptly to writing, and filled by the pharmacist, or

3. By refilling any such written or oral prescription if such refilling is authorized by the prescriber either in the original prescription or by oral order which is reduced promptly to writing and filed by the pharmacist.

(b) Any drug dispensed by filling or refilling a written or oral prescription of a practitioner licensed by law to administer such drug, shall be exempt from the requirements of this section, except subsections (1), (9), (11), (12), and the packaging requirements of subsections (7) and (8), if the drug bears a label containing the name and address of the dispenser or seller, the serial number and date of such prescription or its filling, the name of the prescriber and, if stated in the prescription, the name of the patient and the directions for use and cautionary statements. This exemption shall not apply to any drug dispensed in the course of the conduct of a business of dispensing drugs pursuant to diagnosis by mail, or to any drug dispensed in violation of paragraph (a) of this subsection. Provided further, that the division may, by regulation, remove drugs subject to subsection (4) of this section and §500.16, from the requirements of paragraph (a) of this subsection when such requirements are not necessary for the protection of public health.

(14) If it is a drug which is subject to subsection (13)(a), unless at any time prior to dispensing, its label bears the statement, Caution: Federal Law Prohibits Dispensing Without Prescription, or Caution: State Law Prohibits Dispensing Without Prescription.

(15) If it is a drug which is not subject to subsection (13)(a), if at any time prior to dispensing its label bears the caution statement required in subsection (14).

(16) Nothing in subsection (13) shall be construed to relieve any person from any requirement prescribed by or under authority of law with respect to drugs now included or which may hereafter be included within the classifications of narcotic drugs or marihuana

as defined in the applicable federal and state laws relating to narcotic drugs and marihuana.

(17) If it is a color additive, the intended use of which in or on drugs is for the purpose of coloring only, unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to such color additive prescribed under the provisions of the federal act.

(a) An application with respect thereto has become effective under §505 of the federal act, or

(b) When not subject to the federal act unless such drug has been tested and has not

been found to be unsafe for use under the conditions prescribed, recommended, or suggested in the labeling thereof, and prior to selling or offering for sale such drug, there has been filed with the division an application setting forth

1. Full reports of investigations which have been made to show whether or not such drug is safe for use;

2. A full list of the articles used as components of such drug;

3. A full statement of the composition of such drug;

4. A full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of such drug;

5. Such samples of such drug and the articles used as components thereof as the division may require; and

6. Specimens of the labeling proposed to be used for such drug.

(2) An application provided for in subsection (1)(b) shall become effective on the sixtieth day after the filing thereof, except that if the division finds after due notice to the applicant and giving him an opportunity for a hearing, that the drug is not safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling thereof, he shall, prior to the effective date of the application, issue an order refusing to permit the application to become effective.

(3) This section shall not apply:

(a) To a drug intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety in drugs provided the drug is plainly labeled For investigational use only; or

(b) To a drug sold in this state at any time prior to the enactment of this chapter or introduced into interstate commerce at any time prior to the enactment of the federal act; or

This product

must not be used for dyeing the eyelashes or eyebrows; to do so may cause blindness." and the labeling of which bears adequate directions for such preliminary testing. For the purposes of this subsection and subsection (5) the term "hair dye" shall not include eyelash dyes or eyebrow dyes.

(2) If it consists in whole or in part of any filthy, putrid, or decomposed substance.

(3) If it has been produced, prepared, packed, or held under unsanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

***Note.**—In order to conform to the terminology of §14, ch. 69-106, the editors have substituted the definition of "department" for that of "commissioner." This change will be enacted by a subsequent reviser's bill.

502.021 Reconstituted or recombined milk, adulterated or misbranded milk or milk products.—

(1) No person shall in this state or its police jurisdiction, produce, provide, sell, offer or expose for sale, or have in possession with intent to sell any reconstituted or recombined

milk, or any milk or milk product which is adulterated or misbranded; provided, that in an emergency, the sale of pasteurized milk and milk products which have not been graded, or the grade of which is unknown, may be authorized by the department, in which case such products shall be labeled "ungraded."

(2) Any reconstituted or recombined milk, or any adulterated or misbranded milk or milk product may be impounded by the department and made unsalable, or otherwise disposed of as may be deemed proper. Disposition shall be accomplished so as not to create a nuisance and to prevent their being used for human consumption.

History.—§2, ch. 67-263; §§14, 35, ch. 69-106.

502.031 Permits.—

(1) It shall be unlawful for any person who does not possess a permit from the department to bring into, send into, or receive into the state or its police jurisdiction, for sale, or to sell, or offer for sale therein, or to have in storage any milk or milk products defined in this chapter. A permit is defined to be a privilege extended to any person, firm or corporation who offers for sale any milk or milk products, as defined in this chapter, in the state; provided, that grocery stores, restaurants, soda fountains and similar establishments where milk or milk products are served or sold at retail, but not processed, may be exempt from the requirements of this section.

(2) Only a person who complies with the requirements of this law shall be entitled to receive and retain such a permit. Permits shall not be transferable with respect to persons and/or locations.

(3) The department shall suspend such permit, whenever it has reason to believe that a public health hazard exists; or whenever the permit holder has violated any of the requirements of this law; or whenever the permit holder has interfered with the department in the performance of its duties; provided, that the department shall, in all cases except where the milk or milk product involved creates or appears to create an imminent hazard to the public health or in any case of a willful refusal to permit authorized inspection, serve upon the holder a written notice of intent to suspend permit, which notice shall specify with particularity the violations in question and afford the holder such reasonable opportunity to correct such violations as may be agreed to by the parties, or in the absence of agreement, fixed by the department, before making any order of suspension effective. A suspension of permit shall remain in effect until the violation has been corrected to the satisfaction of the department.

(4) Upon written application of any person whose permit has been suspended, or upon application within 48 hours of any person who has been served with a notice of intention to suspend, and in the latter case before suspension, the department shall within seventy-two

hours proceed to a hearing to ascertain the facts of such violation or interference and upon evidence presented at such hearing shall affirm, modify, or rescind the suspension or intention to suspend.

(5) Upon repeated violations, the department may revoke such permit following reasonable notice to the permit holder and an opportunity for a hearing. This section is not intended to preclude the institution of court action as provided in §§502.051 and 502.061.

History.—§2, ch. 67-263; §§14, 35, ch. 69-106.

502.041 Labeling and advertising.—

(1) All bottles, containers and packages enclosing milk or milk products defined in §502.012 shall be conspicuously labeled or marked with:

(a) The name of the contents as given in §502.012 of this chapter.

(b) The word "reconstituted" or "recombined" if the product is made by reconstitution or recombination.

(c) The grade of the contents.

(d) The word "pasteurized" if the contents are pasteurized and the name and address of the plant where pasteurized.

(e) The word "raw" if the contents are raw and the name and address of the producer.

(f) The state in which same was produced, and all distributors or receivers of milk and milk products shall furnish all customers, wholesale or retail, with information to be placed upon the containers in which the milk and milk products are handled showing the source of production of the milk and milk products as herein required.

(g) The designation "vitamin D" and the number of U.S.P. units per quart in the case of vitamin D milk or milk products.

(h) The volume or proportion of water to be added for reconstituting or recombining in the case of milk products.

(j) The words "artificially sweetened" in the name if nonnutritive and/or artificial sweeteners are used.

(k) The common name of stabilizers, emulsifiers, distillates and ingredients.

(2) Provided that:

(a) Only the identity of the milk producer shall be required for milk delivered to a milk plant which receives only grade A raw milk for pasteurization, and which immediately dumps and washes delivery containers.

(b) In the case of concentrated milk products, the specific name of the product shall be substituted for the generic term "concentrated milk products," e.g., "homogenized concentrated milk," "concentrated skim milk," "concentrated chocolate milk," "concentrated chocolate flavored lowfat milk."

(c) In the case of flavored milk the name of

the principal flavor shall be substituted for the word "flavored."

(d) In the case of cultured milk and milk products, the special type culture used may be substituted for the word "cultured," e.g., "acidophilus buttermilk," "bulgarian buttermilk," and "yogurt."

(3) All vehicles and transport tanks containing milk or milk products shall be legibly marked with the name and address of the milk plant or hauler in possession of the contents. Tanks transporting raw milk and milk products to a milk plant from sources of supply not under the routine supervision of the department are required to be marked with the name and address of the milk plant or hauler and shall be sealed; in addition, for each such shipment, a shipping statement shall be prepared containing at least the following information:

- (a) Shipper's name, address, and permit number.
- (b) Permit number of hauler, if not employee of shipper.
- (c) Point of origin of shipment.

(4) The labeling information which is required on all bottles, containers or packages of milk or milk products shall be in letters of an acceptable size, kind, and color satisfactory to the department and shall contain no marks or words which are misleading.

(5) No ingredient shall be displayed on the label with more prominence than another.

(6) When the per cent of butterfat appears on the label, it shall be accurately stated to within 0.1 per cent of the true contents.

(7) The label of milk and milk products may include the name of the breed of cows from which such milk or milk products were produced; provided such milk or milk products contain only milk produced from the breed named on the label.

(8) Samples of labels or marks to be used on containers of milk or milk products, upon referral, will be examined by the department for compliance with law and rules.

(9) It is unlawful for any person to advertise or cause to be advertised any milk or milk product, the advertisement of which contains any assertion, representation or statement which is untrue, deceptive or misleading. This subsection shall not apply to any owner of an

advertising medium or to any agent of the advertiser who in good faith publishes or causes to be published any false, deceptive or misleading information.

History.—§2, ch. 67-263; §§14, 35, ch. 69-106.

502.051 Inspection of dairy farms and milk plants.—

(1) Each dairy farm, milk plant, receiving station, and transfer station whose milk or milk products are intended for consumption within the state or its police jurisdiction shall be inspected by the department prior to the issuance of a permit.

(2) Following the issuance of a permit, each dairy farm and transfer station shall be inspected at least once every six months and each milk plant and receiving station shall be inspected at least once every three months. Should the violation of any requirement set forth in §502.071 be found to exist, a second inspection shall be required after the time deemed necessary to remedy the violation, but not before three days; the reinspection shall be used to determine compliance with the requirements of §502.071. Any violation of the same requirement of §502.071 on such reinspection shall call for permit suspension in accordance with §502.031 and/or court action.

(3) One copy of the inspection report shall be handed to the operator, or other responsible person, or be posted in a conspicuous place on an inside wall of the establishment. Said inspection report shall not be defaced and shall be made available to the department upon request. An identical copy of the inspection report shall be filed with the records of the department.

(4) Every milk producer, hauler, distributor, or plant operator shall, upon request of the department, permit access of officially designated persons to all parts of his establishment or facilities to determine compliance with the provisions of this chapter. A distributor or plant operator shall furnish the department, upon request, for official use only, a true statement of the actual quantities of milk and milk products of each grade purchased and sold, and a list of all sources of such milk and milk products, records of inspections, tests, and pasteurization time and temperature records.

(5) It shall be unlawful for any person who in an official capacity obtains any information under the provisions of the chapter which is entitled to protection as a trade secret (including information as to quantity, quality, source or disposition of milk or milk products, or results of inspections or tests thereof) to use such information to his own advantage or to reveal it to any unauthorized person.

History.—§2, ch. 67-263; §§14, 35, ch. 69-106.

502.052 Inspections; administrative procedures.—

(1) INSPECTION FREQUENCY.—One producer inspection every six months or one plant inspection every three months is not a desirable frequency; it is instead a legal mini-

mum. Dairy farms and milk plants experiencing difficulty meeting requirements should be visited more frequently. Inspections of dairy farms shall be made at milking time as often as possible, and of milk plants at different times of the day, in order to ascertain if the processes of equipment assembly, sanitizing, pasteurization, cleaning, and other procedures comply with the requirements of this chapter.

(2) **ENFORCEMENT PROCEDURE.**—This section provides that a dairy farm or milk plant shall be subject to suspension of permit, and/or court action, if two successive inspections disclose violation of the same requirement.

(a) Experience has demonstrated that a strict enforcement of the law leads to a better and friendlier relationship between the department and the milk industry than does a policy of enforcement which seeks to excuse violations and to defer penalty therefor. The sanitarian's criterion of satisfactory compliance should be neither too lenient nor unreasonably stringent. When a violation is discovered, the inspector should point out to the milk producer or plant operator the requirement that has been violated, discuss a method for correction, and set a time for correcting the violated requirement.

(b) The penalties of suspension or revocation of permit, and/or court action, are provided to prevent continued violation of the provisions of this chapter but are worded to protect the dairy industry against unreasonable or arbitrary action. When a condition is found which constitutes an imminent health hazard, prompt action is necessary to protect the public health; therefore, the department is authorized, in §502.031, to suspend the permit immediately. However, except for such emergencies, no penalty is imposed on the producer or distributor upon the first violation of any of the sanitation requirements listed in §502.071. A producer or distributor found violating any requirement must be notified in writing and given a reasonable time to correct the violations before an official reinspection is made. The requirement of giving written notice shall be deemed to have been satisfied by the handing to the operator or by the posting of an inspection report, as required by this section. After receipt of a notice of violation, but before the allotted time has elapsed, the producer or distributor shall have an opportunity to appeal the sanitarian's interpretation to the department for an extension of the time allowed for correction.

(3) **CERTIFIED INDUSTRY INSPECTION.**—The department may certify industry personnel to carry out cooperatively the provisions of this chapter with respect to the supervision of dairy farms. Reports of all inspections conducted by such personnel to determine compliance with the provisions of this chapter shall be forwarded to the department. All punitive actions and all inspections for the issuance or reinstatement of permits shall be per-

formed by the department. Industry personnel shall be certified annually by the department in accordance with the provisions of appendix B, page 100, recommended milk ordinance, 1965, United States public health service.

(4) **INSPECTION REPORTS.**—A copy of the inspection report shall be filed by the department and retained for at least twelve months. The results shall be entered on appropriate ledger forms. The use of a computer or other information retrieval system may be used. Examples of field inspection forms are included in appendix L, page 168, recommended milk ordinance, 1965, United States public health service.

History.—§2, ch. 67-263; §§14, 35, ch. 69-106.

502.061 The examination of milk and milk products.—

(1) During any consecutive six months, at least four samples of raw milk for pasteurization shall be taken from each producer and four samples of raw milk for pasteurization shall be taken from each milk plant after receipt of the milk by the milk plant and prior to pasteurization. In addition, during any consecutive six months, at least four samples of pasteurized milk and at least four samples of each milk product defined in this chapter shall be taken from every milk plant. Samples of milk and milk products shall be taken while in possession of the producer or distributor at any time prior to final delivery. Samples of milk and milk products from dairy retail stores, food service establishments, grocery stores, and other places where milk and milk products are sold shall be examined periodically as determined by the department; and the results of such examination shall be used to determine compliance with §§502.021, 502.041 and 502.101. Proprietors of such establishments shall furnish the department, upon its request, with the names of all distributors from whom milk or milk products are obtained.

(2) Required bacterial counts and cooling temperature checks shall be performed on raw milk for pasteurization. In addition, antibiotic tests on each producer's milk or on commingled raw milk shall be conducted at least four times during any consecutive six months. When commingled milk is tested, all producers shall be represented in the sample. All individual sources of milk shall be tested when test results on the commingled milk are positive. Required bacterial counts, coliform determinations, phosphatase and cooling temperature checks shall be performed on pasteurized milk and milk products.

(3) Whenever two of the last four consecutive bacteria counts, coliform determinations, or cooling temperatures, taken on separate days, exceed the limit of the standard for the milk and/or milk products, the department shall send a written notice thereof to the person concerned. This notice shall be in effect so long as two of the last four consecutive samples exceed the limit of the standard. An additional sample

shall be taken within fourteen days of the sending of such notice, but not before the lapse of three days. Immediate suspension of permit in accordance with §502.031 and/or court action shall be instituted whenever the standard is violated by three of the last five bacteria counts, coliform determinations, or cooling temperatures.

(4) Whenever a phosphatase test is positive, the cause shall be determined. Where the cause is improper pasteurization, it shall be corrected; and any milk or milk product involved shall not be offered for sale.

(5) Samples shall be analyzed at an official or appropriate officially designated laboratory. All sampling procedures and required laboratory examinations shall be in substantial compliance with the twelfth edition of standard methods for the examination of dairy products of the American public health association, and the tenth edition of the official methods of analyses of the association of official agricultural chemists. Such procedures and examinations shall be evaluated in accordance with the methods of evaluating milk laboratories recommended by the United States public health service. Examinations and tests shall be conducted to detect adulterants, including pesticides, as the department may require. Assays of vitamin D milk or milk products shall be made at least annually in a laboratory acceptable to the department.

History.—§2, ch. 67-263; §§14, 35, ch. 69-106.

502.062 Enforcement; administrative procedures.—

(1) **ENFORCEMENT PROCEDURES.**—All violations of bacteria, coliform, and cooling temperature standards shall be followed promptly by inspection to determine and correct the cause. (See appendix E, examples of 3-out-of-5 compliance enforcement procedures. Recommended milk ordinance, 1965, United States public health service.) All violations of bacterial, coliform, and cooling temperature standards shall be followed promptly by inspection to determine and correct the cause.

(2) **LABORATORY TECHNIQUES.**—Procedures for the collection and holding of samples; the selection and preparation of apparatus, media and reagents; and the analytical procedures, incubation, reading, and reporting of results, shall be in substantial compliance with standard methods for the examination of dairy products and the official methods of analyses. The procedures shall be those specified therein for:

- (a) Standard plate count at 32°C.
- (b) Simplified methods for viable counts of raw milk at 32°C.
- (c) Coliform test with solid media at 32°C.
- (d) Disc assay methods for antibiotics.
- (e) Apha or aoac phosphatase tests.

The phosphatase test is an index of the efficiency of the pasteurization process. In the event the laboratory phosphatase test is positive, the cause shall be determined immediately.

When the cause is improper pasteurization, it shall be corrected. When a laboratory phosphatase test is positive, or if any doubt should arise as to the compliance of the equipment, standards or methods outlined in §502.071(3)(e), (p), the department should immediately conduct field phosphatase tests at the plant (appendix G, page 134, recommended milk ordinance, 1965, United States public health service.) The direct microscopic count is useful as a screening test to detect suspicious tanker loads of milk for subsequent official examinations, and to determine the possible presence of abnormal milk.

(3) **SAMPLING PROCEDURES.**—When samples of raw milk for pasteurization are taken at a milk plant prior to pasteurization, they shall be drawn following adequate agitation from randomly selected storage tanks.

(a) When bacterial counts and temperature determinations are made of several samples of the same milk or milk products collected from the same supply or processor, on the same day, these values are averaged arithmetically, and the results recorded as the count or temperature determinations of the milk or the milk product for that day. All counts and temperatures should be recorded on the milk-ledger form phs 1784 (or a similar form) for dairy farms, and form phs 1782 (or a similar form) for milk plants as soon as reported by the laboratory.

(b) The use of a computer or other information retrieval system may be used. (See appendix G, page 135, recommended milk ordinance, 1965, United States public health service, for a reference to antibiotics in milk and the conditions under which a positive phosphatase reaction may be encountered in properly pasteurized milk or cream.)

(c) The industry should be encouraged by the department to achieve day-to-day compliance with the foregoing standards by performing tests on each producer's milk, including platform tests for odors, temperature, and sediment. Bacterial counts should be conducted following laboratory pasteurization as a check for thermophilic organisms. Examinations for the presence of psychrophilic bacteria are also recommended. Periodic screening tests for presence of added water, antibiotics, and pesticide residues should be performed on producer milk. Plants should reject milk of abnormal odor and high temperature as well as milk that is found to be unsatisfactory by the sediment test. Follow-up inspections on the dairy farm should be made by the plant fieldman to determine the cause and to institute corrective measures whenever milk is rejected by the milk plant.

History.—§2, ch. 67-263; §§14, 35, ch. 69-106.

502.071 Standards for milk and milk products.—All grade A raw milk for pasteurization and all grade A pasteurization milk and milk products shall be produced, processed, and pasteurized to conform with the following chemical, bacteriological, and temperature standards,

and the sanitation requirements of this section. No process or manipulation other than pasteurization, processing methods integral therewith, and appropriate refrigeration shall be applied to milk and milk products for the purpose of removing or deactivating microorganisms.

(f) *Milk house or room; cleanliness.*—The floors, walls, ceilings, windows, tables, shelves, cabinets, wash vats, nonproduct contact surfaces of milk containers, utensils, and equipment, and other milk room equipment shall be clean. Only articles directly related to milk room activities shall be permitted in the milk room. The milk room shall be free of trash, animals, and fowl.

(g) *Toilet.*—Every dairy farm shall be provided with one or more toilets, conveniently located and properly constructed, operated, and maintained in a sanitary manner. The waste shall be inaccessible to flies and shall not pollute the soil surface or contaminate any water supply.

(h) *Water supply.*—Water for milk house and milking operations shall be from a supply properly located, protected, and operated, and shall be easily accessible, adequate, and of a safe, sanitary quality.

(i) *Utensils and equipment; construction.*—All multiuse containers, equipment, and utensils used in the handling, storage, or transportation of milk shall be made of smooth, non-absorbent, corrosion-resistant, nontoxic materials, and shall be so constructed as to be easily cleaned and shall be used for no other purpose. Copies of the posted rate schedules for all similar rooms in each establishment shall be filed with the division of hotels and restaurants of the department of business regulation at least five days before such rates are to become effective and shall be kept current. The rates posted in the rooms or apartments must coincide with those on file in the division's office, and no establishment shall charge more than the rates posted in the rooms and filed with the division.

Said advertisement shall also include: the number of apartments or rooms in the establishment at the published rates, the dates during which such rates are in effect and an indication as to whether there are other rates in effect in said establishment. The said rate shall in each instance coincide with the rates posted in such rooms of the establishment and with those filed for these rooms with the division of hotels and restaurants as required by subsection (1). With regard to the advertisements referred to in this paragraph the type size of the required additional information shall be at least one-twelfth of the size of the rate figures advertised or equal to the type size used in the body of the advertisement, whichever is larger.

In addition to the

509.211 Safety regulations.—

(1) Every public lodging or public food service establishment shall have signs displayed in all hallways indicating all fire escapes, stairways and exits.

(2) Whenever it shall be proposed to erect a building three stories or more in height intended for use as a public lodging establishment in this state, the owner, contractor or builder of such establishment shall construct said establishment so that one main hall, on each floor above the ground floor, shall extend to the outside wall at each end; or such main hall may turn at either or both ends, provided the distance from the main hall to the outside of the building, at any point, is no more than the depth of the room facing the outside of the building, and provided further that the hall so turned shall extend to an exterior wall in which a door or window must be provided; provided, further, however, that the division of hotels and restaurants, upon recommendation of the supervising architect, may waive the requirement of halls running to the exterior wall of the building in those instances where such construction provides two means of exit from all areas on the floor; and provided that, in two-story construction of individual units not exceeding five-room count in a multiple unit building, it may be permitted to have one means of ascent or descent to the level of egress provided two-hour fire rated partitions and floor construction is employed within the unit and the unit is separated from all other units by four-hour fire rated floor, walls and ceiling. No heating, cooking or electrical distribution equipment shall be permitted in the space directly under the stairs.

(3) No building of four or more stories in height shall be constructed for or converted for use as a public lodging establishment unless it be of noncombustible material or fireproof construction. This provision shall not apply to buildings now being used for such purposes.

(4)(a) Before the erection or remodeling is begun of any building for use as a public lodging or public food service establishment or any building located on the premises of such an establishment which may be used by guests of the establishment, the registered architect's plans or registered engineer's plans, with de-

tailed specifications, shall be approved by the supervising architect or engineer of the division of hotels and restaurants. All plans, specifications and drawings submitted for the purpose of securing building permits from any state, county or municipal building inspector, or other officer having like jurisdiction, shall bear the signature and seal of the architect or engineer and supervising architect or engineer of the division before said building permit is issued.

(b) When such plans and specifications are submitted to the supervising architect or engineer of the division for approval, they shall be accompanied by a remittance of an amount equal to the license fee prescribed for an establishment of such size as provided in this chapter, except that permit fees for remodeling not affecting the room count or seating capacity shall be as set forth below, based on the cost of construction:

Cost of Work	Lodging Establishment	Food Service Establishment
	Total Fees	Total Fees
\$ 2,000 or less	\$ 8.00	\$12.00
5,000 or less	12.00	16.00
10,000 or less	20.00	20.00
20,000 or less	26.00	26.00
Over \$20,000	36.00	36.00

In the event the remodeling also includes additional room count or seating capacity, then, in either of such events, the permit fee payable to the division for such alterations shall be based on the above enumerated fees or upon the fee determined by the additional room count or seating capacity, whichever is the higher fee.

(c) New construction or remodeling costing ten thousand dollars or less need not be accompanied by plans of a registered architect or engineer but scaled drawings shall be submitted to the division's architect or engineer for approval, as a condition precedent to securing a building permit.

(d) Premises shall be defined as that establishment which is licensed by the division as defined in this chapter.

(5)(a) Within sixty days after receipt of notice from the division every public lodging establishment or public food service establishment in this state consisting of two stories in height must provide at least two means of exit, which shall consist of either fire escapes or stairways accessible to all occupants of the second floor which shall extend from the second floor to the ground or ground floor.

(b) Within sixty days after receipt of notice from the division, every public lodging establishment or public food service establishment in the state consisting of more than two stories in height, shall be equipped with two means of exit, one of which shall be a complete fire escape consisting of iron, steel, concrete or other fireproof material, extending from the uppermost floor to the ground or ground floor and connecting with each floor above the ground

floor by means of landings not less than six feet in length or four feet in width which shall be secured to the stairs not less than two feet in width with steps not less than six inches in tread with not more than a forty-five degree angle, such landing or stairs if constructed on the exterior of the building, to be guarded by an iron, steel, or concrete railing not less than thirty inches in height.

* (c) Where, in the opinion of the supervising architect or engineer of the hotel and restaurant commission it is evident on inspection that strict compliance with the above two paragraphs, (a) and (b), regarding construction of second means of exit of buildings would in no substantial way increase or improve the safety of a building, the supervising architect or engineer shall suggest that the licensee appeal to a board made up of at least two supervising architects or engineers and the commissioner for relief from the provisions of this section.

(d) Egress to all such fire escapes shall at all times be kept free and clear of all obstructions and doors leading to such fire escapes shall be constructed of fire resistant materials, equipped with automatic closing devices and panic bolts and such doors shall only open outward to fire escapes on the exterior of the building.

(e) Fire escapes installed inside any such building shall be constructed of fireproof material including walls, floors, ceiling, windows, casements, stairs, hand railings and doors and all other parts comprising same. All egress to inside fire escapes shall be guarded by doors with an automatic closing device, panic bolts and such doors shall only open toward the descent of the fire escape.

(f) All fire escapes shall be constructed, installed, and placed under the supervision of the division, which shall enact rules and regulations governing the same, which shall be in substantial conformity to the now existing code of national fire underwriters, relating to fire exits.

(g) All inside fire escapes shall be kept artificially lighted day and night by a circuit or means, separate and apart from the circuit or means providing for the general lighting of the said building.

(6) At every opening to a fire escape a red light shall be kept burning at all times and said light shall be connected to a circuit or means of lighting, separate and apart from the circuit or means providing for the general lighting of said building; there shall be posted and maintained in conspicuous places in each hall and in each guest room except in the hall or rooms on the ground floor of such buildings, plainly written notices reading "fire escapes are indicated by red lights."

(7) Every public lodging or food service establishment shall be provided with one fire extinguisher of a style and size approved by the national board of fire underwriters on each floor containing twenty-five hundred square

feet or less of floor area, and one additional fire extinguisher on each floor for each twenty-five hundred square feet or less of additional floor space. Such extinguishers shall be placed in a convenient location in a public hallway outside of the sleeping rooms at or near the head of the stairs and shall always be in a condition for use.

(8) Each bedroom or apartment in each public lodging establishment shall be equipped with a good substantial lock and key on each door opening to the outside or to an adjoining room or apartment, or to a hallway.

(9)(a) The division of hotels and restaurants shall inspect or cause to be inspected by a competent engineer, every elevator used to carry passengers and freight, in public lodging and public food service establishments in this state, and when it is found that elevators are in an unsafe condition, the division shall require that such elevators be put in safe condition. Thereupon the owner, manager or lessee of the building or the party in charge thereof, wherein such elevators may be located, shall immediately repair and put such elevator or elevators in a safe condition.

(b) This section shall not apply to hotels, apartment houses, rooming houses or restaurants which now or hereafter maintain elevator service contracts or elevator public liability insurance; provided such public lodging and public food service establishments shall annually file with the division a copy of an inspection report made under said service contract, or elevator insurance policy.

(10) The plans and specifications of all co-operative and condominium apartments for residential use, irrespective of intended occupancy by the owner of such apartments, shall be submitted to the supervising architect of the division for approval prior to the permit for such construction being issued by any governmental authority, and said apartments shall be constructed in accordance with the requirements of public lodging establishments within the jurisdiction of the division under this chapter and the rules and regulations promulgated thereunder. The regular construction permit fees shall be paid the division for approval of such plans by the supervising architect and for inspection during construction; provided, however, such apartments shall not be required to be licensed under this chapter so long as the owners of such apartments actually occupy them or none of the apartments are rented to tenants or guests.

(11)(a) It shall be unlawful for any person to use within any public lodging or food service establishment as defined by §509.241 (1) and (2), any fuel-burning wick-type equipment for space heating unless such equipment is constructed in such a manner that it can be and, in fact, is vented so as to prevent the accumulation of toxic or injurious gases or liquids.

(b) Any person violating the provisions of

paragraph (a) shall be guilty of a misdemeanor or and upon conviction shall be punished by a fine not to exceed \$500.00 or 6 months' imprisonment, or both.

(c) The division of hotels and restaurants is hereby granted authority to remove instantaneously any such heater or stove in violation of paragraph (a) hereof from any public lodging or food service establishment and shall keep any such heater or stove in a safe place to be used as evidence in any criminal case or at any hearing before said division.

(d) If any owner, manager or assistant manager, desk clerk or other person in charge of or employed by a public lodging or food service establishment violates the provisions of paragraph (a) hereof or permits anyone else to violate the provisions of said paragraph, then the division is authorized to revoke or suspend the license of such public lodging or food service establishment according to the procedure set forth in §509.261.

(b) The following are exempted from the provisions of paragraph (a) hereof:

1. All individually or collectively owned one, two, or three family dwelling houses or dwelling units and all of such houses or units which are not operated as a group, unless they are regularly rented to transients or held out to, or advertised to the public as places regularly rented to transients. The division may refuse a license, or a renewal thereof, to any establishment that is not constructed and maintained in accordance with the law and rules and regulations of the division. Licenses shall be renewed annually, and the division shall adopt an appropriate regulation establishing a staggered schedule for license renewals which will avoid the necessity of all licenses being renewed on the same day of the year. 516.05 Issuance of license; denial; review; etc.—

(1) **INVESTIGATION OF APPLICATION.**—Upon the filing of such application and the payment of such fees, the department shall make an investigation of the facts concerning the application and the requirements provided for in subsection (2) of this section. At least ten days before entering the order granting or denying the application, it shall mail a

notice of the receipt of the application to the local small loan exchange (if there be one) in the community where the applicant proposes to do business. If any licensee or registrant files an objection to the issuance of the license to said applicant, or if the department has any doubts of the applicant meeting the standards of subsection (2), it shall set a date and time for a hearing on such application not less than forty days nor more than sixty days from the date of mailing such notice. In addition to such hearing, the department may make such further and other investigation relative to the application and the requirements as it may deem fit.

(2) ISSUANCE OR DENIAL OF LICENSE.

—If the department shall find:

(a) That the financial responsibility, experience, character, and general fitness of the applicant, and of the members thereof, if the applicant is a copartnership or association, and of the officers and directors thereof if the applicant be a corporation, are such as to command the confidence of the public and to warrant belief that the business will be operated lawfully, honestly, fairly and efficiently within the purposes of this chapter; and

(b) That allowing such applicant to engage in the business will promote the convenience and advantage of the community in which the business of the applicant is to be conducted, (in making such determination the department shall take into consideration the services rendered borrowers of the said community by the registrants, if any, under chapter 519 as well as licensees, if any, under this chapter in said community); and

(c) That the applicant has available for the operation of such business at the specified location liquid assets of at least ten thousand dollars, if the specified location is in a community of twenty-five thousand or less population, according to the last United States census, or twenty-five thousand dollars, if the specified location is in a community of more than twenty-five thousand population, according to said census, it shall thereupon file its findings of fact in its office and enter an order granting such application and issue and deliver a license to the applicant to make loans in accordance with the provisions of this chapter at the location specified in the said application (provided that nothing in this chapter shall be construed to prevent a licensee from lending to residents of any part of this state or any other state or country nor to prohibit the making of loans by mail when authorized by the department). Said license shall remain in full force and effect until surrendered by the licensee or revoked or suspended as provided by law or as may be prohibited by the provisions of this chapter. If the department shall not so find, it shall thereupon enter an order denying such application and notify the applicant of the denial and return the sum paid as a license fee,

retaining the one hundred dollars investigation fee to cover the cost of investigating the application. The department shall approve or deny every application for license hereunder within ninety days from the filing thereof with the said fees.

(3) EXISTING LICENSES; PURCHASE OF ASSETS.—Any licensee having a license under this chapter at the effective date of this amendment shall be conclusively presumed to have established the convenience and advantage of its business to the community wherein it is licensed. In the event any person shall purchase substantially all of the assets of any existing licensed office, the purchaser, if not a licensee hereunder, upon application, shall be granted a ninety-day temporary license hereunder, applicable to the same location, within ten days of such purchase, and the department shall cause an investigation to be made as provided by subsection (1) to determine whether a license shall be issued, provided such purchaser shall not be required to meet the provisions of subsection (2) (b) of this section. Where the purchaser is a licensee hereunder the department shall issue a license within ten days of such purchase if the purchaser meets the requirements of this chapter provided that such purchaser shall not be required to meet the requirements of subsection (2) (b) of this section and the licensee selling such assets shall surrender its license for such location to the department.

(4) RIGHT OF REVIEW.—If the application is denied, the department shall within ten days thereafter file in its office a written record which shall include a transcript of the evidence, the findings with respect thereto, the order and the reasons supporting the denial and forthwith serve upon the applicant a copy thereof. Such order and findings or an order granting an application may be reviewed by appeal to the circuit court.

(5) PUBLIC RECORDS.—All findings of facts and orders filed with the department shall be a public record.

History.—§4, ch. 10177, 1925; CGL 4002; §2, ch. 20728, 1941; §4, ch. 57-201; §§12, 35, ch. 69-106.

516.07 Revocation, reinstatement, surrender, etc., of license; right of review.—

(1) REVOCATION OF LICENSE.—The department may, upon ten days' notice to the licensee stating the contemplated action and in general the grounds therefor, and upon reasonable opportunity to be heard, revoke any license issued hereunder if it shall find that:

(a) The licensee has failed to pay the annual license fee or to comply with any order of the department lawfully made pursuant to and within the authority of this chapter; or that

(b) The licensee either knowingly or without the exercise of due care to prevent the same has violated any provision of this chapter or any regulation lawfully made by the department under and within the authority of this chapter; or that

(c) Any fact or condition existed at the time of the original application for such license which clearly would have warranted the department in refusing originally to issue such license.

(2) **SUSPENSION OF LICENSE.**—If the department shall find that probable cause for revocation of any license exists and that enforcement of this chapter requires immediate suspension of such license pending investigation, it may, upon three days' notice and a hearing, enter an order suspending such license for a period not exceeding thirty days.

(3) **LICENSES AFFECTED BY REVOCATION OR SUSPENSION.**—The department may revoke or suspend only the particular license with respect to which ground for revocation or suspension may occur or exist, or, if it shall find that such grounds for revocation are of general application to all offices or to more than one office operated by such licensee, it shall revoke or suspend all of the licenses issued to said licensee or such licensees as such grounds apply to, as the case may be.

(4) **SURRENDER OF LICENSE.**—Any licensee may surrender any license by delivering it to the department with a written notice that he thereby surrenders it, but such surrender shall not affect his civil or criminal liability for acts committed prior thereto.

(5) **PREEXISTING CONTRACTS.**—No revocation, suspension, or surrender of any license shall impair or affect the obligation of any preexisting lawful contract between the licensee and any borrower.

(6) **REINSTATEMENT OF LICENSE.**—Every license issued hereunder shall remain in force and effect until the same shall have been surrendered, revoked or suspended in accordance with the provisions of this chapter, but the department shall have authority on its own initiative to reinstate suspended licenses or to issue new licenses to a person whose license or licenses have been revoked if no fact or condition then exists which clearly would have warranted the department in refusing originally to issue such license under this chapter.

(7) **RIGHT OF REVIEW.**—Whenever the department shall revoke or suspend a license issued pursuant to this chapter, it shall forthwith enter an order to that effect and file in its office a written record which shall include a transcript of the evidence, the findings with respect thereto, the order, and the reasons supporting the revocation or suspension, and forthwith serve upon the licensee a copy thereof, which order may be reviewed as provided by law.

History.—§7, ch. 10177, 1925; CGL 4005.

516.09 License, removal, other business.—

(1) **PLACE OF BUSINESS.**—Not more than one place of business for the making of

loans under this chapter shall be maintained under the same license, but the department shall issue additional licenses to the same licensee upon compliance with all the provisions of this chapter governing issuance of a single license.

(2) **REMOVAL.**—No change in the place of business of a licensee to a location outside of the original city or town shall be permitted under the same license. When a licensee wishes to change his place of business within the same city or town, he shall give written notice thereof to the department which shall investigate the facts, and if it shall find that the proposed location is reasonably accessible to borrowers under existing loan contracts, it shall enter an order permitting the change and shall file its findings in its office and amend the license accordingly. If the department shall not so find, it shall file its findings and shall enter an order denying the removal of the license to the requested location.

(3) **OTHER BUSINESS IN THE SAME OFFICE.**—A licensee may conduct the business of making loans under this chapter within a place of business in which other business is solicited or engaged in, unless the department shall find, after a hearing, and based on written findings of fact, that the conduct of such other business by the licensee results in an evasion of this chapter. Upon such finding, the department shall order the licensee, in writing, to desist from such evasion, provided, however, that no license shall be granted to or renewed for any person or organization engaged in the pawnbroker business.

516.11 Investigation by department.—

(1) **EXAMINATIONS.**—For the purpose of discovering violations of this chapter or securing information lawfully required by it hereunder, the department may at any time investigate the loans and business and examine the books, accounts, records, and files used therein, of every licensee and of every person who shall be engaged in the business described in §516.02. If the department shall have reason to believe that any act or business is being done, or is about to be done, which is illegal under this chapter, it may make all examinations and take all steps authorized under this subsection, whether such person shall act or claim to act as principal or agent, or under or without the authority of this chapter. Any person who shall advertise for, solicit, or hold himself out as willing to make loan transactions in the amount or of the value of six hundred dollars or less, whether as principal, agent, broker, or otherwise shall, for the purposes of this subsection, be presumed to be engaged in such business. For the purposes of this section the department and its duly designated representatives shall have and be given free access to the offices and places of business, books, accounts, papers, records, files, safes

and vaults, of all such persons. The department and all persons duly designated by it shall have authority to require the attendance of witnesses and to examine under oath all persons whomsoever whose testimony it may require relative to such loans or such business or to the subject matter of any examinations, investigation or hearing.

(2) **ANNUAL EXAMINATION.**—At least twice each year, but no oftener than is reasonably necessary in order to verify reasonably founded suspicions of violations, the department or its duly authorized representatives shall make an examination of the place of business of each licensee and of the loans, transactions, books, papers and records of such licensee in so far as they pertain to the business licensed under this chapter. Every licensee shall pay to the department an examination fee based upon the amount of outstanding loans due the licensee at the time of said examination, as follows:

Amount Outstanding	Examination Fee
From \$0 to \$25,000.00	\$ 30.00
From \$25,000.01 to \$50,000.00	40.00
From \$50,000.01 to \$100,000.00	60.00
From \$100,000.01 to \$250,000.00	75.00
From \$250,000.01 and over	100.00

(3) **LIEN FOR FEES.**—The above examination fees shall be secured by a lien upon the assets of the licensee and if not paid within thirty days from and after the licensee is billed therefor by the department, the license of the licensee shall stand suspended until said examination fee is paid in full.

History.—§10, ch. 10177, 1925; CGL 4008; §4, ch. 20728, 1941; §6, ch. 57-201; §12, 35, ch. 69-106.

516.12 Records to be kept by licensee.—

(1) **BOOKS AND RECORDS.**—The licensee shall keep and use in his business such books, accounts, and records in accordance with sound and accepted accounting practices, to enable the department to determine whether such licensee is complying with the provisions of this chapter and with the rules and regulations lawfully made by the department hereunder. Every licensee shall preserve such books, accounts and records, including cards used in the card system, if any, for at least two years after making the final entry on any loan recorded therein.

(2) **ANNUAL REPORTS.**—Each licensee shall annually on or before the first day of April file a report with the department for the preceding calendar year. Such report shall give information with respect to the financial condition of such licensee and shall include the name and address of the licensee; balance sheets at the beginning and end of the accounting period; a statement of income and expense for said period; a schedule of assets used and useful in the small loan business; an analysis of charges, size of loans and types of security on loans of six hundred dollars or less; an analysis of delinquent accounts; an analysis of suits, repossessions and sales of chattels and

such other relevant information as the department may reasonably require concerning the business and operations during the preceding calendar year of each licensed place of business conducted by such licensee within the state. Such report shall be made under oath and shall be in the form prescribed by the department, which shall make and publish annually an analysis and recapitulation of such reports.

516.13 False publications prohibited.—No licensee subject to this chapter shall advertise, display, distribute, broadcast or televise, or cause or permit to be advertised, displayed, distributed, broadcast or televised, in any manner whatsoever, any false, misleading or deceptive statement concerning the business authorized under this chapter.

History.—§12, ch. 10177, 1925; CGL 4010; §8, ch. 57-201.

516.14 Interest rates.—

(1) Every licensee may lend any sum of money not exceeding six hundred dollars on such security, if any, satisfactory to both the borrower and the licensee and may charge, contract for and receive thereon interest at a rate not to exceed three per cent per month on that part of the unpaid principal balance not exceeding three hundred dollars and two per cent per month on that part of the unpaid balance in excess of three hundred dollars but not exceeding six hundred dollars, provided that at the expiration of a period of twelve months following the last contractual installment date the interest on any balance still unpaid shall not exceed ten per cent per year. Interest shall not be payable in advance or compounded and shall be computed on unpaid balances on the basis of the number of days actually elapsed and, for the purpose of such computations, a month shall be any period of thirty consecutive days. If part or all of the consideration for a loan contract is the unpaid principal balance of a prior loan, then the principal amount payable under such loan contract may include any unpaid charges which have accrued within two months on the prior loan and, for the purposes of this chapter, such loan contract shall be deemed a new and separate loan transaction. In addition to the interest herein provided for, no further or other charges or amount whatsoever for any examination, service, brokerage, commission or other thing or otherwise shall be directly or indirectly charged, contracted for or received, except the documentary excise tax and lawful fees, if any, actually and necessarily paid out by the licensee to any public officer for filing or recording or releasing in any public office, any instrument securing the loan, which fees may be collected when the loan is made or at any time thereafter, or actual and reasonable attorney fees as determined by the court in which suit is filed and court costs, including

actual and reasonable expenses of repossession, storing and selling of any property pledged as security, as determined by the court in which suit is filed. If interest or charges in excess of those permitted by this chapter shall be charged, contracted for or received, except as the result of a bona fide or accidental error, the contract or loan shall be void and the licensee shall have no right to collect or receive any principal, interest or charges whatsoever. In the event of an accidental or bona fide error, the licensee shall refund or credit the borrower with the amount of such overcharge within five days of the discovery of such error.

(2) No licensee shall induce or permit any borrower to split up or divide any loan. No licensee shall induce or permit any person, nor any husband and wife, jointly or severally, to become obligated to him, directly or contingently or both, under more than one contract of loan at the same time, for the purpose or with the result of obtaining a higher rate of interest than would otherwise be permitted by this section.

(3) No licensee shall directly or indirectly charge, contract for or receive any interest or consideration greater than ten per cent per annum upon the loan, use or forbearance of money, goods, or things in action or upon the loan, use or sale of credit, of the amount or value of more than six hundred dollars. The foregoing prohibition shall also apply to any licensee who permits any person, as borrower, or as endorser, guarantor, or surety for any borrower, or otherwise, to owe directly or contingently or both to the licensee at any time the sum of more than six hundred dollars for principal.

(1) Deliver to the borrower at the time a loan is made a statement in the English language showing in clear and distinct terms the amount and date of the loan and of its maturity, the nature of the security, if any, for the loan, the name and address of the borrower and of the licensee, and the rate of interest charged. Upon such statement there shall be printed in English a copy of §516.14;

(2) Give to the borrower a plain and complete receipt for all payments made on account of any loan at the time payments are made;

(3) Permit payment of the loan in whole or in part prior to its maturity with interest on such payment to the date thereof;

(4) Upon repayment of the loan in full mark indelibly every paper signed by the borrower with the word "Paid" or "Cancelled" and release any mortgage, restore any pledge, cancel and return any note, and cancel and return any assignment given by the borrower as security.

History.—§14, ch. 10177, 1925; CGL 4012.

516.16 Confession of judgment; power of attorney; contents of notes and security.—No licensee shall take any confession of judgment or any power of attorney. Nor shall he take any note, promise to pay or security that does not state the actual amount of the loan, the time for which it is made, and the rate of interest charged, nor any instrument in which blanks are left to be filled after execution.

History.—§15, ch. 10177, 1925; CGL 4013.

516.17 Assignment of wages, etc., given to secure loans.—No assignment of or order for the payment of any salary, wages, commissions or other compensation for services, earned or to be earned, given to secure any such loans shall be valid unless the amount of such loan is paid to the borrower simultaneously with its execution; nor shall any assignment or order, or any chattel mortgage or other lien on household furniture then in the possession and use of the borrower be valid unless it be in writing signed in person by the borrower; or, if the borrower is married, unless it be signed in person by both husband and wife; provided, that written assent of a spouse shall not be required when husband and wife have been living separate and apart for a period of at least five months prior to such assignment, order, mortgage or lien.

516.18 Rate of interest or consideration.—

(1) No person engaged in the business of making loans of money, except as authorized by this chapter, shall directly or indirectly charge, contract for or receive any interest or consideration greater than ten per cent per annum upon the loan, use or forbearance of money, goods or things in action, or upon the loan, or use of credit, of the amount or value of six hundred dollars or less.

(2) The foregoing prohibition shall apply to any lender who, as security for any such loan, use or forbearance of money, goods or things in action, or for any such loan or use of credit, makes a pretended purchase of property from any person and permits the owner or pledgor to retain the possession thereof, or who by any device or pretense of charging for services or otherwise seeks to obtain a greater compensation than is authorized by this chapter.

(3) No loan for which a greater rate of interest or charge than is allowed by this chapter that has been contracted for or received, wherever made, shall be enforced in this state, and every person in anywise participating therein in this state shall be subject to the provisions of this chapter.

cf.—Ch. 687, Interest and usury.

516.19 Penalty for violations.—Any person who shall violate any of the provisions of §§516.02, 516.09, 516.13, 516.14 or 516.18 shall be guilty of a misdemeanor and upon conviction

thereof shall be punished by a fine of not more than five hundred dollars or by imprisonment for not more than six months.

History.—§18, ch. 10177, 1925; CGL 7880. cf.—§775.06, Alternative punishment.

516.20 Interest defined.—

(1) Any profit or advantage of any kind whatsoever that any licensee may contract for, collect, receive or in anywise obtain by a collateral sale, purchase, or agreement, in connection with any loan of six hundred dollars or less, shall be deemed to be interest or consideration for the purposes of regulation under this chapter. Such transactions shall be governed by and subject to the provisions of this chapter, except commissions received as a person licensed by the department of insurance on insurance written as hereinafter permitted, shall be deemed to be interest or consideration for the purposes of regulation under this chapter. However, security consisting of tangible property offered as security may be reasonably insured against loss for a reasonable term, considering the circumstances of the loan, and such insurance shall not be deemed such collateral sale, purchase, or agreement when the policy is payable to the borrower or any member of his family, even though the customary mortgagee clause is attached or the licensee is a coassured; provided, that such insurance is sold at standard rates through a person duly licensed by the department of insurance.

(2) No licensee shall enter into any contract for a loan for a period of longer than twenty-four months from the date the loan is made.

History.—§7, ch. 20728, 1941; §11, ch. 57-201; §§13, 35, ch. 69-106.

516.21 Restriction of borrower's indebtedness.—No licensee shall directly or indirectly charge, contract for, or receive any interest, discount, or consideration greater than ten per cent per annum upon any loan, or upon any part or all of any aggregate indebtedness of the same borrower, of the amount of more than six hundred dollars. The foregoing prohibition shall also apply to any licensee who permits any person, as borrower or as endorser, guarantor, or surety for any borrower, or otherwise, or any husband and wife jointly or severally, to owe directly or contingently or both to the licensee at any time a sum of more than six hundred dollars for principal; provided, however, that if the proceeds of any loan of six hundred dollars or less are used to discharge a pre-existing debt of the borrower for goods or services owed directly to the person who provided such goods or services, the licensee may accept from such person a guaranty of payment of the principal of such loan with interest at a rate not exceeding ten per cent per annum and the acceptance of one or more such guaranties in any aggregate amount shall not affect the rights of such licensee to make the charges against the primary borrower authorized by

§516.14, nor shall the limitation apply to the isolated acquisition directly or indirectly by purchase or by discount of bona fide obligations of a borrower. Provided, however, in the event a licensee shall make a bona fide purchase of substantially all of the loans, made under this chapter, from another licensee, or other lender not affiliated with the purchaser and such licensee or other lender shall have an existing loan outstanding to one or more of the borrowers whose loans are purchased, such licensee making such purchase shall be entitled to liquidate and collect the balances due on such loans, including all lawful charges and interest at the rates or amounts agreed upon in such loan contracts.

In any court or proceeding such copy shall be prima facie evidence of the fact of the issuance of such license, regulation or order.

516.25 Proceeding for review.—In addition to any other remedy he may have, any licensee and any person considering himself aggrieved by any action of the department hereunder may, within the time provided by the Florida appellate rules from the entry of the order complained of, or within sixty days of the action complained of if there is no order, bring an action in the circuit court of the county in which the licensed place of business is located to review such action. In such action the proceedings shall be, in all respects, *de novo*. In such action the record, transcript, evidence, findings, and order of the department shall be admissible as evidence.

Each such transaction shall be governed by and subject in all respects to all provisions of law relating to loans, interest, charges, usury, and to the same extent as if it had been in form a loan of the sum paid for the assignment.

History.—§1, ch. 20209, 1941; §14, ch. 57-201.

516.27 Pre-existing contracts.—This chapter or any part thereof may be modified, amended, or repealed so as to effect a cancellation or alteration of any license or right of a licensee hereunder, provided that such cancellation or alteration shall not impair or affect the obligation of any pre-existing lawful contract between any licensee and any obligor, provided further, that nothing contained herein shall be construed so as to impair or affect the obligation of any contract of loan which was lawfully entered into prior to the effective date of this law.

History.—§15, ch. 57-201.

Upon such registration, such securities may be sold in this state by any registered dealer; subject however, to the further order of the department as hereinafter provided.

(e) If, at any time in the opinion of the department, the information contained in the statement or circular filed is or has become misleading, incorrect, inadequate or incomplete, or the sale or offering for sale of the security may work or tend to work a fraud, the department may require from the person filing such statement or the issuer such further information as may in its judgment be necessary to establish the classification of such security as claimed in said statement or to enable the department to ascertain whether the registration of such security should be revoked on any ground specified in §517.11, and the department may also suspend the right to sell such security pending further investigation by entering an order specifying the grounds for such action, and by notifying by mail, or personally, or by telephone confirmed in writing, or by telegraph, the person filing such statement. of suspension the department shall upon request give a prompt hearing to the parties interested. Until the entry of such final order the suspension of the right to sell, though binding upon the persons notified thereof, shall be deemed confidential, and shall not be published, unless it shall appear that the order of suspension has been violated after notice. Appeals from such final order may be taken as hereinafter provided. If, however, upon such hearing the department shall find that the security is entitled to registration under this section, and that its sale will neither be fraudulent nor result in fraud, they shall forthwith enter an order revoking such order of suspension and such security shall be restored to its status as a security registered under this section as of the date of such order of suspension.

(g) At the time of filing the statement, as prescribed in this section, the applicant shall pay to the department a fee of one-twentieth of one per cent of the aggregate sales price of the securities to be sold in this state for which the applicant is seeking registration, but in no case shall such fee be less than twenty dollars.

(7) If upon examination of any application the department shall find that the sale of the security referred to therein would not be fraudulent and would not work or tend to work a fraud upon the purchaser, and that the terms of sale of such securities would be fair, just and equitable, and that the enterprise or business of the issuer is not based upon unsound business principles, it shall record the registration of such security in the register of securities, and thereupon such security so registered may be sold by the issuer or by any registered dealer, subject, however, to the further order of the department.

Upon such registration, such securities may be sold in this state by any registered dealer at a price or prices reasonably related to the current market price of such security at the time of sale; subject however, to any and all rights and authority granted the department and to any person or purchaser under this chapter, in respect to securities registered in the department by notification or qualification. Such registration shall cease upon the termination of the employment of such salesmen by such dealer.

(6) The names and addresses of all persons approved for registration as dealers or salesmen and all orders with respect thereto shall be recorded in a register of dealers and salesmen kept in the department which shall be open to public inspection. Every registration under this section shall expire on the 31st day of December in each year, but new registrations for the succeeding year shall be issued upon written application and upon payment of the fee as hereinafter provided, without filing of further statements or furnishing any further information, unless specifically required by the department. Upon appearance, if the witness shall fail to purge himself of such failure, refusal or conduct, the judge shall proceed further as in cases of contempt of court; and said witness shall pay the costs of said attachment.

(4) Witnesses shall be entitled to the same fees and mileage as they may be entitled to by law for attending as witnesses in the circuit court, except where such examination, investi-

(5) The fees of witnesses and officers shall be paid by the department upon presentation of vouchers approved by the examiner or representative; and compensation of the examiner shall be paid by the department.

The company shall file with the federal communications commission, or a public service commission or similar regulatory body having jurisdiction over it, and make public in each year

(e) The mortgage shall secure no indebtedness other than that owing to the executor, administrator, trustee, or guardian taking the same as an investment.

(f) The amount of the indebtedness secured by the mortgage shall not exceed sixty per cent of the fair market value (as determined in accordance with the provisions of paragraph (b) of this subsection) of the property encumbered or to be encumbered by said mortgage.

(g) If the amount of the indebtedness secured by the mortgage is in excess of fifty per cent of the fair market value (as determined in accordance with the provisions of paragraph (b) of this subsection) of the property encumbered or to be encumbered by said mortgage, then the mortgage shall require principal payments, at annual or more frequent intervals, sufficient to reduce by or before the expiration of three years from the date the mortgage is taken as an investment, the unpaid principal balance secured thereby to an amount not in excess of fifty per cent of the fair market value of said property, as determined in accordance with the provisions of paragraph (b) of this subsection.

* (4) The word "comptroller" shall mean the comptroller of the state;

***Note.**—Subsection (4) was rendered obsolete by §12 of ch. 69-106 and will be repealed by a subsequent reviser's bill.

519.02 Declaration of legislative intent.—It is the intent of the legislature in enacting this law to create the business of discount consumer credit financing with respect to the business of making certain loans, and to bring under effective supervision those engaged in the business of discount and installment loans, to establish a system of regulation for the purpose of insuring honest and efficient finance service, to fix reasonable charges for borrowers, to permit a fair return, and to provide the administration necessary for effective enforcement.

History.—§2, ch. 25343, 1949.

519.03 Scope; certain transactions deemed loans; insurance exception.—No person shall engage in the business of making loans which provide an amount of proceeds of six hundred dollars or less, exclusive of interest and initial charges included in the amount of the loan obligation, and contract for, exact, or receive, directly or indirectly, or in connection with any such loan, any charges, whether for interest, compensation, consideration, or expenses, which in the aggregate are greater than the lender would be permitted by law to charge if he were not a registrant hereunder, except as provided in and authorized

by this chapter and without first having obtained a certificate of authority from the department. The payment of six hundred dollars or less in money, credit, goods, or things in action as consideration for any sale or assignment of, or order for, the payment of wages, salary, commissions, or other compensation for services, whether earned or to be earned, shall for the purpose of regulation under this chapter be deemed a loan of money secured by such sale, assignment or order. However, the registrant may require reasonable insurance against loss of tangible personal property offered as security for a loan, if obtained at standard rates through a duly licensed insurance agent of this state and the cost of such insurance or any part thereof shall not be deemed a charge or amount prohibited by this chapter nor deemed to be a charge subject to the provisions of §519.06.

History.—§3, ch. 25343, 1949; §10, ch. 26484, 1951; §2, ch. 57-164; §§12, 35, ch. 69-106.

History.—§4, ch. 25343, 1949; §3, ch. 57-164.

519.05 Evasions.—The provisions of this chapter shall apply to any person who seeks to evade its application by any device, subterfuge, or pretense whatsoever.

History.—§5, ch. 25343, 1949.

519.06 Penalty for violation of §519.03.—Any person, and the several members, officers, directors, agents, and employees thereof, who shall violate or participate in the violation of any provisions of §519.03 of this chapter shall

be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than one hundred dollars and not more than one thousand dollars or by imprisonment of not more than six months, or by both such fine and imprisonment in the discretion of the court. Any contract of loan in the making or collection of which any act shall have been done which violates §519.03 of this chapter shall be void and the lender shall have no right to collect, receive, or retain any principal, interest or charges whatsoever.

History.—§6, ch. 25343, 1949.

519.07 Application, fee, investigation; issuance of certificate, etc.—

(1) Application for a certificate of authority to make loans under this chapter shall be in writing, under oath, and in the form prescribed by the department, and shall contain the name, residence and business addresses of the applicant, and if the applicant is a co-partnership or association, of every member thereof, and if a corporation, of each officer and director thereof, also the county and municipality with the approximate location, where the business is to be conducted and such further relevant information as the department may require. At the time of making such application the applicant shall pay to the department the sum of one hundred dollars as a fee for investigating the application and the additional sum of one hundred dollars as a fee for a certificate of authority for a period terminating on the last day of the current calendar year.

(2) All fees herein provided for shall be collected by the department and shall be turned in to the state treasury to the credit of the general revenue fund. The department shall have full power to employ such examiners or clerks to assist the department as may from time to time be deemed necessary and fix their compensation. A sufficient appropriation for carrying out the provisions of this chapter shall be included in the biennial appropriations act.

(3) Upon the filing of such application and the payment of such fees, the department shall make an investigation of the facts concerning the application and the requirements provided for in subsection (4). At least ten days before entering the order granting or denying the application, it shall mail a notice of the receipt of the application to the local small loan exchange in the community where the applicant proposes to do business. If any registrant or licensee files an objection to the issuance of the certificate of authority to said applicant, or if the department has any doubts of the applicant meeting the standards of subsection (4), it shall set a date and time for a hearing on such application not less than forty days nor more than sixty days from the date of mailing such notice. In addition to such hearing, the department may make such further and other investigation relative to the application and the requirements as it may deem fit.

(4) If the department shall find:

(a) That the financial responsibility, experience, character, and general fitness of the applicant, and of the members thereof, if the applicant be a copartnership or association, and of the officers and directors thereof if the applicant be a corporation, are such as to command the confidence of the public and to warrant belief that the business will be operated lawfully, honestly, fairly and efficiently within the purposes of this chapter; and

(b) That allowing such applicant to engage in the business will promote the convenience and advantage of the community in which the business of the applicant is to be conducted, (in making such determination the department shall take into consideration the services rendered borrowers of the said community by the licensees, if any, under chapter 516 as well as registrants, if any, under this chapter in said community); and

(c) That the applicant has available for the operation of such business at the specified location liquid assets of at least ten thousand dollars, if the specified location is in a community of twenty-five thousand or less population, according to the last United States census or twenty-five thousand dollars, if the specified location is in a community of more than twenty-five thousand population, according to said census;

It shall thereupon file its findings of fact in its office and enter an order granting such application and issue and deliver a certificate of authority to the applicant to make loans in accordance with the provisions of this chapter at the location specified in the said application (provided that nothing in this chapter shall be construed to prevent a registrant from lending to residents of any part of this state or any other state or country, nor to prohibit the making of loans by mail when authorized by the department). Said certificate of authority shall remain in full force and effect until surrendered by the registrant or revoked or suspended as provided by law, or as may be prohibited by the provisions of this chapter. If the department shall not so find, it shall thereupon enter an order denying such application and notify the applicant of the denial and return the sum paid as a fee for the certificate of authority, retaining the one hundred dollars investigation fee to cover the cost of investigating the application. The department shall approve or deny every application for license hereunto within ninety days from the filing thereof with the said fees.

(5) If such applicant is presently holding a license under the provisions of chapter 516 at the address for which application is now being made, it will not be necessary for such applicant to establish the convenience and advantage to the community for a license to be issued, assuming the other requirements of this chapter are met, if the license under chapter 516 is to

be surrendered at the time the license under this chapter is issued.

(6) Any registrant having a certificate of authority under this chapter at the effective date of this amendment shall be conclusively presumed to have established the convenience and advantage of its business to the community wherein it has a certificate of authority. In the event any person shall purchase substantially all of the assets of any existing registrant's office and the registrant selling such assets surrenders its certificate of authority for such office to the department, the department shall:

(a) Upon application, grant to any purchaser, not a registrant hereunder, a ninety-day temporary certificate of authority applicable to the same location within ten days from the date of such application, thereupon the department shall cause an investigation to be made as provided by subsection (1) to determine whether a permanent certificate of authority shall be issued provided, however, the purchaser shall not be required to meet the provisions of subsection (4) (b);

(b) Upon application, grant a certificate of authority to any purchaser, which is a registrant hereunder, within ten days of such application, provided the purchaser shall meet the requirements of this chapter except such purchaser shall not be required to meet the provisions of subsection (4) (b) of this section.

(7) If the application is denied, the department shall within ten days thereafter file in its office a written record which shall include a transcript of the evidence, the findings with respect thereto, the order and the reasons supporting the denial and forthwith serve upon the applicant a copy thereof. Such order and findings or an order granting an application may be reviewed as provided by law.

(8) All findings of facts and orders filed with the department shall be a public record.

(9) Not more than one place of business for the making of loans under this chapter shall be maintained under the same certificate of authority, but the department shall issue additional certificates of authority to the same registrant upon compliance with all the provisions of this chapter governing issuance of a single certificate of authority.

(10) No change in the place of business of any registrant shall be permitted unless he give written notice to the department and if the department shall find the proposed location is reasonably accessible to the borrowers under existing contracts it shall permit the change of location within the original community for which the certificate was issued.

(11) A registrant may conduct the business of making loans under this chapter within a place of business in which other business is solicited or engaged in, unless the department shall find, after a hearing, and based on written findings of fact, that the conduct of such other business by the registrant results in an

evasion of this chapter. Upon such finding, the department shall order the registrant, in writing, to desist from such evasion, provided, however, that no certificate of authority shall be granted to or renewed for any person or organization engaged in the pawnbroker business.

History.—§7, ch. 25343, 1949; §4, ch. 57-164; §§12, 35, ch. 69-106.

519.08 Maximum charge.—Every registrant hereunder, notwithstanding anything contained in the usury law, may, if agreed upon in writing, contract for, collect or receive on loan obligations made on such security, if any, satisfactory to both the borrower and registrant in which the proceeds, exclusive of interest and the initial charges, is in the amount of six hundred dollars or less, if repayable in substantially equal monthly or other periodic installments, charges not in excess of the following:

(1) An initial charge in an amount not exceeding ten dollars per one hundred dollars of the amount of the loan, repayable over a period of one year, and proportionately at that rate for a greater or lesser sum or for a longer or shorter period, which charge may be computed on the amount of the loan from date thereof until date of maturity of the final installment notwithstanding any agreement to pay the loan obligation in installments, such charge to be added to the amount of the loan at the time it is made, and two dollars on each ten dollars of this charge shall constitute, in whole or in part, reimbursement of expenses incurred and compensation for services rendered in connection with the making of the loan and the remainder of the initial charge shall be interest; provided, however, that when the balance of any loan is repaid before maturity, whether by payment in cash, new loan, renewal, or otherwise, the unearned part of the interest for the period following the next scheduled payment date, shall be returned or credited to the borrower. The amount of the refund shall represent at least as great a proportion of the total interest as the sum of the periodical time balances after the date of prepayment bears to the sum of all the periodical time balances under the schedule of payments in the original contract, provided, further, however, if the loan is repaid within ninety days from the date of making, then such refund shall be computed on the full amount of the initial charges.

(2) A monthly service charge, to cover services rendered and expenses incurred in connection with the loan transaction, may be contracted for and collected until the loan is fully paid for each month, and the fraction of a month at the end of the loan, provided such charge shall not be in excess of twenty cents for each full twenty-five dollars of the original loan obligation and not in excess of two dollars and forty cents per month. Such service charge shall not be collected at the time the loan is made, provided, however, the service charge

covering the number of monthly payments required by the loan contract may be aggregated and included in the face amount of the loan obligation. In the event the balance of any loan is repaid before maturity, whether it be payment in cash, a new loan, renewal or otherwise, the amount of the unearned monthly service charges shall be canceled or credited to the borrower.

(3) If payment of all unpaid installments on which no delinquent charges, as provided for in subsection (4), has been charged and collected is deferred one or more full months, the registrant may charge and collect an amount which shall be equal to the difference between the refund that would be required for prepayment in full as of the scheduled due date of the first deferred installment and the amount which will be required for prepayment in full as of one month prior to such date, multiplied by the sum of the number of months in which no scheduled payment has been made and in which no payment is to be required by reason of the deferment. Such charge may be collected at the time of deferment or may be collected at any time thereafter. If a refund of interest is required during a period in which no scheduled payment is required by reason of a deferment, the borrower shall also receive a pro rata refund of the deferment charge, computed to the nearest number of full months.

(4) In addition to the charges and fees herein provided for, no further or other amount whatsoever shall be directly or indirectly charged, contracted for or received, except that a registrant hereunder may, if agreed to in writing, contract for, impose and collect a delinquent charge of five cents per dollar for each full dollar of an installment which is delinquent for five or more days, which charge may be imposed only once on each delinquent installment. However, such restriction shall not apply to the actual fees paid a public official or agency of a state for filing, recording or releasing any instrument securing the loan, or actual and reasonable attorney fees as determined by the court in which suit is filed and court costs including reasonable expenses of repossession, storing, and selling of any property pledged as security as determined by the court in which suit is filed. If any amount in excess of the charge permitted by this chapter is charged, contracted for or received, except as the result of an accidental or bona fide error, the contract of loan shall be void and the registrant shall have no right to collect or receive any principal, charges, or recompense whatsoever. In the event of an accidental or bona fide error, the registrant shall refund or credit the amount to the borrower within five days of the discovery of such error.

(5) No registrant shall permit any person as borrower, endorser, guarantor, or surety for any borrower, or otherwise, or any husband and

wife, jointly or severally, to become obligated, directly or contingently or both, for more than one contract of loan at the same time for the purpose or with the effect of obtaining a higher rate of charge than would otherwise be permitted by this chapter; but such limitation shall not apply to the acquisition by purchase of bona fide obligations of the borrower incurred for goods or services, and provided further, if a registrant purchases all or substantially all the loan contracts of another registrant or licensee under chapter 516 and has at the time of purchase loan contracts with one or more of the borrowers whose loans are purchased, the purchaser shall be entitled to collect principal and charges thereon according to the terms of each loan contract.

History.—§8, ch. 25343, 1949; §5, ch. 57-164.

519.09 Provision against manipulation.—

The department shall have authority to issue a rule, regulation, specific ruling, cease and desist order, suspension, or revocation order to stop any registrant who abuses or proposes to abuse or manipulate the schedule of charges herein permitted contrary to the constructive purposes and standards set forth in this chapter.

History.—§9, ch. 25343, 1949; §12, 35, ch. 69-106.

519.10 Loan contracts; requirements, length of loan; advertising.—

(1) Every registrant shall:

(a) At the time any loan is made, deliver to the borrower, or if there are two or more borrowers to one of them, a statement in the English language disclosing the amount and date of the loan contract or note and a schedule of the installments or description thereof, or a copy of the note in lieu of such statement;

(b) For each cash payment made on account of any such loan, issue to the person making it at the time payment is made a receipt which need show only the total amount of such cash payment, provided the registrant shall not be required to give a receipt for payments made by check or money order, and the use of a coupon book system shall be in compliance herewith;

(c) Permit payment to be made in advance in any amount on any contract of loan at any time, but the registrant may apply such payment first to all accrued charges in full at the agreed rate or schedule up to the date of such payment;

(d) Upon repayment of the loan in full, marked plainly every obligation and security signed by the obligor with the word "paid" or "canceled," and within a period of thirty days, restore any pledge, return any note and any assignment and where a mortgage has been recorded, deliver to the borrower or agent a written release thereof.

(2) No person subject to this chapter shall enter into any loan contract under which any scheduled repayment of principal is due more than twenty-four months from the date of the loan contract. Nothing herein shall prevent a

loan being considered a new loan because the proceeds of the loan are used to pay an existing contract.

(3) No person subject to this chapter shall advertise, display, distribute, broadcast or televise, or cause or permit to be advertised, displayed, distributed, broadcast or televised, in any manner whatsoever, any false, misleading or deceptive statement concerning the business authorized under this chapter.

History.—§10, ch. 25343, 1949; §6, ch. 57-164.

519.11 Wage assignments.—

(1) No assignment of or order for the payment of any salary, wages, commissions or other compensation for services, earned or to be earned, given to secure any such loans shall be valid unless the amount of such loan is paid to the borrower simultaneously with its execution; nor shall any such assignment or order, or any chattel mortgage or other lien on household furniture then in the possession and use of the borrower be valid unless it be in writing, signed in person by the borrower; or, if the borrower is married, unless it be signed in person by both husband and wife; provided that written assent of a spouse shall not be required when husband or wife have been living separate and apart for a period of at least five months prior to such assignment, order, mortgage or lien.

History.—§11, ch. 25343, 1949; am. §1, ch. 28245, 1953.
cf.—§516.17 Assignment of wages, etc., given to secure loans.

519.12 Department to administer and enforce; books; records; reports; investigations, etc.—

(1) Each registrant shall keep and use in his business such books and accounting records, in accordance with sound and accepted accounting practices so as to enable the department to determine whether such registrant is complying with the provisions of this chapter. Each registrant shall maintain a separate ledger card or other separate record for the account of each borrower, which shall set forth separately the amount of cash advanced to or on behalf of the borrower, the total initial charge, and the aggregate amount of monthly service charges when included in the loan obligation. Such record may set forth pre-computed declining balances based on the scheduled payments, without a separation of the initial charge and monthly service charge. In the event the balance of any loan is repaid before maturity, whether by cash, a new loan, renewal or otherwise, the registrant shall show separately on such record the amount of refund or credit of unearned interest and monthly service charges. Each registrant shall preserve such books, accounts and records for at least two years after the making of the final entry on any loan recorded therein.

(2) Each registrant shall file annually during April of each year a report under oath with the department setting forth such relevant information as it reasonably may require

concerning the business and operations during the preceding calendar year for each registered place of business conducted by such registrant within the state. Among other things, such report shall identify the registrant and the registered place of business and set forth a list of all assets used and useful in conducting the business, both tangible and intangible, the gross income and expenses including all taxes for the year, the earnings for the year and the rate thereof in relation to all assets. The income and expenses may be reconciled to the surplus account. The report shall also set forth the number and dollar size of loans made during the year and outstanding at the beginning and end of the year; it shall require a summary of delinquency and seizure of chattels in use by the borrower and court actions shall be given. Such report shall be in the form prescribed by the department which shall make and publish annually an analysis and recapitulation of such reports for the entire state.

(3) At least twice each year, but no oftener than is reasonably necessary in order to verify reasonably founded suspicions of violations, the department or its duly authorized representatives shall make an examination of the place of business of each registrant and of the loans, transactions, books, papers and records of such registrant so far as they pertain to the business licensed under this chapter. Every registrant shall pay to the department an examination fee based on the amount of outstanding loans due the registrant at the date of each examination, as follows:

<i>Outstanding loans</i>	<i>Examination fee</i>
From \$0 to \$25,000.00, a fee of _____	\$ 30.00
From \$25,000.01 to \$50,000.00, a fee of _____	40.00
From \$50,000.01 to \$100,000.00, a fee of _____	60.00
From \$100,000.01 to \$250,000.00, a fee of _____	75.00

For purposes of this section, any person, except those expressly exempted from the provisions of this chapter, who shall advertise for, solicit, or hold himself out as willing to make loan transactions in the amount or of the value of six hundred dollars or less, exclusive of interest and initial charges taken at the time the loan is made, shall be presumed to be engaged in the business described in §519.03.

(5) Whenever the department has reasonable cause to believe that any person is violating or is threatening to or intends to violate any provision of this chapter, it may in addition to all actions provided for in this chapter and without prejudice thereto, after ten days written notice, enter an order requiring such person to desist or to refrain from such violation; and an action may be brought on the relation of the department of legal affairs and the department of banking and finance to enjoin such person from engaging in or continuing such violation or from doing any act or acts in furtherance thereof. (b) The registrant, either knowingly or without the exercise of due care to prevent the same, has violated any provision of this chapter or any regulation or order lawfully made pursuant to and within the authority of this chapter; or that

(c) Any fact or condition exists which if it had existed at the time of the original application clearly would have warranted the department in refusing originally to issue such certificate of authority.

(8) The department shall have the authority to suspend or revoke the license of any registrant found guilty by the department of using unreasonable collection tactics.

The decision of the department shall remain in full force until revised by final judgment of the court, unless the operation of said order shall be suspended pending said appeal upon proper order of the court. On such review, the record, transcript, evidence and findings and order of the department shall be admissible as evidence, and the burden of proof upon a review of the findings of the department shall be upon the party seeking the review. History.—§14, ch. 57-799.

520.02 Definitions.—In this act unless the context or subject matter otherwise requires:

(1) "Motor vehicle" means any device or vehicle, including automobiles, motorcycles, motor trucks, trailers, and all other vehicles operated over the public highways and streets of this state and propelled by power other than muscular power, but does not include traction engines, road rollers, implements of husbandry and other agricultural equipment and such vehicles as run only upon a track.

(2) "Retail buyer" or "buyer" means a person who buys a motor vehicle from a retail seller not principally for the purpose of resale, and who executes a retail installment contract in connection therewith or a person who succeeds to the rights and obligations of such person.

(3) "Retail installment seller" or "seller" means a person engaged in the business of selling motor vehicles to retail buyers in retail installment transactions.

(4) "Retail installment transaction" means any transaction evidenced by a retail installment contract entered into between a retail buyer and a retail seller wherein the retail buyer buys a motor vehicle from the retail seller at a deferred payment price payable in one or more deferred installments.

(5) "Retail installment contract" or "contract" means an agreement, entered into in this state, pursuant to which the title to, or a lien upon the motor vehicle, which is the subject matter of a retail installment transaction, is retained or taken by a retail seller from a retail buyer as security, in whole or in part, for the buyer's obligation. The term includes a conditional sales contract and a contract

for the bailment or leasing of a motor vehicle by which the bailee or lessee contracts to pay as compensation for its use a sum substantially equivalent to or in excess of its value and by which it is agreed that the bailee or lessee is bound to become, or for no further or a merely nominal consideration, has the option of becoming, the owner of the motor vehicle upon full compliance with the provisions of the contract.

(6) "Cash price" means the price stated in a retail installment contract for which the seller would have sold to the buyer, and the buyer would have bought from the seller, the motor vehicle which is the subject matter of the retail installment contract, if such sale had been a sale for cash instead of a retail installment transaction. The cash price shall include any taxes, charges for accessories and their installation and for delivery, servicing, repairing, or improving the motor vehicle.

(7) "Official fees" mean fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of or for perfecting or releasing or satisfying any security related to the credit transaction, or the premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges which would otherwise be payable to public officials.

(8) Except as otherwise provided in this part, "finance charge" shall mean the sum of all charges, payable directly or indirectly by the person to whom the credit is extended, and imposed directly or indirectly by the creditor as an incident to the extension of credit. Charges or premiums for credit life, accident, or health insurance, written in connection with any retail installment transaction shall be included in the finance charge unless the cover-

age of the debtor by the insurance is not a factor in the approval by the creditor of the extension of credit; and, in order to obtain the insurance in connection with the extension of credit, the person to whom the credit is extended gives specific affirmative written indication of his desire to do so after written disclosure to him of the cost thereof. However, if such insurance coverage is a factor in the approval by the seller of the extension of credit, a charge may be made for the insurance which shall be included in the finance charge for the purposes of disclosure and advertising, but shall be excluded from the finance charge for the purpose of determining maximum permitted charges. Charges on premiums for insurance, written in connection with any consumer credit transaction, against loss of or damage to property or against liability arising out of the ownership or use of property, shall be included in the finance charge unless a clear and specific statement in writing is furnished by the creditor to the person to whom the credit is extended, setting forth the cost of the insurance if obtained from or through the creditor and stating that the person to whom the credit is extended may choose the person through which the insurance is to be obtained. If fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of, or for perfecting or releasing or satisfying, any security related to the credit transaction; the premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges described above which would otherwise be payable; taxes; or any other type of charge which is not for credit and the exclusion of which from the finance charge is approved by the department of banking and finance by regulation are itemized and disclosed in connection with any transaction, then the creditor need not include that item in the computation of the finance charge with respect to that transaction.

(9) "Sales finance company" means a person engaged in the business of purchasing retail installment contracts from one or more retail sellers. The term includes but is not limited to a bank, trust company, or industrial bank, if so engaged. The term does not include the pledge of an aggregate number of such contracts to secure a bona fide loan thereon.

(10) The "holder" of a retail installment contract means the retail seller of the motor vehicle under the contract or, if the contract is purchased by a sales finance company or another assignee, the sales finance company or other assignee.

(11) "Person" means an individual, partnership, corporation, association, and any other group however organized.

(12) "Deferred payment price" means the cash price, all other charges, individually

itemized, which are included in the amount financed but which are not part of the finance charge, plus the finance charge.

*(13) ["Department" means the department of banking and finance.]

(14) Words in the singular include the plural and vice versa.

History.—§1, ch. 57-799; §1, ch. 59-456; §1, ch. 61-117; §1, ch. 63-101; §§12, 35, ch. 69-106; §1, ch. 69-370.

***Note.**—In order to conform to the terminology of §12, ch. 69-106, the editors have substituted a definition of "department" for that of "administrator." This change will be enacted by a subsequent reviser's bill.

520.03 Licensing of sales finance companies required.—

(1) No person shall engage in the business of a retail installment seller or of a sales finance company in this state without a license therefor as provided in this act; provided, however, that no bank, trust company or industrial bank authorized to do business in this state shall be required to obtain a license under this act.

(2) The application for such license shall be in writing and in the form prescribed by the department. The application shall contain the name of the applicant; date of incorporation, if incorporated; the address where the business is or is to be conducted and similar information as to any branch office of the applicant; the name and residence address of the owner or partners or, if a corporation or association, of the directors, trustees and principal officers, and such other pertinent information as the department may require.

(3) The license fee for each calendar year or part thereof shall be the sum of twenty-five dollars for the principal place of business of each sales finance company, and the sum of ten dollars for the principal place of business of each retail installment seller of motor vehicles. A separate license fee of like amount shall be paid for each branch of the sales finance company maintained in this state. Fees collected under this section shall be deposited in the state treasury and are hereby appropriated to the department to be used in administering this act.

(4) Each license shall specify the location of the office or branch and must be conspicuously displayed there. In case such location be changed, the department shall endorse the change of location on the license without charge.

(5) Upon the filing of such application, and the payment of said fee, the department shall issue a license to the applicant to engage in the business of a sales finance company or of a retail installment seller under and in accordance with the provisions of this act for a period which shall expire the last day of December next following the date of its issuance. Such license shall not be transferable or assignable. No licensee shall transact any business provided for by this act under any other name. Licenses shall be issued only to persons of good

moral character, or to corporations whose officers are of good moral character.

History.—§2, ch. 57-799; §2, ch. 59-456; §§12, 35, ch. 69-106.

520.04 Denial, suspension or revocation of licenses.—

(1) A license may be denied, suspended or revoked by the department on the following grounds:

(a) Material misstatement in application for license;

(b) Wilful failure to comply with any provision of this act relating to retail installment contracts;

(c) Defrauding any retail buyer to the buyer's damage;

(d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

(2) If a licensee is a firm, association or corporation, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or trustee of a licensed firm, association or corporation, or any member of a licensed partnership, has so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual. Each licensee shall be responsible for the acts of any or all of his employees while acting as his agent, if such licensee after actual knowledge of said acts retained the benefits, proceeds, profits or advantages accruing from said acts or otherwise ratified said acts.

(3) No license shall be denied, suspended or revoked except after hearing thereon. The department shall give the licensee at least ten days' written notice, in the form of an order to show cause, of the time and place of such hearing by registered mail addressed to the principal place of business in this state of such licensee. The said notice shall contain the grounds of complaint against the licensee. Any order denying, suspending or revoking such license shall recite the grounds upon which the same is based. The order shall be entered upon the records of the department and shall not be effective until after thirty days written notice thereof given after such entry forwarded by registered mail to the licensee at such principal place of business. If the licensee fails or refuses to obey the order after such thirty days period has elapsed, the department may file a petition with the circuit court for an injunction to enforce the order. A copy of the department's findings and conclusions of law shall be set forth in such petition. The court hearing such petition shall have the power to issue an appropriate injunction restraining and enjoining such licensee from engaging in the act or acts forbidden by the order of the department. No revocation, suspension or surrender of any license shall impair or affect

the obligation of any lawful retail installment contract acquired previously thereto by the licensee.

(4) Any person aggrieved by any such order of suspension or revocation of a license may apply for a review thereof by petition for certiorari by the circuit court of Leon county within the time and in the manner provided by the Florida appellate rules and the statutes of this state not superseded by or in conflict with said rules.

History.—§3, ch. 57-799; §3, ch. 59-456; §7, ch. 63-512; §§12, 35, ch. 69-106.
cf.—§1.01 defines registered mail to include certified mail with return receipt requested.

520.041 Books, accounts, records, etc.—

(1) Every licensee shall maintain, at the place of business designated in the license certificate, such books, accounts and records of the business conducted under the license issued for such place of business as will enable the department to determine whether the business of the licensee contemplated by this act is being operated in accordance with the provisions of this act.

(2) A licensee, operating two or more licensed places of business in this state, may maintain the general control records of all such offices at any one of such offices, or at any other office maintained by such licensee, upon the filing of a written request with the department designating therein the office at which such control records are maintained.

(3) All books, accounts and records of licensees, including any cards used in a card system, shall be preserved and available for examination by the department for at least two years after making the final entry therein.

(4) The department is hereby authorized and empowered to prescribe the minimum information to be shown in the books, accounts and records of licensees so that such records will enable the department to determine compliance with the provisions of this act.

History.—§4, ch. 59-456; §§12, 35, ch. 69-106.

520.05 Investigations and complaints.—

(1) The department shall, at intermittent periods, make such investigations and examinations of any licensee or other person as it deems necessary to determine compliance with this act. For such purposes, it may examine the books, accounts, records and other documents or matters of any licensee or other person. It shall have the power to compel the production of all relevant books, records and other documents and materials relative to an examination or investigation. Such investigations and examinations shall not be made more often than once during a year unless the department has reason to believe the licensee is not complying with the provisions of this act. The expenses of the department incurred in each such examination of a sales finance company licensed under this act shall be paid by such sales finance company so examined

within thirty days after demand therefor by the department, and shall not exceed thirty-five dollars per day for each eight hour man-day for time actually consumed in making such examination, plus the traveling expense and per diem subsistence allowance provided for state employees in §112.061. Expense thus recovered shall be deposited in the state treasury as a reimbursement to the biennial appropriation for expenses incurred in enforcing this act. The licensee shall not be required to pay a per diem fee and expenses of an examination which shall consume more than thirty man-days in any one year unless such examination or investigation is due to fraudulent practices of the licensee, in which case such licensee shall be required to pay the entire cost regardless of time consumed.

(2) Any retail buyer having reason to believe that this act relating to his retail installment contract has been violated may file with the department a written complaint setting forth the details of such alleged violations and the department upon receipt of such complaint, may inspect the pertinent books, records, letters and contracts of the licensee and of the retail seller involved, relating to such specific written complaint.

History.—§4, ch. 57-799; §5, ch. 59-456; §§12, 35, ch. 69-106.

520.06 Powers of department.—

(1) The department shall have power to issue subpoenas to compel the attendance of witnesses and the production of documents, papers, books, records and other evidence before it in any matter over which it has jurisdiction, control or supervision pertaining to this act. The department shall have the power to administer oaths and affirmations to any person whose testimony is required.

(2) If any person shall refuse to obey any such subpoena, or to give testimony, or to produce evidence as required thereby, any judge of the circuit court may, upon application and proof of such refusal, make an order awarding process of subpoena, or subpoena duces tecum, out of the circuit court, for the witness to appear before the department and to give testimony, and to produce evidence as required thereby. Upon filing such order in the office of the clerk of the circuit court, the clerk shall issue process of subpoena, as directed, under the seal of said court, requiring the person to whom it is directed, to appear at the time and place therein designated.

(3) If any person served with any such subpoena shall refuse to obey the same, and to give testimony, and to produce evidence as required thereby, the department may apply to any judge of the circuit court for an attachment against such person, as for a contempt. The judge, upon satisfactory proof of such refusal, shall issue an attachment, directed to any sheriff, constable or police officer, for the arrest of such person, and upon his being brought before such judge, proceed

to a hearing of the case. The judge shall have power to enforce obedience to such subpoena, and the answering of any question, and the production of any evidence, that may be proper, by a fine, not exceeding \$100.00, or by imprisonment in the county jail, or by both fine and imprisonment, and to compel such witness to pay the costs of such proceeding to be taxed.

(4) The department may issue and promulgate such rules and regulations as it may deem necessary in the administration of this act and not inconsistent with the provisions of this act.

History.—§5, ch. 57-799; §§12, 35, ch. 69-106.

520.07 Requirements and prohibitions as to retail installment contracts.—

(1)(a) A retail installment contract shall be in writing, shall be signed by both the buyer and the seller, and shall be completed as to all essential provisions prior to the signing of the contract by the buyer.

(b) The printed portion of the contract, other than instructions for completion, shall be in at least six point type. The contract shall contain:

1. A specific statement that liability insurance coverage for bodily injury and property damage caused to others is not included, if that is the case; and

2. The following notice:

Notice to the Buyer

a. Do not sign this contract before you read it or if it contains any blank spaces.

b. You are entitled to an exact copy of the contract you sign.

(c) The seller shall deliver to the buyer, or mail to him at his address shown on the contract, a copy of the contract signed by the seller. Before the transaction is consummated, a copy of the retail installment contract, or a separate statement by which the disclosures required by this section are made and on which the buyer and seller are identified, shall be delivered to the buyer. Until the seller has delivered or mailed to the buyer a copy of the retail installment contract, a buyer who has not received delivery of the motor vehicle shall have the right to rescind his agreement and to receive a refund of all payments made and return of all goods traded in to the seller on account of or in contemplation of the contract or, if such goods cannot be returned, the value thereof. Any acknowledgment by the buyer of delivery of a copy of the contract, if contained in the contract, shall appear directly above or adjacent to the buyer's signature.

(d) The contract shall contain the names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer and a description of the motor vehicle including its make, year model, model and identification number or marks.

(2) The contract shall contain the following:

- (a) The cash price of the motor vehicle;
- (b) The amount of the buyer's down payment, itemized, and whether made in money or goods or partly in money and partly in goods. If the down payment is in money it must be listed as "cash down payment"; if in property, it must be listed as "trade-in"; and if both, the sum must be listed as "total down payment";
- (c) The difference between paragraphs (a) and (b), referred to as "unpaid balance of cash price";
- (d) The amounts, if any, included for insurance and other benefits, if not included in the finance charge, specifying the types of coverages and benefits;
- (e) The amount of license, taxes and official fees, if any;
- (f) The amount financed which is the sum of paragraphs (c), (d) and (e) of subsection (2);
- (g) The amount of the finance charge with description of each amount included;

- (i) The deferred payment price which is the sum of paragraphs (2) (a), (d), (e), and (g).

The above items need not be stated in the sequence or order set forth, and additional items may be included to explain the calculations involved in determining the stated total of payments to be paid by the buyer.

(3) The amount, if any included for insurance, which may be purchased by the holder of the retail installment contract, shall not exceed the applicable premiums chargeable in accordance with the rates filed with the department of insurance. If dual interest insurance on the motor vehicle is purchased by the holder it shall, within thirty days after execution of the retail installment contract, send or cause to be sent to the buyer a policy or policies or certificate of insurance, written by an insurance company authorized to do business in this state, clearly setting forth the amount of the premium, the kind or kinds of insurance, the coverages and all the terms, exceptions, limitations, restrictions and conditions of the contract or contracts of insurance. Nothing in this act shall impair or abrogate the right of a buyer as defined herein, to procure insurance from an agent and company of his own selection as provided by the insurance laws of this state; and nothing contained in this act shall modify, amend, alter or repeal any of the insurance laws of the state, including any such laws enacted by the 1957 Florida legislature.

- (4) If any insurance is cancelled, or the

premium adjusted, unearned insurance premium refunds received by the holder shall be credited to the final maturing installment of the contract except to the extent applied toward payment for a similar insurance protecting the interests of the buyer and the holder or either of them.

(5) The holder may, if the contract or refinancing agreement so provides, collect a delinquency and collection charge on each installment in default for a period not less than ten days in an amount not in excess of five per cent of each installment or five dollars, whichever is less. In addition to such delinquency and collection charge, the contract may provide for the payment of reasonable attorney's fees where such contract is referred for collection to an attorney not a salaried employee of the holder of the contract plus the court costs.

(6) No retail installment contract shall be signed by any party thereto when it contains blank spaces to be filled in after it has been signed except that, if delivery of the motor vehicle is not made at the time of the execution of the contract, the identifying numbers or marks of the motor vehicle or similar information and the due date of the first installment may be inserted in the contract after its execution. The buyer's written acknowledgment, conforming to the requirements of paragraph (c) of subsection (1), of delivery of a copy of a contract shall be conclusive proof of such delivery, that the contract when signed, did not contain any blank spaces except as herein provided, and of compliance with this section in any action or proceeding by or against the holder of the contract.

(7) Upon written request from the buyer, the holder of a retail installment contract shall give or forward to the buyer a written statement of the dates and amounts of payments and the total amount unpaid under such contract. History.—§6, ch. 57-799; §6, ch. 59-456; §§13, 35, ch. 69-106; §2, ch. 69-370.

520.08 Finance charge limitation.—

(1) Notwithstanding the provisions of any other law, the finance charge, exclusive of insurance, shall not exceed the following rates:

(a) Class 1. Any new motor vehicle designated by the manufacturer by a year model not earlier than the year in which the sale is made—\$8 per \$100 per year.

(b) Class 2. Any new motor vehicle not in Class 1 and any used motor vehicle designated by the manufacturer by a year model of the same or not more than two years prior to the year in which the sale is made—\$11 per \$100 per year.

(c) Class 3. Any used motor vehicle not in Class 2 and designated by the manufacturer by a year model not more than four

years prior to the year in which the sale is made—\$15 per \$100 per year.

(2) Such finance charge shall be computed on the amount financed as determined under §520.07(2) on contracts payable in successive monthly payments substantially equal in amount. Such finance charge may be computed on the basis of a full month for any fractional month period in excess of ten days. A minimum finance charge of twenty-five dollars may be charged on any retail installment transaction.

(3) When a retail installment contract provides for unequal or irregular installment payments, the finance charge may be at a rate which will provide the same yield as is permitted on monthly payment contracts under subsections (1) and (2) having due regard for the schedule of payment.

(4) Any sales finance company may purchase or acquire or agree to purchase or acquire from any seller any contract on such terms and conditions as may be agreed upon between them. Filing of the assignment, notice to the buyer of the assignment, and any requirement that the holder maintain dominion over the payments or the motor vehicle if repossessed shall not be necessary to the validity of a written assignment of a contract as against creditors, subsequent purchasers, pledgees, mortgagees and lien claimants of the seller. Unless the buyer has notice of the assignment of his contract, payment thereunder made by the buyer to the last known holder of such contract shall be binding upon all subsequent holders.

History.—§7, ch. 57-799; §7, ch. 59-456; §3, ch. 69-370.

520.09 Credit upon anticipation of payments.—Notwithstanding the provisions of any retail installment contract to the contrary, any buyer may pay in full at any time before maturity the debt of any retail installment contract and in so paying such debt shall receive a refund credit thereon for such anticipation of payments. The amount of such refund shall represent at least as great a proportion of the finance charge after first deducting from such finance charge an acquisition cost of twenty-five dollars, as the sum of the monthly balances after the month in which prepayment is made, bears to the sum of all the monthly balances under the schedule of payments in the contract. Where the amount of credit is less than one dollar no refund need be made.

History.—§8, ch. 57-799; §4, ch. 69-370.

520.10 Refinancing retail installment con-

tract.—The holder of a contract, upon request by the buyer, may extend the scheduled due date of all or any part of any installment or installments, or deferred payment or payments, or renew or restate the unpaid balance of such contract, the amount of the installments and the time schedule therefor and may collect for such extension, deferment, renewal or restatement a refinance charge computed as follows: In the event the unpaid balance of the contract is extended, deferred, renewed or restated, the holder may compute the refinance charge on such amount by adding to the unpaid balance the cost for insurance and other benefits incidental to the refinancing plus any accrued delinquency and collection charges after deducting any refund which may be due the buyer at the time of the renewal or restatement by prepayment pursuant to §520.09, at the rate of the finance charge specified in §520.08 (1) and by reclassifying the motor vehicle by its then year model, for the term of the refinancing agreement, but otherwise subject to the provisions of this act governing computation of the original finance charge. The provisions of this act relating to minimum finance charges under §520.08 (2) and acquisition costs under the refund schedule in §520.09 shall not apply in calculating refinance charges on the contract extended, deferred, renewed or restated. If all unpaid installments are deferred for not more than two months, the holder may, at his election, charge and collect for such deferment an amount equal to the difference between the refund required for prepayment in full under §520.09 as of the scheduled due date of the first deferred installment, and the refund required for prepayment in full as of one month prior to said date, times the number of months in which no scheduled payment is made.

History.—§9, ch. 57-799; §8, ch. 59-456; §5, ch. 69-370.

520.12 Penalties.—

(1) Any person who shall wilfully and intentionally violate any provision of this act or engage in the business of a sales finance company in this state without a license therefor as provided in this act shall be guilty of a misdemeanor and upon conviction shall be punished by a fine not exceeding \$500.00.

(2) A wilful violation of §§520.03, 520.07 or 520.08 by the seller or holder shall bar recovery of any finance charge, delinquency or collection charge on the contract.

History.—§11, ch. 57-799; §9, ch. 59-456.

520.13 Waiver.—Any waiver of the provisions of §§520.01-520.10, 520.12, 520.13, shall be unenforceable and void.

History.—§12, ch. 57-799; §3, ch. 61-117; §36, ch. 69-353; §6, ch. 69-370.

520.30 Short title.—This act may be cited as "The retail installment sales act."

History.—§1, ch. 59-414.

520.31 Definitions.—Unless otherwise clearly indicated by the context, the following words when used in this act, for the purposes of this act, shall have the meanings respectively ascribed to them in this section:

(1) "Goods" means all personalty when purchased primarily for personal, family or household use, including certificates or coupons issued by a retail seller exchangeable for personalty or services, but not including other choses in action, personalty sold for commercial or industrial use, money, motor vehicles or construction, mining or quarrying equipment. The term "goods" includes such personalty which is furnished or used, at the time of sale or subsequently, in the modernization, rehabilitation, repair, alteration, improvement or construction of real property as to become a part thereof, whether or not severable therefrom.

(2) "Motor vehicle" means any device or vehicle operated over the public highways and streets of this state and propelled by other than muscular power, but does not include traction engines, road rollers, implements of husbandry and other agricultural equipment and such vehicles as run only upon a track.

(3) "Services" means work or labor furnished for personal, family or household use, whether or not furnished in connection with the delivery, installation, servicing, repair or improvement of goods, and includes such work or labor furnished in connection with the modernization, rehabilitation, repair, alteration, improvement or construction upon or in connection with real property.

(4) "Retail buyer" or "buyer" means a person who buys goods or obtains services from a retail seller in a retail installment transaction and not principally for the purpose of resale.

(5) "Retail seller" or "seller" means a person regularly engaged in, and whose business consists to a substantial extent of, selling goods to a retail buyer.

(6) "Retail installment transaction" or "transaction" means a contract to sell or furnish or the sale of or the furnishing of goods or services by a retail seller to a retail buyer pursuant to a retail installment contract or a revolving account.

(7) "Retail installment contract" or "contract" means an instrument or instruments reflecting one or more retail installment transactions entered into in this state pursuant to which goods or services may be paid for in installments. It does not include a revolving account or an instrument reflecting a sale pursuant thereto.

(8) "Revolving account" or "account" means an instrument or instruments prescribing the terms of retail installment transactions which may be made thereafter from time to time pursuant thereto, under which the buyer's total unpaid balance thereunder, whenever incurred, is payable in installments over a period of time and under the terms of which a finance charge is to be computed in relation to the buyer's unpaid balance from time to time.

(9) "Cash price" means the price for which the seller would have sold or furnished to the buyer, and the buyer would have bought or obtained from the seller, the goods or services which are the subject matter of the retail installment transaction, if such sale had been a sale for cash. The cash price may include any applicable taxes and charges for delivery, installation, servicing, repairs, alterations, or improvements.

(10) "Official fees" mean fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of, or for perfecting, releasing or satisfying, any security related to the credit transaction or the premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges which would otherwise be payable to public officials.

(11) Except as otherwise provided in this part, finance charge shall mean the sum of all charges, payable directly or indirectly by the person to whom the credit is extended, and imposed directly or indirectly by the creditor as an incident to the extension of credit. Charges or premiums for credit life, accident, or health insurance, written in connection with any retail installment transaction, shall be included in the finance charge unless the coverage of the debtor by the insurance is not a factor in the approval by the creditor of the extension of credit and this fact is clearly disclosed in

writing to the person applying for or obtaining the extension of credit and, in order to obtain the insurance in connection with the extension of credit, the person to whom the credit is extended gives specific affirmative written indication of his desire to do so after written disclosure to him of the cost thereof. However, if such insurance coverage is a factor in the approval by the seller of the extension of credit, a charge may be made for the insurance which shall be included in the finance charge for the purposes of disclosure and advertising, but shall be excluded from the finance charge for the purpose of determining maximum permitted charges. Charges or premiums for insurance, written in connection with any consumer credit transaction, against loss of or damage to property or against liability arising out of the ownership or use of property, shall be included in the finance charge unless a clear and specific statement in writing is furnished by the creditor to the person to whom the credit is extended, setting forth the cost of the insurance if obtained from or through the creditor and stating that the person to whom the credit is extended may choose the person through which the insurance is to be obtained. If fees and charges prescribed by law which actually are or will be paid to public officials for determining the existence of, or for perfecting or releasing or satisfying, any security related to the credit transaction; the premium payable for any insurance in lieu of perfecting any security interest otherwise required by the creditor in connection with the transaction, if the premium does not exceed the fees and charges described above which would otherwise be payable; taxes; or any other type of charge which is not for credit and the exclusion of which from the finance charge is approved by the department of banking and finance by regulation, are itemized and disclosed in connection with any transaction, then the creditor need not include that item in the computation of the finance charge with respect to that transaction.

*(12) ["Department" means the department of banking and finance.]

History.—§2, ch. 59-414; §1, ch. 61-398; §1, ch. 63-547; §§12, 35, ch. 69-106; §7, ch. 69-370.

***Note.**—In order to conform to the terminology of §12, ch. 69-106, the editors have substituted a definition of "department" for that of "administrator." This change will be enacted by a subsequent reviser's bill.

520.32 Retail installment; license and fee.—

(1) For the privilege of conducting, engaging in and carrying on the business of retail seller engaging in retail installment transactions as defined in this act, there is hereby levied and assessed upon every such retail seller, for each store located and operated within this state for the conduct of such business an annual license fee in the sum of five dollars.

(2) Licenses shall be issued under and in accordance with the provisions of this act for a period which will expire December 31 next

following the date of issuance. Such licenses shall not be transferable or assignable. Each license shall specify the location of the office or branch and must be conspicuously displayed there. In case such location be changed, the department shall endorse the change of location on the license without charge. No licensee shall transact any business provided for by this act under any other name. Licenses shall be issued only to persons of good moral character, or to corporations whose officers are of good moral character. Fees collected under this section shall be deposited in the state treasury and are hereby appropriated to the department to be used in administering this act.

History.—§3, ch. 59-414; §2, ch. 63-547; §§12, 35, ch. 69-106.

520.331 Denial, suspension or revocation of licenses.—

(1) A license may be denied, suspended or revoked by the department on the following grounds:

(a) Material misstatement in application for license;

(b) Wilful failure to comply with any provision of this act relating to retail installment contracts;

(c) Defrauding any retail buyer to the buyer's damage;

(d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

(2) If the licensee is a firm, association, or corporation, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or trustee of a licensed firm, association or corporation, or any member of a licensed partnership, has so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual. Each licensee shall be responsible for the acts of any or all of his employees while acting as his agent, if such licensee after actual knowledge of said acts retained the benefits, proceeds, profits or advantages accruing from said acts or otherwise ratified said acts.

(3) No license shall be denied, suspended or revoked except after hearing thereon. The department shall give the licensee at least ten days written notice in the form of an order to show cause, of the time and place of such hearing by registered mail addressed to the principal place of business in this state of such licensee. The said notice shall contain the grounds of complaint against the licensee. Any order denying, suspending or revoking such license shall recite the grounds upon which the same is based. The order shall be entered upon the records of the department and shall not be effective until after thirty days written notice thereof given after such entry forwarded by registered mail to

the licensee at such principal place of business. If the licensee fails or refuses to obey the order after such thirty days period has elapsed, the department may file a petition with the circuit court for an injunction to enforce the order. A copy of the department's findings and conclusions of law shall be set forth in such petition. The court hearing such petition shall have the power to issue an appropriate injunction restraining and enjoining such licensee from engaging in the act or acts forbidden by the order of the department. No revocation, suspension or surrender of any license shall impair or affect the obligation of any lawful retail installment contract acquired previously thereto by the licensee.

(4) Within the time provided by the Florida appellate rules after any such suspension or revocation of a license, the person aggrieved may apply for a review thereof pursuant to and in accordance with the provisions of §120.31.

History.—§3, ch. 63-547; §12, 35, ch. 69-106; §1, ch. 69-267.

520.332 Power of department; rules and regulations.—The department may issue and promulgate such rules and regulations as it may deem necessary in the administration of this act and not inconsistent with the provisions of this act.

History.—§4, ch. 63-547; §12, 35, ch. 69-106.

520.34 Retail installment contracts.—

(1)(a) A retail installment contract shall be in writing, shall be signed by both the buyer and the seller, and shall be completed as to all essential provisions prior to the signing of the contract by the buyer.

(b) The printed portion of the contract, other than instructions for completion, shall be in at least six point type. The contract shall contain the following notice:

Notice to the Buyer

a. Do not sign this contract before you read it or if it contains any blank spaces.

b. You are entitled to an exact copy of the contract you sign.

(c) The seller shall deliver to the buyer, or mail to him at his address shown on the contract, a copy of the contract signed by the seller. Before the transaction is consummated, a copy of the retail installment contract, or a separate statement by which the disclosures required by this section are made and on which the buyer and seller are identified, shall be delivered to the buyer, except as provided in §520.35. Any acknowledgment by the buyer of delivery of a copy of the contract, if contained in the contract, shall appear directly above or adjacent to the buyer's signature.

(d) The contract shall contain the names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer, and a description of the goods.

(2) The contract shall contain the following:

(a) The cash price of the goods;

(b) The amount of the buyer's down payment, and whether made in money or goods or partly in money and partly in goods. If the down payment is in money it must be listed as "cash down payment"; if in property, it must be listed as "trade-in"; and if both, the sum must be listed as "total down payment";

(c) The difference between paragraphs (a) and (b), referred to as "unpaid balance of cash price";

(d) The amount, if any, included for insurance and other benefits, if not included in the finance charge, specifying the types of coverages and benefits;

(e) The amount of license taxes and official fees, if any;

(f) The amount financed, which is the sum of paragraphs (c), (d), and (e) of this subsection;

(g) The amount of the finance charge;

(h) The "total of payments," which is the sum of paragraphs (f) and (g), payable in installments by the buyer to the seller, the number of installments, the amount of each installment, and the due date or period thereof.

(i) The deferred payment price which is the sum of paragraphs (2)(a), (d), (e), and (g).

The above items need not be stated in the sequence or order set forth and additional items may be included to explain the calculations involved in determining the stated total of payments to be paid by the buyer.

(3) The maximum number of payments and the amount and date of each payment need not be separately listed if the payments are stated in terms of a series of scheduled amounts and if the amount of the final payment does not exceed the scheduled amount of any preceding installment; in such case the amount of the scheduled final payment may be stated as the remaining unpaid balance. The initial date for the payment of the first installment may be a calendar date or may refer to the time of delivery or installation.

(4) A retail installment contract need not be contained in a single document. If the contract is contained in more than one document, then one such document may be an original document applicable to purchases of goods or services to be made by the retail buyer from time to time, and in such case such document, together with the sales slip, account book, or other written statement relating to each purchase, shall set forth all of the information required by subsections (1) and (2) and shall constitute the retail installment contract for each such purchase.

(5) Notwithstanding the provisions of any other law the seller under a retail installment contract may charge, receive, and collect a finance charge which shall not exceed the following rates: On the amount financed, ten dollars per one hundred dollars per year. The finance charge under this subsection shall be

computed on the amount financed of each transaction, as determined under subsection (2)(f), on contracts payable in successive monthly payments substantially equal in amount, for the period from the date of the contract to and including the date when the final installment thereunder is payable. When a retail installment contract is payable other than in successive monthly payments substantially equal in amount, the finance charge may be at the effective rates provided in this subsection, having due regard for the schedule of payments. The finance charge may be computed on the basis of a full month for any fractional month period in excess of ten days. Notwithstanding the other provisions of this subsection, a minimum finance charge not in excess of the following amounts may be charged on any retail installment contract: twelve dollars on any retail installment contract involving an initial amount financed of fifty dollars or more; seven dollars and fifty cents on a retail installment contract involving an initial amount financed of more than twenty-five dollars and less than fifty dollars; and five dollars on a retail installment contract involving an initial amount financed of twenty-five dollars or less.

(6) No retail installment contract shall be signed by the buyer when it contains blank spaces to be filled in after it has been signed, except that, if delivery of the goods or services is not made at the time of execution of the contract, the identification of the goods or services and the due date of the first installment may be left blank and later inserted by the seller in the seller's counterpart of the contract after it has been signed by the buyer. The buyer's written acknowledgment, conforming to the requirements of subsection (1)(c) of delivery of a copy of a contract shall be presumptive proof, in any action or proceeding, of such delivery and that the contract, when signed, did not contain any blank spaces as herein provided.

(7) The seller under any retail installment contract shall, within thirty days after execution of the contract, deliver or mail or cause to be delivered or mailed to the buyer at his aforesaid address any policy or policies of insurance the seller has agreed to purchase in connection therewith, or in lieu thereof a certificate or certificates of such insurance. The amount, if any, included for insurance shall not exceed the applicable premiums chargeable in accordance with the rates filed with the department of insurance; if any such insurance is cancelled, unearned insurance premium refunds received by the holder shall be credited to the final maturing installment of the contract except to the extent applied toward the payment for similar insurance protecting the interests of the seller and the holder or either of them. Nothing in this act shall impair or abrogate the right of a buyer to procure insurance from an agent and company of his own selection, as provided by the insurance laws of this state;

and nothing contained in this act shall modify, alter or repeal any of the insurance laws of this state. The term "holder" as used in this act, means the retail seller unless seller has assigned the contract, in which case "holder" means the assignee of such contract at the time of the determination.

(8) If the buyer so requests, the holder shall give or forward to the buyer a receipt for any payment when made in cash. At any time after the execution of a contract, but not later than two months after the last payment thereunder, the holder shall, upon written request of the buyer, give or forward to the buyer a written statement of the dates and amounts of payments and the total amount, if any, unpaid thereunder. Such a statement shall be supplied by the holder once without charge; if any additional statement is requested by the buyer, the holder shall supply such statement to the buyer at a charge not exceeding one dollar for each additional statement so supplied.

(9) After payment of all sums for which the buyer is obligated under a contract, and upon written demand made by the buyer, the holder shall deliver or mail to the buyer, at his last known address, one or more good and sufficient instruments to acknowledge payment in full and shall release all security in the goods.

(10) Notwithstanding the provisions of any retail installment contract to the contrary, any buyer may prepay in full at any time before maturity the unpaid balance of any retail installment contract and in so paying such unpaid balance shall receive a refund credit thereon for such anticipation of payments. The amount of such refund shall represent at least as great a proportion of the finance charge, after first deducting therefrom an acquisition cost of fifteen dollars, as the sum of the monthly balances beginning one month after prepayment is made bears to the sum of all the monthly balances under the schedule of payments in the contract. When the amount of such refund credit is less than one dollar no refund need be made.

(11) In a retail installment transaction involving the modernization, rehabilitation, repair, alteration, improvement, or construction of real property:

(a) The buyer may be charged for and there may be collected from him, the reasonable fees and costs actually to be paid for construction authorizations and similar permits issued by public agencies and for title search, title insurance, and services of an attorney relating to any real property mortgage, lien or other encumbrance taken, granted, or reserved pursuant to the contract.

(b) The seller shall not request or accept a certificate of completion signed by the buyer prior to the actual delivery of the goods and completion of the work to be performed under the contract.

History.—§5, ch. 59-414; §2, ch. 61-398; §5, ch. 63-547; §§13, 35, ch. 69-106; §§8, 9, ch. 69-370.

520.35 Revolving accounts.—

(1) Every revolving account shall be in writing and shall be completed prior to the signing thereof by the retail buyer. The printed portion, other than instructions for completion, of any revolving account executed on or after January 1, 1960, shall be in at least six point type. Any such account shall contain the names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer, and substantially the following notice:

Notice to the Buyer

a. Do not sign this before you read it or if it contains any blank spaces.

b. You are entitled to an exact copy of the paper you sign.

A copy of any such account executed on or after January 1, 1960 shall be delivered or mailed to the retail buyer by the retail seller prior to the date on which the first payment is due thereunder. Any acknowledgment by the buyer of delivery of a copy of the account shall be in a size equal to at least six point type and, if contained in the account, shall appear directly above or adjacent to the buyer's signature. No account executed on or after January 1, 1960, shall be signed by the buyer when it contains blank spaces to be filled in after it has been signed. The buyer's acknowledgment, conforming to the requirements of this subsection, of delivery of a copy of an account, shall be presumptive proof, in any action or proceeding, of such delivery and that the account, when signed, did not contain any blank spaces as herein provided. All accounts executed on or after January 1, 1960, shall state the amount of, or the method of calculating, the finance charge to be charged and paid pursuant thereto or shall state that a finance charge not in excess of that permitted by this law will be charged and paid pursuant to such account.

(2) The retail seller under a revolving account shall promptly supply the retail buyer thereunder with a statement as of the end of each monthly period (which need not be a calendar month), or other regular period agreed upon by the retail seller and the retail buyer, in which there is any unpaid balance thereunder, which shall recite the following:

(a) The unpaid balance under the account at the beginning and end of the period using the terms "previous balance" and "new balance";

(b) Unless otherwise furnished by the retail seller to the retail buyer by sales slip, memorandum, or otherwise, the cash price, and the date of each purchase during the period;

(c) The payments made by the retail buyer to the retail seller and any other credits to the retail buyer during the period, using the terms "payments" and "credits";

(d) The amount of the finance charge itemized, if any.

The items need not be stated in the sequence

or order set forth above, and additional items may be included to explain the computations made in determining the amount to be paid by the retail buyer.

(3) Notwithstanding the provisions of any other law, the seller under a revolving account may charge, receive, and collect, a finance charge which shall not exceed fifteen cents per ten dollars per month, computed on all amounts unpaid thereunder from month to month (which need not be a calendar month) or other regular period; however, if the amount of the finance charge so computed shall be less than one dollar for any such month, a finance charge of one dollar for any such month may be charged, received, and collected. If the regular period is other than such monthly period or if the unpaid amount is less than or greater than five dollars, the permitted finance charge shall be computed proportionately. Such finance charge may be computed for all unpaid balances within a range of not in excess of ten dollars on the basis of the median amount within such range, if as so computed such finance charge is applied to all unpaid balances within such range.

History.—§6, ch. 59-414; §10, ch. 69-370.

520.36 Mail order and telephone sales.—

Retail installment contracts negotiated and entered into by mail or telephone without personal solicitation by salesmen or other representatives of the seller, when a catalog of the seller or other printed solicitation of business which is distributed and made available generally to the public clearly sets forth the cash price and other terms of sales to be made through such medium, may be made as provided in this section. All of the provisions of this part relating to contracts shall apply to such sales except that the seller shall not be required to deliver a copy of the contract to the buyer as provided in §520.34(1)(c), and if the contract when received by the seller contains any blank spaces, the seller may insert in the appropriate blank space the amounts of money and other terms which are set forth in the seller's catalog or other printed solicitation which is then in effect. In lieu of sending the buyer a copy of the contract as provided in §520.34(1)(c), the seller shall deliver to the buyer, not later than the date the first payment is due, a written statement of all disclosures required by this part. The seller shall be required to deliver a copy of the contract to the buyer at any time not later than when the first payment is due.

History.—§7, ch. 59-414; §11, ch. 69-370.

520.37 Delinquency charges, attorney's fees and court costs.—

A retail installment contract may provide for payment by the buyer of a delinquency charge on each installment in default for a period not less than ten days. Such charge may not exceed five per cent of such installment or five dollars, whichever is less. A retail installment contract or a revolving account

may provide for the payment of reasonable attorney's fees if referred for collection to an attorney not a salaried employee of the retail seller and for the payment of court costs.

History.—§8, ch. 59-414.

520.38 Transfer of contracts.—Any retail seller may assign, pledge, hypothecate, or otherwise transfer a retail installment contract or revolving account to any person, firm or corporation on such terms and conditions and for such price as may be mutually agreed upon. Filing of the assignment, notice to the buyer of the assignment, and any requirement that any person maintain dominion over the payments under the contract or account or over the goods if repossessed, shall not be necessary to the validity of a written assignment or transfer of a contract or account as against creditors, subsequent purchasers, pledgees, mortgagees and lien claimants of the seller. Unless the buyer has notice of the assignment, payment thereunder made by the buyer to the last known owner of the contract or account shall be binding on all subsequent owners thereof.

History.—§9, ch. 59-414.

520.39 Violations.—

(1) Any person who shall wilfully and intentionally violate any provision of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding \$500.

(2) In case of a wilful violation of this act with respect to any transaction, the retail buyer in such transaction may recover from the person committing such violation (or may set off or counterclaim in any action by such person) an amount equal to the finance charge and any delinquency charge and any at-

torney's fee and court costs charged and paid with respect to such transaction, but the retail seller may recover from the retail buyer an amount equal to the cash price of the goods or services in such transaction and the cost of any insurance purchased by the retail seller for the retail buyer in connection therewith.

(3) A wilful violation of §§520.32, 520.34 or 520.35 by the seller or holder shall bar recovery of any finance charge, delinquency or collection charge on the contract.

(4) Notwithstanding the provisions of this section, no person shall be subject to any penalty for any failure to comply with any provision of this act until the retail buyer or the department has notified such person in writing of such failure and unless within thirty days after such notice such failure is not corrected by such person.

History.—§10, ch. 59-414; (3) §6, ch. 63-547; §§12, 35, ch. 69-106; §12, ch. 69-370.

520.40 Waiver.—Any waiver by the retail buyer of any provisions of this act or of any remedies granted to the buyer by this act shall be unenforceable and void.

History.—§11, ch. 59-414.

520.41 Prior contracts not affected.—The provisions of this act shall not make unlawful contracts or accounts in effect prior to January 1, 1960.

History.—§13, ch. 59-414.

520.42 Construction.—Nothing in this act shall be construed to affect any transaction covered by chapters 516 and 519 and part I of this chapter, or any transaction by any banking institution or state or federal savings and loan association.

520.53 Denial, suspension or revocation of licenses.—

(1) A license may be denied, suspended or revoked by the department on the following grounds:

(c) Defrauding any retail buyer to the buyer's damage;

(d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

(2) If the licensee is a firm, association, or corporation, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or trustee of a licensed firm, association or corporation, or any member of a licensed partnership, has so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual. Each licensee shall be responsible for the acts of any or all of his employees while acting as his agent, if such licensee after actual knowledge of said acts retained the benefits, proceeds, profits or advantages accruing from said acts or otherwise ratified said acts.

(3) No license shall be denied, suspended or revoked except after hearing thereon. The department shall give the licensee at least ten days written notice in the form of an order to show cause, of the time and place of such hearing by registered mail addressed to the principal place of business in this state of such licensee. (2) A licensee operating two or more licensed places of business in this state, may maintain the general control records of all such offices at any one of such offices, or at any other office maintained by such licensee, upon the filing of a written request with the department designating therein the office at which such control records are maintained.

It shall have the power to compel the production of all relevant books, records and other documents and materials relative to an examination or investigation. Such investigations and examinations shall not be made more often than once during a year unless the department has reason to believe the licensee is not complying with the provisions of parts II and III of this chapter. The expenses of the department incurred in each such examination of a sales finance company licensed under this act shall be paid by such finance company so examined within thirty days after demand therefor by the department, and shall not exceed thirty-five dollars per day for each eight hour man-day for time actually consumed in making such examination, plus the traveling expense and per diem subsistence allowance provided for state employees in §112-061. Expense thus recovered shall be deposited in the state treasury as a reimbursement to the biennial appropriation for expenses incurred in enforcing this act. The licensee shall not be required to pay a per diem fee and expenses of an examination which shall consume more than thirty man-days in any one year unless such examination or investigation is due to fraudulent practices of the licensee, in which case such licensee shall be required to pay the

entire cost regardless of time consumed.

(2) Any retail buyer having reason to believe that part II or III of this chapter relating to his retail installment contract has been violated may file with the department a written complaint setting forth the details of such alleged violations and the department upon receipt of such complaint, may inspect the pertinent books, records, letters and contracts of the licensee and of the retail seller involved, relating to such specific written complaint.

(2) If any person shall refuse to obey any such subpoena, or to give testimony, or to produce evidence as required thereby, any judge of the circuit court may, upon application and proof of such refusal, make an order awarding process of subpoena, or subpoenas duces tecum, out of the circuit court, for the witness to appear before the department and to give testimony, and to produce evidence as required thereby. Upon filing such order in the office of the clerk of the circuit court, the clerk shall issue process of subpoena, as directed, under the seal of said court, requiring the person to whom it is directed, to appear at the time and place therein designated.

(3) If any person served with any such subpoena shall refuse to obey the same, and to give testimony, and to produce evidence as required thereby, the department may apply to any judge of the circuit court for an attachment against such person, as for a contempt. The judge, upon satisfactory proof of such refusal, shall issue an attachment, directed to any sheriff, constable or police officer, for the arrest of such person, and upon his being brought before such judge, proceed to a hearing of the case. The judge shall have power to enforce obedience to such subpoena, and the answering of any question, and the production of any evidence, that may be proper, by a fine, not exceeding \$100.00 or by imprisonment in the county jail, or by both fine and imprisonment and to compel such witness to pay the costs of such proceeding to be taxed.

(4) The department may issue and promulgate such rules and regulations as it may deem necessary in the administration of this act and not inconsistent with the provisions of this act.

537.04 Licensing.

(1) It is unlawful for any person to engage

in the business or to act in the capacity of a yacht and ship broker or salesman, or to accept compensation for acting in either capacity in whole or in part, without first obtaining license so to do.

(2) Only the person to whom a license is issued may perform or offer to perform any services subject to the provisions of this chapter.

(3) No fictitious name shall be used by a broker in the conduct of any business for which a license is required under this chapter unless a license bearing such fictitious name has been issued to said broker.

(4) This chapter does not apply:

(a) To a transaction involving the sale by an individual or corporation of his or its own yacht or ship.

(b) To an attorney at law for services rendered in his capacity as attorney at law.

(c) To any receiver, trustee in bankruptcy or other person acting under the order of any court.

(d) To a transaction involving the sale of a new yacht or ship or trade thereon.

(e) To any transaction involving the foreclosure of a security interest in a yacht or ship.

(5) Any person purchasing used yachts or ships for resale must transfer actual title to any such yacht or ship into his name and have in his possession, subject to inspection by the division, a good and sufficient title or bill of sale if such person wishes to claim exemption under this chapter.

(6) All applications for licenses shall be made in writing and every application shall be accompanied by the recommendations of two citizens of good repute of the county in which the applicant resides or has his place of business certifying that the applicant is honest, truthful and of good reputation; that he maintains a year-round operation and recommending that the applicant be granted a license. An applicant shall be at least twenty-one years of age. If he has not resided or engaged in business in the county for at least one year, three yacht and ship brokers may make such recommendation.

(7) The division may deny a license to any applicant who fails to:

(a) Pass the written examination.

(b) Furnish satisfactory certification of honesty, truthfulness, good reputation and recommendations that license be issued.

(c) Certify that he has never been convicted of a felony.

(d) Post the required bond as provided in subsection (8).

(8) Every applicant for a broker's license or renewal thereof shall deposit with the division a good and sufficient surety bond issued by a company authorized to do business in the state in the amount of five thousand dollars, and in such form and on such conditions as the division may require for the protection of persons with

whom the applicant may deal as a licensee, or, in lieu thereof, bonds of the United States government with a cash value in a like amount; it shall be necessary for the broker to continue the bond while employed or acting as a yacht or ship broker in the state and for those who have deposited United States government bonds to leave them on deposit for a period of one year after ceasing to be a broker.

(9) Every applicant for a salesman's license or renewal thereof shall deposit with the division a similar bond or equivalent thereto in the sum of one thousand dollars, as provided in subsection (8), subject to the same conditions as set forth therein.

(10) Any person claiming to be injured by the fraud, deceit or wilful negligence of any broker, of any broker's salesman, or by the failure of any broker or salesman to comply with the provisions of this chapter, may bring an action upon the bonds deposited with the division against both the principals and the surety in any court of competent jurisdiction to recover the damage caused by such fraud, deceit, wilful negligence or failure to comply with the provisions of this chapter. In the event that any broker fails to pay any sum owed to any creditors arising out of any transaction in which such broker acted in his capacity as a broker, the division shall call and hold a hearing to determine the names of all such creditors to determine the amounts due and owing to them and to each of them. The publication of one notice in a newspaper or magazine of general circulation devoted to news of the yacht and ship business shall constitute good and sufficient notice of such hearing. Each creditor claiming that a sum is owed to him shall file with the division at the hearing a verified statement of his claim. Upon ascertaining all claims and statements in the manner herein set forth, the division may then make demand upon the bond on behalf of those claimants whose statements have been filed, and shall have the power to settle or compromise said claims with the surety company on the bond, and is empowered in such cases to execute and deliver a release of said bond and a discharge of further liability. If the surety company refuses to pay the demand, the division shall thereupon bring an action on the bond in behalf of said creditors.

(11)(a) Upon any action being commenced on said bond, the division may require the filing of a new bond and immediately on the recovery in any action on such bond, the broker involved shall file a new bond. Failure so to do within ten days shall constitute grounds for the suspension or revocation of his license.

(b) Upon the filing of notice with the division by any surety of its withdrawal as surety for any licensee under the provisions of this section, the division shall forthwith notify the licensee of such withdrawal, by registered mail addressed to his principal office as shown by the records of the division, with request for

return receipt. The license of any licensee shall be suspended and shall be returned to the division upon the termination of the bond of the surety as provided in this section, unless, prior to the termination, a new bond has been filed with the division.

(12) Every broker seeking a license under this chapter shall maintain a place of business within the state which shall be operated on a year-round basis as his principal office and may establish branch offices elsewhere in the state. Every broker maintaining more than one place of business within the state shall procure an additional license for each office maintained by him.

(13) (a) Every license issued to a corporation entitles an officer of the corporation to act as a licensee under the license and every license issued to a copartnership entitles one member to act as the licensee under the license. Any member of a copartnership who desires to act as a broker or salesman under this chapter on his own behalf shall procure a license.

(b) Every corporation making application for a license under this chapter shall furnish the division with a resolution of its board of directors, giving the name of the officer who is to act for and on behalf of the corporation, and every copartnership making an application for a license under this chapter shall set forth in the application the name of the partner who is to act under a license for and on behalf of the copartnership.

(c) Every corporation licensed under the provisions of this chapter may, by a resolution of its board of directors, substitute another officer for the one named in the license; provided the person to be substituted qualifies by passing a written examination and the corporation pays the required fees, as set forth in this chapter.

(d) Every copartnership licensed under the provisions of this chapter may substitute another partner for the one named in the license; provided, such partner qualifies by passing the written examination and the copartnership pays the required fees as set forth in this chapter.

(14) Any person who has been denied a license or whose license has been revoked or is under suspension or has not been renewed while under suspension, or any person who has been a member of a partnership or an officer or director of a corporation the license of which has been revoked or is under suspension or has not been renewed while under suspension and who while acting as such partner, officer or director participated in the act for which the license was suspended or revoked, may be prohibited from serving as a member of a licensed partnership or as an officer or director of a licensed corporation, and the employment, election or association of such person in such capacity by an applicant or a licensee shall constitute ground for the denial of an application and the suspension or revocation of a license.

(15)(a) Every license shall be prominently displayed in the office of the broker in which the business of the broker or salesman is transacted.

(b) Every salesman's license shall remain in the possession of the broker by whom the salesman is employed until canceled or until he leaves the employment of the broker. Immediately upon the salesman's withdrawal from the employment of the broker, the broker shall return the salesman's license to the division for cancellation.

(16) Upon the issuance of a license, a pocket card of such size, design, and content as may be determined by the division may be issued without charge to each licensee, if an individual, or if the licensee is a person other than an individual, to its manager and to each of its officers, directors, members and partners, which card shall be evidence that the licensee is duly licensed pursuant to this chapter. When any person to whom a card is issued terminates his position, office or association with the licensee, the card shall be surrendered to the licensee and within five days thereafter shall be mailed or delivered by the licensee to the division for cancellation.

History.—§4, ch. 65-562; §1, ch. 67-483; §§16, 35, ch. 69-106.

537.05 Regulation of transactions.—

(1) Within one month after the closing of a transaction in which title to a yacht or ship is conveyed from a seller to a purchaser through a licensee under this chapter, such licensee shall inform or cause the information to be given to the seller and purchaser in writing of the selling price thereof; and in the event an exchange of yachts or ships is involved, such information shall include a description of said property and amount of added money consideration, if any. If any transaction is closed through escrow and the escrow holder renders a closing statement which reveals such information, this shall be deemed compliance with this section on the part of the licensee.

(2) Before any licensee under this chapter shall engage in any transaction for which a license is required under this chapter, he shall obtain a written authorization from his principal to so act. A telegraphic authorization from the principal shall be deemed to comply with the requirements of this section.

(3) When a licensee prepares or there is prepared on behalf of a licensee an agreement authorizing or employing such licensee to purchase, sell or exchange a yacht or ship, for compensation or commission, such licensee shall deliver a copy of the agreement to the person signing it. Receipt for said copy may be made on the face of the agreement.

History.—§5, ch. 65-562.

537.06 Disciplinary proceedings.—

(1) The division may upon its own motion and shall upon the verified written complaint of any person, investigate the actions of any broker or salesman, whether or not licensed.

(2) Proceedings under this chapter shall

be conducted in accordance with the rules and regulations of the division.

(3) The division may suspend or revoke the license of a broker or salesman who commits any of the following acts:

(a) Makes a substantial and intentional misrepresentation upon which any person has relied.

(b) Makes a false warranty of a character likely to influence, persuade or induce any person with whom business is transacted under this chapter.

(c) Engages in a continued and flagrant course of misrepresentation or makes false warranties, whether or not relied upon by another person.

(d) Acts for the buyer and seller in a transaction without the knowledge and consent of both parties.

(e) Commingles the money or other property of his principal with that of his own.

(f) Performs any act or participates in any transaction which belongs to or is connected with a class for which he is not licensed.

(g) Uses coercive or oppressive methods for the purpose of obtaining business or of procuring an exclusive listing, or participates in a transaction knowing that such means have been or will be employed therein.

(h) Quotes prices higher than the gross listing prices.

(i) Resorts to fraud or dishonesty in the conduct of any transaction with his principal or other persons.

(j) Permits the use of his name to assist any person who is not a licensed yacht and ship broker or salesman to evade the provisions of this chapter.

(4) The division may suspend or revoke the license of a broker or salesman who within three years immediately preceding has committed any of the following acts or against whom and within said period, any of the following conditions exist:

(a) Procured a license under this chapter for himself or another by fraud, misrepresentation, falsification or deceit.

(b) Has been convicted of a felony and has withheld information of that fact from the division.

(c) Knowingly authorized, directed, connived, aided or otherwise participated in the publication, advertisement, distribution or circulation of any materially false statement or representation concerning his business or any transaction coming under the provisions of this chapter.

(5) An action to suspend or revoke the license of a broker or of a salesman for a violation of the provisions of this section shall be commenced within three years after the discovery by the division of such violation.

(6) A plea of nolo contendere, a conviction or a plea of guilty or a verdict of guilty to a charge of felony or of any offense involving

moral turpitude is deemed to be a conviction within the meaning of this chapter. The division may order the license suspended or revoked, or may decline to issue a license when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made, suspending the imposition of sentence, irrespective of a subsequent order under the provisions of the penal code allowing such person to withdraw his plea of guilty, or dismissing the accusation, information or indictment.

(7) The adjudication of insanity or mental illness, or the voluntary commitment or admission to a state or other mental hospital of any licensee because of a mental illness, may operate as a cause for suspension of the right of any licensee to engage in business under this chapter, the suspension to continue until restoration to or declaration of sanity or mental competence. The record of adjudication, judgment or order of voluntary commitment is conclusive evidence of insanity or mental illness and upon receipt of a certified copy of any such adjudication, judgment, voluntary commitment or order, the division may immediately suspend the license of the person so adjudicated or committed. The division shall not restore such license to good standing until it shall have received evidence of restoration of mental competence and is confident that, with due regard for the public interest, such person's right to engage in business under the provisions of this chapter may be safely reinstated. In the case of a voluntary commitment to a state hospital or other institution for the treatment of mental illness, receipt of a certificate of discharge from such institution and the certificate of the superintendent in charge stating that the licensee is restored to mental competency, shall constitute competent evidence of restoration of sanity. Before reinstating such license, the division may require the person to pass an oral examination to determine his present fitness to resume his practice.
